Kinter[®]

800-323-2389 | kinter.com

Why **Kinter**?

At Kinter, our mission is to make display hardware effortless for retailers.

We deliver a human-focused approach—tell us what you need and when you need it, and we'll work out the logistics to make it happen.

Respect is paramount at Kinter. We treat our employees with respect, they treat our customers with respect and we build long-lasting relationships built on trust and reliability. Our smart, friendly team members listen to your needs and don't stop working until your retail display challenge has been solved.

There's a better way to do business.

Whatever you need. Whenever you need it. One phone call. Problem solved.

“Our approach to business is simple — treat each other and our customers like family. We do whatever it takes to help our customers succeed.” – Paul White

800-323-2389

Worldwide Coverage **and Support**

Kinter proudly offers global product and customer support. It's not just our facilities that span the globe—it's our reputation for quality and our ability to deliver products to meet your project requirements.

No matter where you are or what you need, Kinter can help.

If You Can Imagine It, **We Can Create It**

In addition to our catalog of products, we are proud to offer the following capabilities to help you meet your retail hardware needs—discovering and designing innovative solutions beyond what you thought possible.

Custom Design, Prototyping, 3-D Printing and Manufacturing

Seeking a custom design? Kinter offers custom design services, manufacturing, and production-ready solutions based on your specific requirements or preferences. Our on-site engineering lab supports custom 3-D printing and prototyping to validate product design, functionality, and performance. From highly detailed and complex designs to simple turnkey solutions, Kinter has the expertise and on-site capabilities to get you what you need, quickly.

“Everyone has the same game plan—to succeed for the customers.” – Garrett Wagner

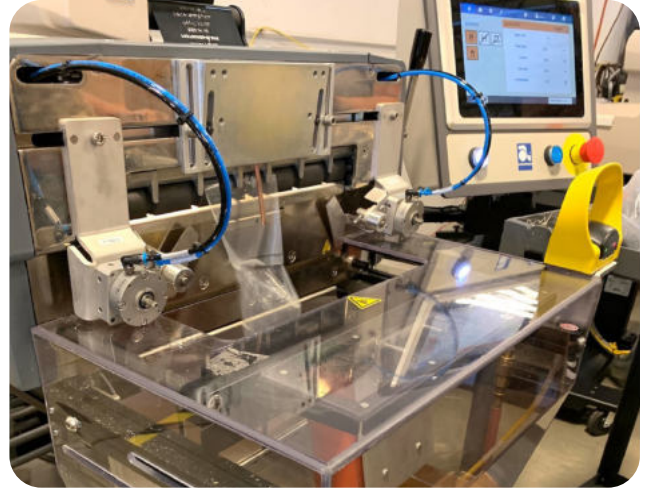

Injection Molding, Custom Extrusion, and Metal Fabrication

At Kinter, we take pride in providing solutions to your retail hardware challenges. Our fully integrated in-house capabilities include:

- » CNC & EDM Tooling
- » Injection Molding
- » Custom Extrusion
- » Material Selection
- » Metal Fabrication
- » Heat Bending

When we say we can 'solve' your retail display hardware problems, we mean it.

Secondary Operations

Secondary operations always fly under the radar, but at Kinter, we want to ensure our customers know everything we have to offer! Add even greater efficiency to your display hardware acquisition.

In-house fulfillment.

- » High-speed bagging and boxing
- » Labeling and instructions
- » Direct-to-store shipments
- » Co-packing with customer supplied parts

Free Samples

At Kinter, we want to help you make informed decisions when it comes to your retail display hardware needs. That's why we offer free samples.

Our sample rack is stocked with thousands of our most in-demand P.O.P. sign and display hardware items. Whether it's just a couple of items that you need or the entire rack, call 800-323-2389 and we'll ship you what you need for free* today.

** Certain conditions apply*

The Industry's **Best Selection** of **Fasteners**

We opened our doors in 1980 as a standard nut and bolt distributor. Today, some of the nation's best-known retailers trust us for overnight shipping on over 30K different standard and specialty fasteners.

Call 800-323-2389 for prompt, expert assistance with all your display hardware needs. And a little Kinter love in every shipment.

Company **Timeline**

1980

Where It All Began

Our founders start selling nails out of their garage in Royal Oak, MI.

625 sq. ft

1997

Building Out

Continued growth leads to taking on more space in the Lee Avenue location.

12,500 sq. ft

1985

Movin' On Up

Rapid growth and product line expansion leads to a move — to Lee Avenue in Gurnee, IL.

5,500 sq. ft

2012

Going Bigger

Explosive growth leads us to significantly larger space on Oak Grove Avenue in Waukegan, IL.

115,000 sq. ft

2022

Even Bigger

We are excited to keep growing and expanding our Oak Grove Campus with the addition of our third facility.

300,000+ total sq. ft

2004

Going Big

We build our first warehouse — on Ryan Road in Gurnee, IL.

32,000 sq. ft

2019

New Heights

Six very productive years later, we expanded yet again. We built a second facility next door on Oak Grove Avenue.

200,000+ total sq. ft

New Products

Page 31

Mini "Stick-On" Tag

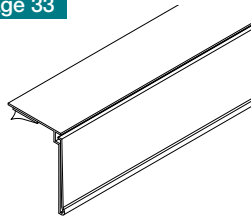

Simple "stick-on" tag attaches to the edge or underside of shelves/tables. Just fold along the score line, remove the tape liner and press into place.

- Accepts adhesive labels up to 1-3/8" high and 2" long
- Custom sizes available – please inquire
- 9 mil thick
- Clear rigid PVC

ITEM #	HEIGHT	LENGTH	COLOR
150367	1-3/8"	2"	Clear

Page 33

Shelf-Top Adhesive Info Strips

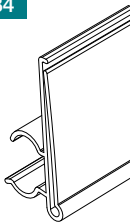

Hang signs over the edges of shelves or other horizontal surfaces – just peel and stick the foam-tape adhesive. Scan codes through the clear facing. Economically hold and protect data tickets, UPC inserts or signs. Change labels easily.

- Accepts 1-1/4" height signs/tags
- "L" top window helps protect from spills
- Other lengths and back colors available – please inquire
- PVC material

ITEM #	LENGTH	TYPE OF BACKING	BACK COLOR
140984B	47-7/8"	Adhesive Top	Black
140984W	47-7/8"	Adhesive Top	White

Page 34

Narrow Double-Wire Shelf Info Strip

Display pricing and promotions on 13/16" height double-wire shelves, sometimes in cooler or freezer cases. Hold and protect data tickets, UPC inserts or signs. Scan codes through the clear facing. Change labels with ease.

- Snaps onto 13/16" height double-wire shelves
- Two label heights to choose from
- Custom lengths and back colors available – please inquire
- PVC material

ITEM #	HEIGHT	LENGTH	BACK COLOR
140933B	1-1/4"	19.5"	Black
140858	1-1/2"	17"	Clear

Info Strip For Glass Shelving

Hold and protect data tickets, UPC inserts or signs on common glass shelves. Friction-fit leg attaches quickly and easily. Scan codes through the clear facing. Change labels with side or top insertion/removal while T-top window helps protect labels from spills.

- Fits glass shelves 1/4" to 3/8" thick
- Accepts labels 1-1/4" height
- Custom lengths available – please inquire
- Durable .038" thick clear PVC

ITEM #	HEIGHT	LENGTH	TYPE OF BACKING	BACK COLOR
140960	1-1/4"	47-7/8"	Slide-On	Clear

Page 36

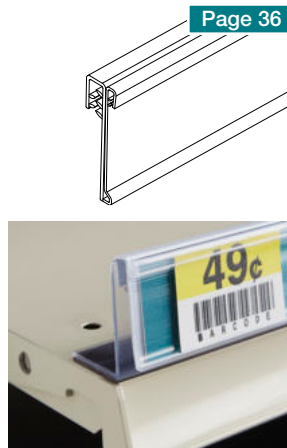

Grip-On Gripper Info Strip

Unique info strip with back-to-back grippers – one on the back to grip shelf fences or corrugated edges, and another on the front to hold small signs or tags. Clear front window holds and protects additional labels and data strips. Change labels with ease.

- Back grip capacity is .040"
- Front grip capacity is .025"
- Other back colors and lengths available – please inquire
- PVC material

ITEM #	HEIGHT	LENGTH	BACKING	BACK COLOR
150019B	1-3/8"	28-7/8"	Gripper	Black
150019W	1-3/8"	28-7/8"	Gripper	White

Page 36

Economy "C" Channel Shelf Molding

A more economical version of our "C" Channel Shelf Molding – with a thinner profile than our standard style – attaching to flat shelving fronts or clean, flat surfaces. Open face design accepts common 1-1/4" tickets, tags or signs. Simply peel adhesive liner and press into place.

- Add pricing/advertisements anywhere with little cost
- 48" length
- Custom lengths and colors available – please inquire
- HIPS material

ITEM #	HEIGHT	COLOR	TYPE OF BACKING TAPE
140940	1-1/4"	White	Transfer Tape
140940B	1-1/4"	Black	Transfer Tape

Page 37

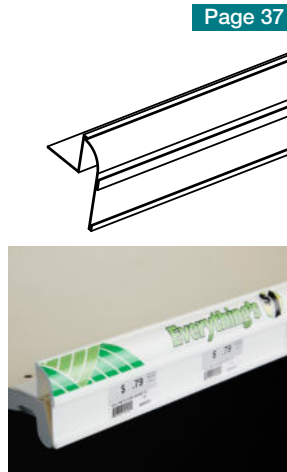

Double "C" Channel With Holes

Arched "C" channel has two levels, allowing multiple messages to be displayed simultaneously. Hangs off standard 48" shelves using shelf fastener #120450 (sold separately).

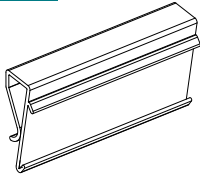

- Each track accepts 1-1/4" height signs/tags
- Top track is curved backward for improved visibility
- Other lengths and colors available – please inquire
- White styrene material

ITEM #	STYLE	LENGTH	TYPE OF BACKING	COLOR
140900	2-Track	47-7/8"	Hole-Mounted	White

Page 37

Page 40

Clip-On "C" Channel Label Holder

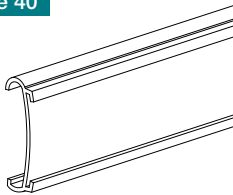

Simple clip-on label holder, attaching to the edges of acrylic bins, wire racks, front fences or corrugated displays. Advertisements or info strips slide into the open "C" channel. Clamps securely but removable and reusable.

- Two channel heights to choose from
- Custom lengths available – please inquire
- Durable plastic material

ITEM #	CHANNEL HEIGHT	LENGTH	MATERIAL	COLOR
140925	1"	3"	PVC	Black
150022	1-1/4"	3"	HIPS	Black

Page 40

C-Channel for Metro® Shelving

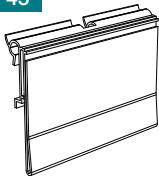

Snaps to the front of Metro® brand wire shelves. Curved, open face design accepts common data tickets, tags or signs.

- Insert common 1-1/4" height signs
- Additional lengths and colors available – please inquire
- Gray or clear PVC material

ITEM #	HEIGHT	LENGTH	COLOR
140962	1-1/4"	3"	Gray
140962C	1-1/4"	3"	Clear
150967C	1-1/4"	44-1/4"	Clear

Page 45

Dual-Purpose Flip-Up Label Holder

Unique label holder with two uses: It attaches to common "C" channel shelving fronts, and also hangs from Kinter's "T-scan" and "scan hook" metal peg hooks (sold separately). Insert and change labels behind the clear window or stick adhesive labels to the front. Flips up for easy access to inventory below and returns to original position.

- Holds labels up to 2" high and 3-1/4" long
- For adhesive or non-adhesive labels
- Custom lengths available – please inquire
- Durable .040" thick material
- Clear PVC

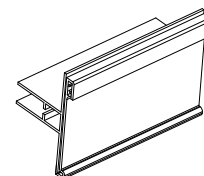

ITEM #	HEIGHT	LENGTH	COLOR
108930	2"	3-1/4"	Clear

Info Strip Gripper Label Holder For Scan Hook

Snaps onto common 4-gauge scan hooks (sold separately) with a self-centering hole. Clear window provides a clean appearance while protecting data tickets or UPC inserts. Scan codes through the clear facing or stick adhesive labels to the front. As a bonus, gripper fins along the top edge allow thin signs to be held outside the window.

- Designed to fit common 4-gauge hooks (0.212" to 0.225" dia.)
- For adhesive or non-adhesive labels
- Custom lengths available – please inquire
- Clear PVC material

ITEM #	WIRE SIZE	HEIGHT	LENGTH	COLOR
140871	4 Gauge	1-1/4"	2"	Clear

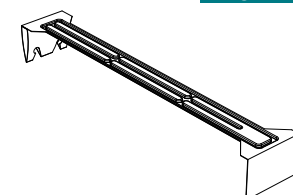

Heavy-Duty Pegboard Hook Overlay

A heavy-duty version of our Pegboard Hook Overlays, converting single-prong hooks into “scan plate” hooks. This heavy-duty style fits our 10" Single Prong All-Wire Pegboard Hooks and our Single Prong Plastic Back Metal Pegboard Hooks (sold separately). Fold the back into a triangular wedge using the tape strip and insert over the hook prongs. Display adhesive labels on the front.

- Fits onto and extends the length of 10" hooks
- Front area holds adhesive labels up to 1-3/8" height x 2-1/8" wide
- Ships flat with minor assembly required
- Other lengths and label sizes available – please inquire
- 13 mil thick, clear rigid PVC material
- Packaged 25 pieces per bag

ITEM #	FITS SINGLE PRONG PEGBOARD HOOKS	STYLE
109650	10" Long	For Adhesive Labels

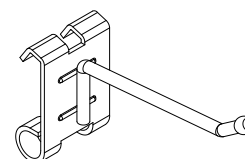

Curl Back Crossbar Hook

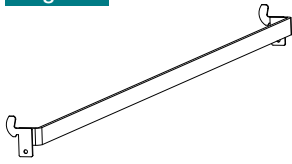

Sturdy metal hook with welded backplate hangs on 3/16" x 1" crossbars or 1" wire grids. Great for endcap merchandisers, including Kinter's Wire Power Wings #181518 (sold separately). Installs easily with firm stability.

- Curl back design provides friction fit
- Upturn style end with ball tip for safety
- Zinc plated steel material
- Other sizes and finishes available – please inquire

ITEM #	WIRE GAUGE	STEM LENGTH
161402	.149" dia. (9 ga.)	2"

Page 54

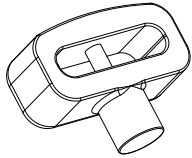

Universal Crossbar

- Use to create 3-dimensional, tiered displays
- Installs into most standard gondola uprights
- Compatible with various crossbar hooks and accessories
- Custom depths available – please inquire

ITEM #	DIMENSIONS	FINISH
180200	1-3/8" Deep x 1" Height x 48" Long	Chrome

Page 63

Stop Lock For Loop Hooks

Save money by deterring theft of pegged merchandise. Secure stop lock attaches to common metal loop-style hooks. Controlling inventory is quick and easy with magnetic key #109527 (sold separately).

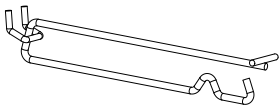

- Works on loop hooks up to .250" wire
- Overall size is 1.38" height x 1.79" wide
- Bright color provides notice to customers that product is locked and protected

ITEM #	FOR USE ON	COLOR
109626	Loop Hooks	Red

Page 64

Anti-Sweep Metal Hook With T-Scan Bar

Deter product sweeping with this specialized metal peg hook. It uses a built-in hump and upturn end to allow only one product to be removed at a time. Hang in standard pegboard, and prevent theft/tampering with our Security Peg Back Lock #200009 (sold separately).

- An economical and effective way to enhance loss prevention
- Works as a normal peg hook when single products are removed
- No tools required for installation
- Security Peg Back Lock and label holders sold separately

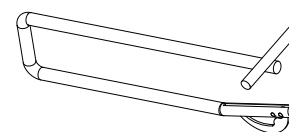

ITEM #	WIRE GAUGE	STEM LENGTH	FINISH
200026	.212" dia. (4 ga.)	6"	Galvanized

200009	Security Peg Back Lock	n/a	Galvanized

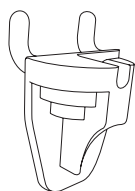

Take-One Metal Hook With T-Scan Bar

Deter product sweeping with this specialized metal peg hook. It uses a “stop trigger” mechanism to allow only one product to be removed at a time. Hang in standard pegboard using Kinter #107734 Speedy-Back Adapter (sold separately), and prevent theft/tampering with our Security Peg Back Lock #200009 (sold separately).

- An economical and effective way to enhance loss prevention
- Works as a normal peg hook when single products are removed
- No tools required for installation
- Pegboard adapters and label holders sold separately

200009	Security Peg Back Lock	n/a	n/a	Galvanized

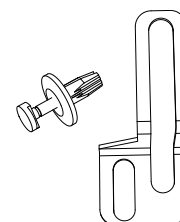

#107734 Speedy-Back Adapter required (sold separately)

Security Peg Back Lock

Connect hooks to standard pegboard to prevent theft or tampering. Simply slide bracket over the hook and secure using the included Heavy Duty Expand-A-Lock (Kinter #120399W). Fasteners expand in pegboard and lock in place.

- Steel security bracket is 1-1/8" wide x 2-1/2" height
- White fasteners included; black fasteners available upon request
- Each sealed polybag contains 25 brackets and 25 fasteners
- Additional fasteners sold separately

ITEM #	CONTENTS
200009	25 Security Brackets and 25 White Fasteners

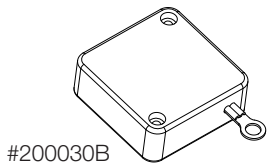

Our new, state-of-the-art engineering lab offers expanded capabilities in retail display hardware design, prototype development, and advanced 3D printing.

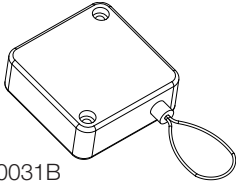

K-Lock® Security Tethers – Standard Duty

- Deter shoplifters with security tethers for handheld merchandise
- Ideal for electronics, power tools and more
- 1/32" x 36" long nylon coated cable with various end styles (see chart)
- Tethers retract automatically when not pulled
- High-impact plastic boxes measure 1-5/8" length x 1-5/8" width x 5/8" height
- Use the adhesive backing to attach to flat surfaces, or mount to metal shelves using Kinter screw #4N100SPPDZ (sold separately) using the two mounting holes

Solid Contoured Shelf Divider

A variation of our Contoured Shelf Divider, but in solid form with no breakaway sections. Simple and inexpensive shelf management system to organize or separate products. Crystal clear divider attaches to standard shelving units (fasteners sold separately).

- Radius corners for safety
- Durable .10" thick wall
- Additional heights or lengths available
- Crystal clear styrene

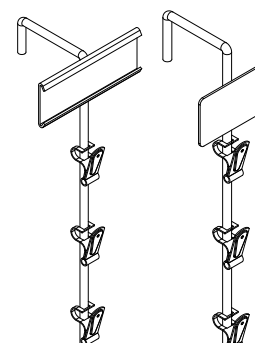

ITEM #	HEIGHT	LENGTH
150354	3"	14-1/4"

Shelf-Top Metal Merchandising Strips

Similar to our regular Metal Merchandising Strips, but hang directly over perforated shelf tops, with no other hardware needed. Great for displaying heavier items one above the other, especially in high-traffic areas. Steel clips firmly hold products.

- Square-top cane hangs over perforated shelves
- Available with scan plate for stick-on labels, or "C" channel for slide-in labels. Scan plate measures 1-3/8" height x 2-1/8" wide; "C" channel measures 1-1/4" height x 3-1/2" wide
- Sturdy 0.212" dia. steel pole, painted beige
- Available in other lengths or colors – please inquire

- Attractive synthetic wicker basket enhances product display
- Wire reinforced with double-wrapped edges
- Other sizes and colors available – please inquire

ITEM #	SIZE	COLOR
180029	16" Long x 12" Wide x 2-1/2" Deep	Brown

Page 88

Universal Pallet Floor Sign Holders

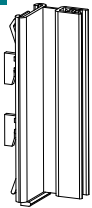

Display promotional signs or pricing information for pallet-stacked merchandise. Simply slide the flexible wire foot into any side of a standard pallet. Signs are elevated approximately 8" off the floor and tilted backward for optimal viewing. Durable for indoor or outdoor use.

- One case includes the components for 10 complete sets: 10 metal bases, 10 sign frames and 40 sign pins (Kinter #120451B, four per frame)
- Sign pins hold graphics firmly in windy conditions
- Pins can be removed and reused, but additional pins can be purchased separately if necessary
- Wire foot is black painted steel; sign base is durable black plastic
- Custom frame sizes/colors available – please inquire
- Sold in full cases only

ITEM #	SIGN SIZE	COLOR
150464B	5" tall x 7" wide	Black
150465B	7" tall x 11" wide	Black
150466B	8-1/2" tall x 11" wide	Black

Page 106

Gondola Upright "Offset" Gripper Sign Holder

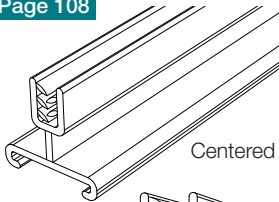

A variation of our traditional Gondola Upright Gripper Sign Holder. Here, the grippers are "offset" to one side, not centered. Ideal for end cap displays. Gripper fins hold signs in vertical (flag) position. Use two or more holders for larger signs. Sold unassembled.

- Base fits most standard gondola uprights
- Grippers are 3" long x 3/4" wide base
- Grippers are clear PVC material
- Base is white ABS material
- Gripper portion can be used on other Kinter bases – please inquire

ITEM #	STYLE	GRIP CAPACITY

Adhesive Wire Grid Sign Holder

Display signs on common wire grid fixtures for increased visibility, using the peel-and-stick foam tape adhesive. Great for use on most standard power wing fixtures. Double clip-on design firmly attaches to wires and prevents rotation.

- Fits 1" wire grid fixtures up to 0.188" diameter
- Peel-and-stick adhesive area is 2" tall
- 1-1/4" wide
- Custom widths available
- Clear PVC material

ITEM #	OVERALL HEIGHT
140896	2-1/8"

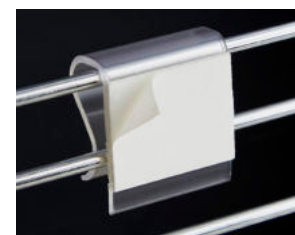

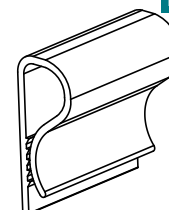

R-Clip With Adhesive

An improved version of our All Purpose Adhesive Clip, now with five gripping "teeth" to help keep signs in place. Sign materials slide in for firm grip. Adheres to any clean, flat surface or can be snapped over wire, using the adhesive side to hold signs, lightweight displays or literature holders.

- 1" wide adhesive back (white foam tape)
- Custom lengths also available
- Clear PVC material

ITEM #	HEIGHT	MAX. GRIP CAPACITY	MAX. WIRE DIAMETER
140857	1"	.200"	.300"

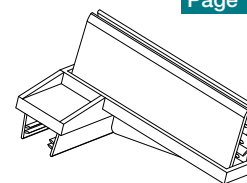

Perpendicular Gripper Sign Holder

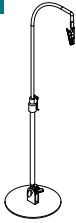

Attach signs across open freezer cases or display cases using this perpendicular sign holder with dual grippers, fused together on a high-impact plastic base. Features a heavy-duty bottom gripper and a second gripper on top to hold graphics. Use two units on either side of freezer/display cases to support larger blade signs.

- Bottom gripper has a capacity of .625" to .750"
- Sign gripper has a capacity of .187" to .250"
- Grippers are clear PVC
- Connecting base is clear polycarbonate

ITEM #	HEIGHT	LENGTH	COLOR

Economy Hand Swager

Our most economical cable tool, yet versatile. Use for hand compression of 1/32", 3/64" and 1/16" aluminum and copper cable sleeves (crimps) and stops. Make three presses (swaged areas) per sleeve. **Warning:** Swaging of fittings over coated cable will result in severely reduced holding power.

- Comfortable, no-slip handle grips
- Locks closed for storage
- High-grade steel, zinc plated

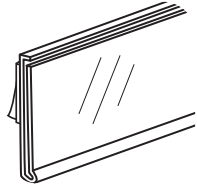

ITEM #	SWAGING CAPACITY	OVERALL LENGTH
105051	1/32," 3/64" or 1/16"	10"

Label Solutions

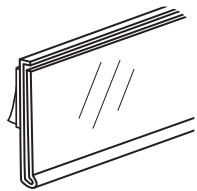

Self-Adhesive Info Strips

Scan codes through the clear facing. Economically hold and protect data tickets, UPC inserts or signs on shelving fronts or any clean, flat surface. Change labels with easy side or top insertion/removal. The 1-1/4" through 2" height sizes can all be cut with scissors to any length.

- Designed to fit common 48" long shelves
- Custom lengths available
- PVC material

Self-Adhesive Gripper Info Strip

Scan codes through the clear facing. Economically hold and protect data tickets, UPC inserts or signs on shelving fronts or any clean, flat surface. Change labels with easy side or top insertion/removal. As an added bonus, integrated gripper fins along the top edge allow thin signs or advertisements to be held on the outside of the window, thus eliminating the need for additional clips. Can be cut with scissors to any length.

- Designated to fit common 48" long shelves
- Holds up to 1-3/8" height tickets
- Custom lengths, heights, and additional back colors available – please inquire
- PVC material
- Packaged 50 per box

Angled Info Strip With Gripper

Scan codes through the clear facing. Economically hold and protect data tickets, UPC inserts or signs directly off common "C" channel shelving fronts. Change labels with easy side or top insertion/removal. Unique angled design allows for displaying of labels on low or bottom shelves. As an added bonus, integrated gripper fins along the top edge allow thin signs or advertisements to be held on the outside of the window, thus eliminating the need for additional clips.

- Accepts labels up to 1-1/2" height
- Designed to fit common 48" long shelves
- Snap fits into common 1-1/4" height shelf price channels
- Custom lengths and back colors available – please inquire
- PVC material

ITEM #	HEIGHT	LENGTH	TYPE OF BACKING	BACK COLOR
108857	1-1/2"	47-5/8"	Snap-In	Clear

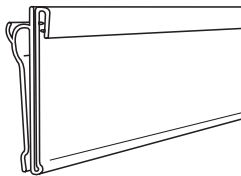

Legged Snap-In Info Strip

Scan codes through the clear facing window. Back leg snaps firmly into channel. Economically holds and protects data tickets, UPC inserts or signs directly off common "C" channel shelving fronts. Change labels with easy side or top insertion/removal.

- Often used in coolers with "C" channels
- Designed to fit common 48" long shelves
- Snap fits into common 1-1/4" height shelf price channels
- Custom lengths and additional back colors available
- PVC material

ITEM #	HEIGHT	LENGTH	TYPE OF BACKING	BACK COLOR
108733W	1-1/4"	47-5/8"	Snap-In	White

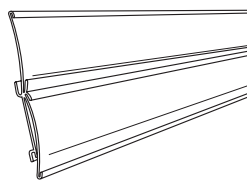

Label Holder For Cooler/Freezer Shelf Channel

Hold and protect data tickets, UPC inserts or signs on common cooler/freezer shelving, as well as common "C" channel shelving fronts. Scan codes through the clear window. Change labels with easy side or top insertion/removal. As an added bonus, gripper fins along the top edge allow secondary signs or advertisements to be held outside the window.

- Snaps into most cooler/freezer shelving
- Also fits common 1-1/4" shelf channels
- Custom lengths and additional back colors available
- PVC material

ITEM #	HEIGHT	LENGTH	TYPE OF BACKING	BACK COLOR
140732B	1-1/4"	30"	Snap-In	Black
140733B	1-1/4"	47-5/8"	Snap-In	Black

Double Curved "C" Channel For Shelf Channel

Double your marketing impact with a simultaneous way to add pricing or advertisements to most 1-1/4" shelf price channels. Dual (top and bottom) curved open face design easily accepts common data tickets, tags or signs in addition to product or category messages.

- Both top and bottom accept common 1-1/4" height data tickets
- Fits standard 1-1/4" shelf price channels
- Custom lengths and colors available
- Clear PVC material

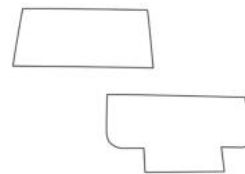

ITEM #	OVERALL HEIGHT	LENGTH	COLOR
108678	2-1/2"	47-5/8"	Clear

Chip Strip For Price Channel

Economically protect tickets, labels or pricing while maintaining visibility. Fits most standard 1-1/4" metal shelf channels. Die-cut production guarantees consistent size. Available in square-cornered rectangular style or in "T" shape style with a tab for quicker placement/removal.

- For use with either adhesive labels or non-adhesive tags
- Clear PVC material
- #107164 comes on perforated sheets at 32 pieces per sheet
- Label remover tools available (sold separately)
- Packaged as shown below and sold in full packs only

Flip-Up Double-Slot Sign Holder

Two equal size channels, one below the other, each with an open face design that accepts common 1-1/4" data tickets, tags, or signs. Double your marketing impact with a simultaneous way to add pricing or category messages. Built-in hinge function flips up to reveal inventory on shelving. Scan codes through the clear facing.

- Both top and bottom channels accept 1-1/4" height data tickets
- Fits all standard 48" long perforated shelves with holes
- Dual .250" round and .250" slotted holes for shelf top mounting (mounting fasteners sold separately)
- Shelf attachment strip height is 1-1/4" x .030" thick
- Available with adhesive or in custom lengths
- Clear PVC material

ITEM #	FACE HEIGHT	LENGTH
108795	3"	47-7/8"

Flip-Up "C" Channel Header

Easily attach product or category information in a header format at the point of sale. Integrated hinge allows the sign to flip up for easy access to inventory below.

- Holds rigid signs up to .040" thick
- Fits all standard perforated shelves with holes
- Shelf attachment strip is 1-3/4" height x .060" thick
- Five .250" slotted holes for shelf top mounting via push-in fasteners (sold separately)
- Also available with adhesive
- Custom lengths and colors available
- Black styrene material

ITEM #	LENGTH	HEIGHT	GRIP CAPACITY
108703	47-3/4"	7"	up to .040"

Flip-Up Pallet Tag

Easily attach pricing or product information to the tag section. Adhesive adheres to the bottom of pallet rack cross members or any other flat, clean surface. Integrated hinge allows the tag to flip up for easy access to inventory below.

- Tag section has radius corners and an integrated hinge
- 1" wide adhesive backed lip
- White removable adhesive
- Clear PVC material

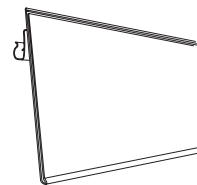

ITEM #	HEIGHT	LENGTH
108546	2-1/8"	7-1/2"

Clip-On Info Strip Label Holder

Scan codes through the clear facing window. Holds signs in horizontal (flush) position. Clips onto the bottom of most "C" channel style shelving fronts without the need for adhesive. Snap-fit design is quick and simple to install. Change labels or messages with easy side or top insertion/removal.

- Accepts signs up to 3-1/2" in height
- Designed to fit common 48" long shelves having a "C" channel front.
- Does not work with flat front shelves
- Also available with other back colors or in different lengths – please inquire
- PVC material

ITEM #	HEIGHT	LENGTH	BACK COLOR
108774W	3-1/2"	47-1/2"	White

Below Shelf Sign Holder

Covered face keeps up to 3-1/2" height data tickets, UPC inserts or signs clearly visible and protected. Scan codes through the clear facing.

- Top load flush design
- Fits all standard perforated shelves with holes
- Shelf attachment strip is 1-1/2" height x .030" thick
- .250" slotted holes for shelf top mounting with fasteners (sold separately)
- Custom lengths available
- Also available with adhesive
- Clear PVC material

Gripper Flip-Up Info Strip Label Holder For Scan Hooks

An easy and economical way to create a continuous price channel across rows of metal peg hooks. Scan codes through the clear facing or stick adhesive labels to the front. Hold and protect data tickets, UPC inserts or signs on the fronts of common metal peg hooks with bent wire scan arms. Change labels with easy side or top insertion/removal. Integrated hinge allows the strip to flip up for easy access to inventory below and then return to its original position. As an added bonus, gripper fins along the top edge allow thin signs or advertisements to be held on the outside of the window, thus eliminating the need for additional clips.

- For adhesive labels or non-adhesive tags
- Designed to lock onto common .177" through .250" diameter wire hooks
- Custom lengths and back colors also available – please inquire
- Clear PVC material
- Packaged 10 per box

ITEM #	HEIGHT	LENGTH	BACK COLOR
108779	1-3/8"	48"	Clear

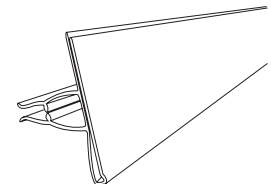

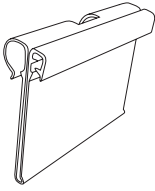

Info Strip Label Holder For Multiple Scan Hooks

An easy and economical way to create a continuous price channel across rows of metal peg hooks. Scan codes through the clear facing or stick adhesive labels to the front. Hold and protect data tickets, UPC inserts or signs on the fronts of common metal peg hooks with bent wire scan hook arms. Change labels with easy side or top insertion/removal.

- For adhesive labels or non-adhesive tags
- Designed to lock onto common .177" through .250" diameter wire hooks with scan hook fronts
- Custom lengths and back colors available – please inquire
- Clear PVC material

ITEM #	HEIGHT	LENGTH	BACK COLOR
108845	1-1/4"	47"	Clear

Flip Info Strip Gripper Label Holder For T-Scan Hook

Scan codes through the clear facing, or stick adhesive labels to the front. Clear window provides a clean, neat appearance while protecting data tickets, UPC inserts or signs on "T" style peg hook fronts (otherwise known as T-Scan Hooks). Specially designed to flip up for easy access to inventory below and then return to its original position. As an added bonus, integrated gripper fins along the top edge allow thin signs or advertisements to be held on the outside of the window. Change labels with easy side or top insertion/removal. Also works well on wire fencing or wire baskets.

- Designed to fit common .120" (11 gauge) to .225" (4 gauge) diameter T-scan hooks
- For adhesive labels or non-adhesive tags
- Custom lengths available – please inquire
- Clear PVC material

Pegboard Hook Overlays

Convert all-wire hooks to "scan plate" hooks. Display both product and pricing information via an integrated flat front label area that accepts traditional UPC informational style adhesive labels. Designed to fit on top of (overlay) most single prong 1" on center all-wire pegboard hooks in both pegboard and slatwall. Unique flip feature allows for simplified access to product. Easy to install – simply press fit directly into the welded back hook prongs of common metal peg hooks. Single Prong All-Wire Pegboard Hooks (sold separately – see page 51).

- Clips over the back and extends the length of hooks for a perfect-fit attachment
- Label area holds adhesive backed labels up to 1-1/4" height x 2-1/8" wide
- Other lengths and label area sizes available – please inquire
- 15 mil thick, clear rigid PVC material
- Packaged 10 pieces per bundle

Peg Hook Product Stop

Inexpensive, triple-hole size, product back stop that keeps merchandise faced forward on most sizes/ styles of metal hooks – including hooks with safety ball tips. Gives a full stock appearance. Friction fits around a wide range of common metal hook gauges/diameters and slides forward for perfect placement. Unlike plastic inventory control units, rubber will not become brittle with the potential to crack or break over time.

- Can be used both as an inventory control unit or a product stop
- Fits multiple hook sizes, from 9 gauge (.149" dia.) to 3 gauge (.250" dia.)
- 7/64" thick
- Black rubber material
- Packaged 250 per bag

ITEM #	O.D.	COLOR
107508B	15/16"	Black

Display Hook Product Stop

Inexpensive stop that secures pre-loaded products onto all lengths of our plastic Corrugated Display Hooks (sold separately) during shipment. Flexible design that easily presses into place – attaches and detaches quickly.

- .040" thick
- Round shape with a center cross-cut hole
- Natural low-density polyethylene material

ITEM #	O.D.
107502	1"

Butterfly Hook Product Stop

Inexpensive stop that secures pre-loaded products onto all lengths of our plastic Butterfly Display Hooks (sold separately) during shipment. Flexible design that easily snaps into place – attaches and detaches quickly.

- Flexible butterfly shape
- Black PVC material

ITEM #	DIMENSIONS
107503	1-1/4" Wide x 1/4" Long

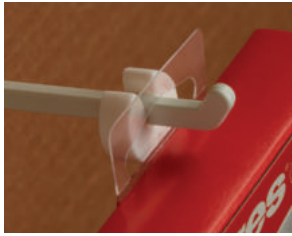

Round Inventory Control Unit

Inexpensive back stop clip that keeps merchandise faced forward on most sizes/styles of plastic and metal hooks giving a full stock appearance. Unlike plastic inventory control units, flexible vinyl will not become brittle with the potential to crack or break over time. Easily friction fits around hook and slides forward for perfect placement. No need to remove merchandise – simply slide over hooks.

- .300" thick
- Slotted side opening
- Works with most peg and slatwall hooks
- Can be used as an inventory control unit or a product stop
- Flexible vinyl material
- Custom colors available

ITEM #	O.D.	COLOR

150191	3"	22"	10" thru 22"

Contoured Magnetic Back Shelf Gripper

Optional part of a simple and inexpensive shelf management system that can be used to separate or hold products in place. Use in conjunction with the rear bottoms of our contoured shelf dividers (sold separately) to securely place and align product on flat shelving surfaces. Gripper fins combine with a strong, low-profile neodymium magnet for pinpoint placement that is not reliant on back shelf perforations, thus minimizing gaps and increasing the number of facings per shelf. **Warning:** Magnets should not be used near electronic equipment.

- Super strong and compact
- 5/8" height x 1" length x 1/2" width
- .125" to .187" grip capacity
- Clear PVC gripper attached to a nickel plated neodymium magnet

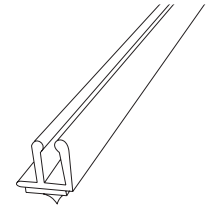

ITEM #	LENGTH	FOR USE WITH
107085	1"	Contoured Shelf Dividers

Contoured Low Profile Front Fence

An economical, self-adhesive shelf management system that is crystal clear. Use with our Contoured Shelf Dividers (sold separately) to separate or hold products in place on flat shelving surfaces. Low profile height allows for an unobstructed view of products while helping deter "shelf-sweeping" method of theft.

- 47-3/4" overall length to fit common 48" long shelves
- 7/16" height x 1/2" shelf attachment width having foam tape adhesive
- Shown with Contoured Shelf Divider (sold separately)
- Clear high impact plastic material

ITEM #	FITS SHELF SIZE	FENCE STYLE
108767	48"	90 Degree

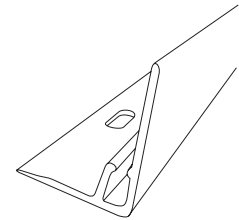

Contoured Front Fence

Heavy duty, clear front fencing that keeps products on standard perforated shelves. For use with our popular contoured shelf dividers (sold separately) as part of our contoured shelf management system that separates and holds products in place on flat shelving surfaces. Crystal clear material that allows for an unobstructed view of products while helping deter "shelf-sweeping" method of theft.

- 47-3/4" overall length to fit common 48" long shelves
- 1-1/2" height x 1-1/4" shelf attachment width
- Dual .250" round and .250" slotted holes for shelf top mounting (suggested mounting fastener #120450 sold separately – see page 210)
- Shown with Contoured Shelf Divider (sold separately)
- Also available with adhesive and in custom lengths – please inquire
- Clear PVC material

ITEM #	FITS SHELF SIZE	FENCE STYLE
108822	48"	90 Degree

Extruded Front Fence

Two common lengths to choose from, both of which have a heavy duty, low profile front fencing that keeps products on standard perforated shelves. Also deters "shelf-sweeping" method of theft. Universal design that fits round or diamond-shaped shelf holes.

- Fits all standard 36" and 48" long perforated shelves with holes
- Shelf attachment strip is 1-1/4" height
- Dual .250" round and .250" slotted holes for shelf top mounting (suggested mounting fastener #120450 sold separately – see page 210)
- Custom lengths available
- Also available with adhesive
- Clear PETG material

Serpentine Metal Shelf Extender

Mounts on existing shelf to extend merchandise area to capture customers' attention. Place merchandising emphasis on a single shelf or shelving section. Nine evenly spaced integrated tab inserts (prongs) securely mount into most standard shelf perforations, round or diamond. Three integrated 1/4" diameter slotted holes can be used in conjunction with plastic push-in shelf fasteners (sold separately) for a more permanent fit. 1-1/4" height "C" channel front accepts UPC inserts, tags, signs and common plastic and metal sign holding clips.

- Adds extra merchandising space in a dramatic curved fashion
- Extends approximately 3" from the shelf at the center crown
- No tools required
- Beige painted steel material
- 4 pieces per box
- Sold in full boxes only

Beverage Shelf Extender

Easily mounts on existing shelf so as to extend bottled beverage merchandising and capture customer attention. Two durable wire tab inserts mount into most standard shelf perforations – round or diamond. Integrated bottom centered scan plate area can be used for attaching adhesive price tags, labels or advertisements.

- .140" wire diameter
- No tools required
- 3-1/2" inside diameter base that fits most wine bottles
- Extends into aisle approximately 4-3/8" with wrap around 3-1/4" basket height
- Scan plate is 1" height x 2" wide
- Black painted steel material
- Also available in other colors – please inquire
- Packaged 10 per box

ITEM #	INSIDE DIAMETER	INSIDE HEIGHT
150215B	3-1/2"	3-1/4"

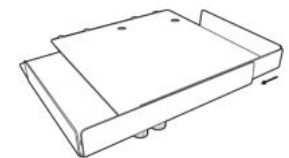

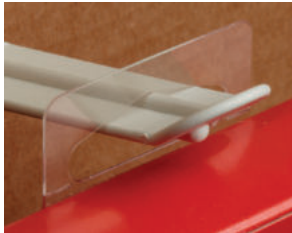

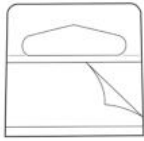

Metal Adjustable Shelf Extender

Mounts on existing shelf to extend merchandising area to capture customers' attention. Four integrated tab inserts securely mount into most standard shelf perforations, round or diamond. Built-in 9/32" diameter holes can be used in conjunction with plastic perf shelf fasteners (sold separately) for a more permanent fit.

- Adds extra merchandising space
- Extends 3-1/2" into aisle with wrap-around 3/4" lip height
- Assembled thumb screws (included) adjust shelf to desired width
- No tools required
- Beige painted steel material

Re-Order Peg Back Label Holder

Rectangular style adhesive label/tag holder that is ideal for displaying product re-order information. Clear flexible holder that allows re-stock product information to be easily viewed behind merchandise on both pegboard and slatwall. This economical chip has staggered top holes that accept common plastic or metal two prong back plates found on peg hooks. Two sets of holes at 3/4" apart allow for placement at different heights directly behind peg hook back plates.

- Holes are 1/4" diameter each at 1" on center
- Die-cut production guarantees consistent size
- For use with adhesive labels
- .010" (10mil) thick clear plastic material
- Packaged 100 per box
- Sold in full boxes only

ITEM #	WIDTH	HEIGHT
150253	2-3/4"	3"

Double-Sided Peg Hook Strip

Two-sided merchandising strip that holds twice as much product. Hang and display products one above the other. Single header holes at both ends allow for multiple off-shelf mounting options such as "S" hooks and shelf top hooks, as well as metal bars, arms, or brackets with or without label scan plates. Integrated peg hook holes spaced every 1-1/4" to accommodate our line of 1-1/4" through 8" long Corrugated Universal Display Hooks (sold separately – see page 57).

- 30" long stated hanging length having an actual 29-1/4" overall extruded length
- 1-1/2" wide x 3/8" thick raised center track design for extra rigidity
- 9/32" diameter paired cross section holes and centered end holes
- Other colors, lengths and custom hole spacings available – please inquire
- Beige styrene material

ITEM #	OVERALL LENGTH	HANGING POSITIONS

Perforated Merchandising Strip

Our most economical and widely accepted retailer merchandising strip. Great for hanging and displaying lightweight products one above the other. Use in conjunction with our #108009 Perf Shelf "S" Hook (sold separately – see page 79) to hang from perforated store shelves or wire fixtures.

- 1-3/8" wide x .025" thick
- Top mounting area has a .250" diameter center hole
- Perforations and .250" diameter holes every 3 stations
- Natural high-density polyethylene material

ITEM #	OVERALL LENGTH	HANGING POSITIONS
130202	22-1/8"	12 Stations

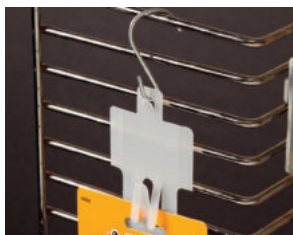

Merchandising Strip With Removable Header

Great for hanging and displaying lightweight products one above the other. Versatile header sides are perforated and can easily be removed to form a straight retailer strip. Use in conjunction with our #108009 Perf Shelf "S" Hook (sold separately – see page 79) to hang from perforated store shelves or wire fixtures.

- Walmart® approved design
- 1-3/8" wide x .024" thick
- .250" diameter center hole at top of header
- Header label area measures 1-1/4" high x 2" wide when removable sides are left intact
- Perforations every 3 stations
- Natural high-density polyethylene material

ITEM #	OVERALL LENGTH	HANGING POSITIONS
130200	21-1/4"	12 Stations

Versa Merchandising Strip

Our most versatile merchandising strip that offers several built-in hanging/attachment options. Simply peel and stick, or combine with a plastic push-in fastener (sold separately – see pages 208-211) or metal "S" Hook (also sold separately – see page 79) for use on perforated store shelves, price channels or wire fixtures. Hang and display lightweight products one above the other.

- 1-11/16" wide x .024" thick
- Three evenly spaced .250" diameter holes at top of header
- Header has an optional use adhesive backed mounting area
- Header also has a tab area that can be snapped into standard 1-1/4" shelf price channels
- Natural high-density polyethylene material

ITEM #	OVERALL LENGTH	HANGING POSITIONS

Merchandising Strip Hanger For Cooler Door

Securely hang merchandising strips from most cooler or freezer doors. Provides an opportunity to cross-merchandise other items. Secured with integrated, high bond adhesive tape on the underside. Simply peel off the adhesive liner and stick to the top of any clean, smooth door surface. Integrated, small rubber pad helps prevent against scratching of glass.

- Includes hanger tab and 9/32" centered hole to hang strips or hooks
- Tape is high tack, acrylic based adhesive that reaches maximum strength within 24 hours
- 18 gauge (.048" thick) metal
- Bright chrome finish

ITEM #	OVERALL LENGTH	WIDTH
107146	4"	1-1/4"

Under-Shelf Hardware-Mount Merchandising Hanger

Great for hanging double-sided or heavier style merchandising strips extended into the aisle. The base fits the underside of most perforated shelves using the included zinc plated steel hardware (assembled wing nuts and screws); thus, no interference with product on shelves. Shown with our Heavy Duty "S" Hook #108000 (sold separately – see page 79).

- Extends 4-1/2" from shelf edge
- Built-in display plate accepts labels up to 2" height x 2" wide with a .266" hole size
- Includes two assembled 10-24 x 3/4" Phil/Slot combo truss head machine screws and 10-24 wing nuts
- Screws and wing nuts are zinc plated steel material
- Hanger is beige painted steel material

ITEM #	OVERALL LENGTH	HEIGHT
107117	6"	2-1/2"

Double Merchandising Strip Hanger

Shelf top hanger that offers two ways to hang merchandising strips two at a time for double the exposure: with integrated hanger tabs, or via the side holes with common "S" Hooks (sold separately) and/or metal hook-style merchandising strips (also sold separately). Easily fits into most perforated shelf holes. Extends into the aisle to capture customers' attention. Metal offers more strength and durability than plastic or wire shelf top merchandising strip hangers. Removable and reusable.

- Holds any of our metal or plastic merchandising strips
- Top and both sides have .250" diameter centered holes
- 1-1/4" wide x 4-3/4" overall length shelf top plate
- Sides offer maximum label placement space of 1-5/16" H x 2" W
- Also available in black – please inquire
- 16 gauge (.060") thick metal

ITEM #	OVERALL LENGTH	FINISH
107121	4-3/4"	Zinc Plate

Shelf-Top Hook For Flag Or Flush Merchandising

Securely hang merchandising strips from most perforated metal shelf holes. Two styles to choose from: "flag" which holds strips perpendicular (vertical) to the shelf front, and "flush" which holds strips parallel (horizontal) to the shelf front. Unlike with common Perf Shelf "S" Hooks, there is no chance of merchandising strips becoming dislodged. Removable and reusable.

- .135" wire diameter
- Zinc plated steel

Magnetic Hooks

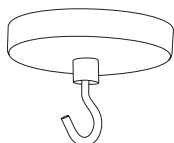

Display lightweight signs and products from metal surfaces. Also great for holding merchandising strips from metal surfaces. Magnets are easily placed and removed. Attaches well to most ferrous metal surfaces. **Warning:** Holding capacity is the approximate maximum pull rating under ideal conditions. Always test suitability on a per application basis. For best results, use on an indoor, bare (unfinished) metal surface that is smooth and clean. Metal conditions will affect holding power. Magnets should not be used near electronic equipment.

- All three sizes offered are 1-1/4" overall length
- Round magnet base with round metal housing with hook attachment

Metal Sign Frame – Fixed Stem

Freestanding sign holder that slips easily under boxes or products and can be repositioned. Solid, non-adjustable stem allows messages to be placed at even and consistent heights above shelves or countertops. Signs slide into the top opening and are held in place by an elegant, rounded corner frame.

- Heights and widths refer to the inserted graphics, not the overall frame
- For use on flat surfaces with no tools required
- Accepts signs up to .050" thick
- Sturdy 4-3/4" x 5-3/8" shovel style base with two 3/16" diameter holes
- Custom sizes and colors/finishes available – please inquire
- Black painted steel material

Metal Sign Frame – No Stem

Freestanding, low profile sign holder that slips easily under boxes or product directly on the shelf – simply slide the shovel base on top of the shelf and under the product. Also perfect for stacked merchandise by simply inserting the flat base between layers of product. Signs slide into the top opening and are held in place by an elegant, rounded corner frame.

- Heights and widths refer to the inserted graphics, not the overall frame
- For use on flat surfaces with no tools required
- Accepts signs up to .050" thick
- Custom sizes and colors/finishes available – please inquire
- Wedge style (triangular) base is 4-1/2" wide x 4-3/4" long and is tapered with a 3/8" diameter center hole
- Easel style (rectangular) base is 4-1/2" square and has a 1/4" diameter centered end hole
- Black painted steel material

Counter Mat Sign Holder

Display and protect promotions or critical information on counters or other flat surfaces while preventing curled graphic corners. Provides quick-change, long lasting performance. Signs are framed evenly on all four sides by an attractive 1" wide black, radius cornered border. Clear surface is scratch resistant and provides great durability. Can be used in either portrait or landscape orientation.

- 1/16" thick, non-slip, heavy duty black rubber backing
- Sealed on three sides with the pocket opening from the long side
- Actual overall internal dimensions are slightly larger than the listed size for ease of use
- Custom sizes and border printing options available – please inquire
- 15 mil scratch resistant clear vinyl window with white background

ITEM #	GRAPHIC SIZE	OVERALL MAT SIZE

K-Ads® Shopping Cart Sign Frame

Both shatter-resistant and weather-resistant sign frame that firmly mounts to shopping carts. An affordable way to create new revenue or advertise your product directly off most spring wire or molded carts. Accommodates signs on both sides for maximum impact. Be the direct image in the customer's mind as they shop throughout the store. Once the sign frame is in place, ads can be inserted and changed with ease.

- Overall frame size is 11-1/2" wide x 7-1/2" height
- Each set comes complete with: Two frame halves, four 1/2" screws, four 3/4" screws, four locking nuts and two black 14" cable ties – which accommodates most styles of common cart baskets
- Required tools: #2 Phillips screwdriver and 3/8" hex width wrench (not included – see page 223)
- Maximum spacing between frames is 3/8"
- Accepts signs up to .050" thick
- Black shatter-resistant polypropylene material
- Additional colors available – please inquire

Gripper Apollo Banner Hanger With Adhesive

Simple way to add ever-changing advertisements to any clean, flat surface. Designed to quickly attach a banner to the hanger: just snap up to open, insert sign and snap down to close. Integrated soft gripper fingers hold signs firm, with two internal overlapping rails for an extra snug fit.

- 3/4" height "U" shaped square design
- Adhesive backed liner
- Integrated hinged/snap-shut gripper fin section
- Holds sign materials up to .040" thick
- Available in custom lengths, colors and/or mitered angle cuts to create frames
- PVC material
- Also available without adhesive (see page 237)

Front Load Plastic Sign Frame Rail

Add ever-changing advertisements anywhere with little cost. Rails can be used individually to securely mount large, poster style signs to any clean, flat surface, or order four pieces with miter cut ends to create custom sign frames – with or without backer boards.

- 1" wide with 1/2" wide adhesive backed liner
- Hinged/snap-shut front load face
- Holds material up to .060" thick
- Available in custom lengths
- Can be ordered with mitered angle cuts or mounted backer board frames
- PVC material
- Custom colors also available

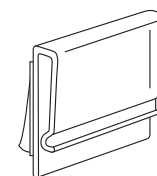

We can miter cut to fit your framing application.

Gripper Apollo Banner Hanger With Suction Cups

Add ever-changing advertisements directly to windows or glass surfaces. The gripper is designed to quickly and easily attach a banner to the hanger: Just snap up to open, insert sign and snap down to close. Integrated soft gripper fingers hold signs firm. High quality cups with reinforcing rings for added strength and long-term holding power. Apply to clean, non-porous surface for best results.

- Apollo Banner Hanger piece is 1/2" deep x 3/4" overall height
- Comes pre-assembled with 1-3/4" diameter cups in the banner hanger
- For use in hot or cold extremes
- Not recommended for outdoor use
- Additional lengths available – please inquire
- Clear PVC material

110738	up to .040"	36"	3

Gripper Gondola Upright Header

Create a durable header system with little cost and maximum visibility. Gripper fins firmly hold rigid signs up to 16 inches tall in header “flush” position. The attached base is designed to fit into most standard gondola uprights. Use two sign holder ends per graphic – a left end and a right end (sold separately). Use a center sign holder to join in-line graphics that are great for eye-catching product and category branding. Removable and reusable. No assembly required. **Patented & Patent Pending.**

- End connectors are not reversible and are sold separately
- Four standard gripper lengths to choose from
- All grippers are 1-1/8" wide
- Grippers are made of clear PVC material
- Grippers are also available in black, white or others colors and/or lengths – please inquire
- Base is made of white ABS material

Boot System Magnetic Base

Versatile sign holder system that is capable of displaying materials up to 1/4" thick on metal surfaces when coupled with our extruded Thin Poster Channel or Heavy Duty Gripper Poster Channel (both are sold separately). Boot shaped base is removable and can be re-positioned to accommodate signs of any size or shape. Choose the proper channel for the sign thickness, insert the channel into the base and then insert the sign – it's that easy. **Warning:** Magnets should not be used near electronic equipment.

- 3/4" wide boot shaped plastic casing
- Integrated ceramic magnet base is extremely strong
- ABS material

ITEM #	LENGTH	HEIGHT	COLOR
106025	2-1/4"	2-3/4"	White
106025B	2-1/4"	2-3/4"	Black

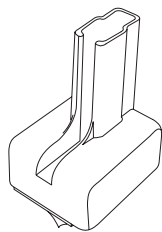

Boot System Adhesive Base

Versatile sign holder system that, when coupled with our extruded Thin Poster Channel or Heavy Duty Gripper Poster Channel (both sold separately), is capable of displaying materials up to 1/4" thick on nearly any clean, flat surface. Simply peel and stick for a secure, freestanding hold. Choose the proper channel for the sign thickness, insert the channel into the base and then insert the sign – it's that easy.

- 3/4" wide boot shaped plastic casing
- Integrated 1-3/4" wide x 2" long adhesive backed base
- ABS boot casing material and clear PVC base material

ITEM #	LENGTH	HEIGHT	COLOR
106020	2-1/4"	2-3/4"	White
106020B	2-1/4"	2-3/4"	Black

Boot System Contoured Adhesive Base

A smaller, euro style base having a more upscale elegance versus our standard boot system adhesive base. Versatile sign holder system that, when coupled with our extruded Thin Poster Channel or Heavy Duty Gripper Poster Channel (both sold separately), is capable of displaying materials up to 1/4" thick on nearly any clean, flat surface. Simply peel and stick for a secure, freestanding hold. Choose the proper channel for the sign thickness, insert the channel into the base and then insert the sign – it's that easy.

- 1-7/16" wide x 1-3/4" long boot shaped plastic base casing with adhesive
- ABS material
- Other colors also available – please inquire

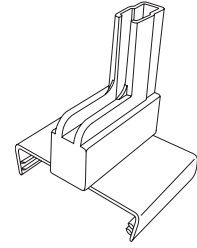

ITEM #	LENGTH	HEIGHT	COLOR
106022	1-3/4"	2-1/4"	White
106022B	1-3/4"	2-1/4"	Black

Boot System Gondola Top Gripper Base

Versatile sign holder system that, when coupled with our extruded Thin Poster Channel or Heavy Duty Gripper Poster Channel (both sold separately), is capable of displaying materials up to 1/4" thick centered on top of gondolas without the need for adhesive or expensive magnets. Base has gripper fins that attach securely onto the top of standard retail gondolas. Removable and easy to relocate. Choose the proper channel for the sign thickness, insert the channel into the base and then insert the sign – it's that easy.

- 3/4" wide boot shaped plastic casing
- Integrated 3/4" height gripper legged base
- ABS boot casing material and clear PVC base material

ITEM #	LENGTH	HEIGHT	BASE CAPACITY	COLOR
106021	2-1/4"	2-3/4"	2-1/2"	White

106804	No Hinge	.100" to .250"

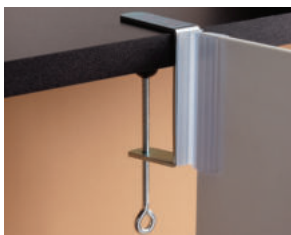

“C” Clamp Gripper Aisle Sign Holder

Gripper fins hold signs firmly in vertical (flag) position. Universal “C” clamp design can be used on square edges of shelves, fixtures or just about anywhere throughout the store. Use two or more holders from shelf to shelf for larger signs. Hinged style option is great for mounting signs in high traffic areas – flexible hinge swings and returns to original position when bumped. Removable and reusable. Pre-assembled black plastic crutch-tipped screw eye design. **Patented & Patent Pending.**

No assembly required. Unlike our competition, our design allows the sign to be aligned closer to the shelf edge, providing a cleaner look and less chance of being bumped.

- Fits shelves or other fixtures up to 2-1/2" thick
- 3" height x 3/4" wide x 2" deep “C” clamp size with two 3/16" dia. mounting holes
- Grippers are 3" long x 3/4" wide base
- Small capacity grippers have 3/4" height; large capacity grippers have 1" height
- Grippers are made of clear PVC material
- Base is made of steel with zinc plate

Sign & Literature Holders

Magnetic Under-Shelf Gripper Sign Holder – L-Style

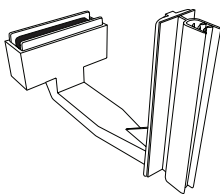

Gripper fins hold signs firmly in horizontal position. The magnetic base mounts underneath the shelf and is designed to add shelf edge signs from below – thus not interfering with product on shelves. Integrated, heavy duty magnet attaches to any metal surface, including the underside of perforated shelves. Removable and reusable. No assembly required. Optional flexible hinge on sign gripper swings and returns to original position when bumped in high-traffic areas. **Patent Pending.**

Warning: Magnets should not be used near electronic equipment.

- Grippers are 4" long x 3/4" wide base
- Small capacity grippers have 3/4" height; large capacity grippers have 1" height
- Grippers are made of clear PVC material
- Base is made of ABS material

Sign & Literature Holders

Telescopic Gripper Aisle Sign Holder – Gondola

Gripper fins hold signs firmly in vertical (flag) position. Use two holders to support larger signs. Hinged style option is great for mounting signs in high traffic areas – flexible hinge swings and returns to original position when bumped. The base is designed to securely fit into most standard gondola uprights. Removable and reusable. Assembled telescoping arm easily adjusts from 13" to 21" long in 1" increments. No assembly required. **Patented & Patent Pending.**

- Grippers are 3" long x 3/4" wide base
- Small capacity grippers have 3/4" height; large capacity grippers have 1" height
- Grippers are made of clear PVC material
- Base is made of painted steel material, and comes assembled with zinc plated flip nut inserts

Sign & Literature Holders

Telescopic Double-Hook Aisle Sign Holder – Pegboard/Slatwall

Hold aisle signs securely in flag position while capturing customer attention. Adjustable double-wire hooks fit a wide range of hole placement widths of up to 10 inches apart. The 1" on center base prongs are designed to fit into most standard pegboard holes. Unlike our competition, the base is also designed to fit into most standard slatwall grooves. Assembled telescopic arm easily adjusts from 13" to 21" in 1" increments. Removable and reusable.

- Includes a rubber tip safety end cap – beige
- 12 gauge (.105") hook wire diameter
- 3/8" maximum sign material thickness
- Minimum recommended sign hole size is 1/8"
- Beige painted steel material
- Other colors available – please inquire

NEW

Gondola Upright "Offset" Gripper Sign Holder

A variation of our traditional Gondola Upright Gripper Sign Holder. Here, the grippers are "offset" to one side, not centered. Ideal for end cap displays. Gripper fins hold signs in vertical (flag) position. Use two or more holders for larger signs. Sold unassembled.

- Base fits most standard gondola uprights
- Grippers are 3" long x 3/4" wide base
- Grippers are clear PVC material
- Base is white ABS material
- Gripper portion can be used on other Kinter bases – please inquire

ITEM #	STYLE	GRIP CAPACITY
106306	With Hinge	up to .100"
106309	With Hinge	.100 to .250"

Warehouse Upright Gripper Sign Holder

Gripper fins hold signs firmly in vertical (flag) position. Use two or more holders for larger signs. Hinged style option is great for mounting signs in high traffic areas – flexible hinge swings and returns to original position when bumped. The base is designed to fit into most teardrop shaped holes (not square or round holes) found on standard warehouse uprights. Removable and reusable. No assembly required. **Patented & Patent Pending.**

- Grippers are 3" long x 3/4" wide base
- Small capacity grippers have 3/4" height; large capacity grippers have 1" height
- Grippers are made of clear PVC material
- Base is made of white ABS material

ITEM #	STYLE	GRIP CAPACITY
106201	With Hinge	up to .100"
106202	With Hinge	.100" to .250"
106203	No Hinge	up to .100"
106204	No Hinge	.100" to .250"

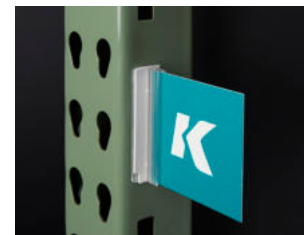

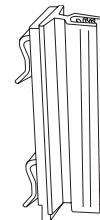

Warehouse Upright Sign Holder For Square Holes

Attaches into most warehouse uprights that have square holes, and can be repositioned easily. Gripper fins hold signs firmly in vertical (flag) position. Hinged style option is great for mounting signs in high-traffic areas – flexible hinge swings and returns to original position when bumped. Use two or more holders to support large blade signs.

- Adds aisle or promotional signs to square-hole warehouse uprights
- Grippers are 3" long x 3/4" wide base
- Small capacity grippers have 3/4" height; large capacity grippers have 1" height
- Grippers are made of clear PVC material
- Base is made of white ABS material

106234	No Hinge	.100" to .250"

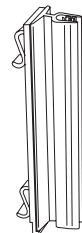

Warehouse Upright Gripper Sign Holder – Canadian

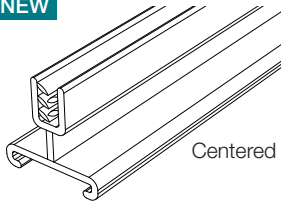

Gripper fins hold signs firmly in vertical (flag) position. Use two or more holders for larger signs. Hinged style option is great for mounting signs in high traffic areas – flexible hinge swings and returns to original position when bumped. The base is designed to fit into most rectangular and teardrop shaped holes (not square or round holes) that are 3" on center. 3" on center holes are common in Canada and not in other North American regions where 2" on center holes are predominant. Removable and reusable. **Patented & Patent Pending:** Unlike our competition, the gripper is permanently attached to the base adapter; thus, there is no chance of dislodgement and no assembly is required.

- Grippers are 4" long x 3/4" wide base
- Small capacity grippers have 3/4" height; large capacity grippers have 1" height
- Grippers are made of clear PVC material
- Base is made of white ABS material

107091	3"	up to .080"	Flush

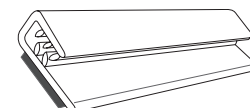

Magnetic Gripper Flush Sign Holder – Light Duty

An economical magnetic gripper for light duty use in low traffic environments. Gripper fins hold sign securely in horizontal (flush) position. (For a stronger magnetic grip, use our Magnetic Gripper Flush Sign Holder – see above). Removable and reusable. **Warning:** Magnets should not be used near electronic equipment.

- 3/4" height, "J" style
- Integrated light duty magnetic strip at base made from 1/16" thick flexible black magnet
- Gripper is clear PVC material

ITEM #	LENGTH	GRIP CAPACITY	SIGN POSITION
107079	3"	up to .080"	Flush

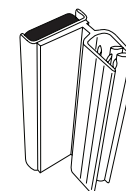

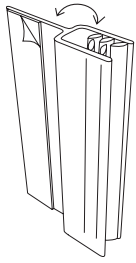

Magnetic Gripper Offset Sign Holder

Great for mounting signs vertically and off to one side from gondola uprights or other metal fixtures without interfering with shelves. Perfect for end cap displays. Gripper fins hold signs firmly in vertical (flag) position. Versatile magnetic base assures maximum holding power on metal surfaces. Use two or more for larger signs. Reversible, removable and reusable. **Warning:** Magnets should not be used near electronic equipment.

- 3" long x 7/8" wide base x 1-1/8" overall height
- Permanently attached 7/8" wide x 1/4" height nickel plated steel casing containing ceramic magnets
- Available with optional non-scratch inserts (see page 216)
- Grippers are clear PVC material
- Also available in other grip ranges or with a hinge feature – please inquire

ITEM #	LENGTH	GRIP CAPACITY	STYLE
107099	3"	.125" to .250"	No Hinge

Hinged Gripper Flush Mount Sign Holder

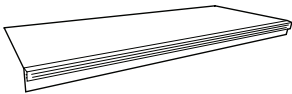

Add flush mounted signs to most square edged gondola end caps, uprights or cross members. Great for mounting signs in high traffic areas in vertical (flag) position. Flexible hinge swings and returns to original position when bumped. Gripper fins hold sign securely. Adhesive edge attaches to any clean, flat surface.

- 3/4" adhesive backed edge width
- Custom lengths available
- Clear PVC material

ITEM #	LENGTH	OVERALL WIDTH	GRIP CAPACITY

Sign & Literature Holders

Self-Piercing Channel Flush Holder

Clips into standard shelf price channels and securely holds paper signs flush to shelf. Very popular, reusable shelf clip featuring a piercing male pin that easily folds and punctures paper signs for a secure hold. Great for ever-changing sale signs.

- 1-1/8" wide x 1-3/4" overall height (1-1/4" folded height)
- Holds paper signs up to .012" thick
- Fits standard 1-1/4" shelf price channels
- Natural polypropylene material
- Packaged 50 per bag

ITEM #	SIGN POSITION
107202	Flush

Gripper UPC Tag/Sign Holder

A more heavy duty version of our common Gripper Shelf Channel Sign Holder. Gripper fins hold signs firmly in flush position. Legs snap securely into price channel. Has an extra gripper fin for added strength and sign support. Great for ever-changing, one sided sale signs.

- 1-1/4" face height (1-5/8" overall height)
- Fits into standard 1-1/4" shelf price channels
- Gripper fins hold signs & tags up to .080" thick
- Clear PVC material

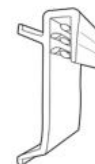

ITEM #	LENGTH	COLOR
108637	1-1/4"	Clear

Gripper Shelf Channel Sign Holder

Very popular shelf price channel clip that is reusable and easy to insert. Gripper fins hold signs firmly in flush position. Legs snap securely into price channel. As an added bonus, our leg tips have a bead of soft vinyl for a more secure fit. Great for ever-changing, one sided sale signs.

- 1-1/4" height
- Fits into standard 1-1/4" shelf price channels
- Gripper fins hold signs up to .080" thick
- Clear PVC material
- Also available in black

ITEM #	LENGTH	COLOR
108638	1/2"	Clear
108639	1"	Clear

Gripper Long Leg Shelf Channel Sign Holder

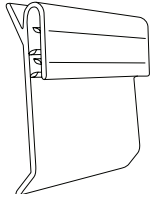

A more heavy duty, secure fit version of our common Gripper Shelf Channel Sign Holder. Gripper fins hold signs firmly in flush position. Integrated extra long top leg adds extra strength and snaps securely into price channel. Great for ever-changing, one sided sale signs.

- 1-1/4" height
- Longer leg for a more secure fit in shelf channel
- Fits into standard 1-1/4" shelf price channels
- Gripper fins hold signs up to .080" thick
- Clear PVC material

ITEM #	LENGTH	COLOR
108683	1"	Clear

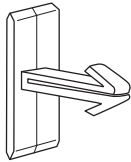

Easy-Flex Shelf Channel Sign Holder

This economical version is even easier to insert into price channels than our standard Gripper Shelf Channel Sign Holder. The clip itself flexes and springs back as the legs snap securely into place. Gripper fins holds signs firmly in flush position – an added bonus versus our competition. Great for ever-changing, one-sided sale signs.

- 1-1/4" height
- Fits into standard 1-1/4" shelf price channels
- Gripper fins hold signs up to .080" thick
- Clear PVC material

ITEM #	LENGTH	COLOR
108726	1-1/4"	Clear

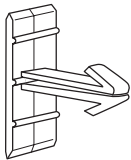

Channel Mount Arrow Fastener

Flexible arrow tip deflects when pushed into hole then springs back as a clip that resists removal. Ideal for take-one promotions. Inexpensive way to display coupon pads, books or signs. Base with adhesive securely snaps into standard 1-1/4" shelf price channels. Base with adhesive adds extra strength when pressed into shelf price channel, or can also be used on any clean, flat surface.

- Base is .500" wide x 1.200" long
- Available with or without adhesive
- Fits 1-1/4" shelf price channels
- Required hole size is 1/4" to 9/32" diameter
- Natural polypropylene material
- Packaged as shown below

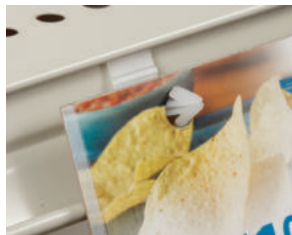

ITEM #	STEM LENGTH	PAD THICKNESS	STYLE	PACKAGED
120456	1/2"	up to 7/16"	No Adhesive	250 per bag
120457	1/2"	up to 7/16"	With Adhesive	250 per bag
120458	15/16"	up to 7/8"	No Adhesive	100 per bag
120459	15/16"	up to 7/8"	With Adhesive	100 per bag

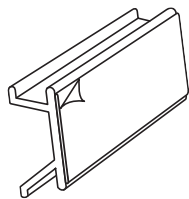

Easy-Flex Channel Mount Arrow Fastener

Our most popular arrow fastener designed for even easier insertion into standard 1-1/4" shelf price channels. Flexible arrow tip deflects when pushed into hole then springs back as a clip that resists removal. Ideal for take-one promotions. Inexpensive way to display coupon pads, books or signs.

- Base is .437" wide x 1.200" long, without adhesive
- Fits 1-1/4" shelf price channels
- Required hole size is 1/4" to 9/32" diameter
- Natural polypropylene material
- Packaged 250 per bag

120455	1/2"	up to 7/16"	No Adhesive

Channel Mount With Adhesive

Securely mounts a variety of signs, coupon books/boxes or lightweight displays to shelf price channels. Also known as Advertiser Rail Clips.

- 1-1/4" height, with 1" height adhesive
- Extends approximately 1/2" from shelf
- Also available in custom lengths
- Fits standard 1-1/4" shelf price channels
- Clear PVC material

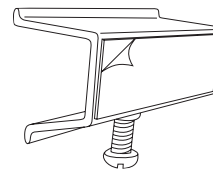

ITEM #	LENGTH	STYLE
107123	1"	Flush With Adhesive
107124	2"	Flush With Adhesive

Sign & Literature Holders

Shelf Channel Adapter With Screw

Securely mounts to a variety of signs, coupon books/boxes or lightweight displays to shelf price channels. Integrated screw design provides a secure fit directly into price channels with the turn of an attached Phillips/slotted combo pan head metal screw. Dual 3/16" round and slotted holes located behind the adhesive offer additional mounting options such as 3/16" pop rivets.

- 7/8" face height, with 3/4" height adhesive
- Extends approximately 7/8" from shelf
- Fits standard 1-1/4" shelf price channels
- Beige ABS material

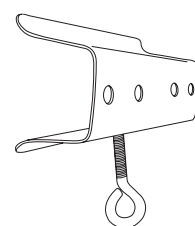

ITEM #	LENGTH	STYLE
107181	2-1/2"	Flush With Adhesive

Metal Shelf Channel Adapter With Screw

Stronger than common extruded or injection molded shelf channel adapters. Securely mounts to a variety of heavier signs, acrylic boxes or literature holders to shelf price channels. Integrated thumb screw design requires no tools while providing a secure fit. Four evenly placed face plate holes offer numerous mounting options such as screws or 3/16" pop rivets. Removable and reusable.

- 7/8" face height with four 3/16" diameter holes
- Extends approximately 1" from shelf
- Fits standard 1-1/4" shelf price channels
- Assembled eye screw is 10-24 x 1-1/2" long, zinc plated steel
- Spring steel material with zinc plate

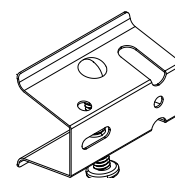

ITEM #	LENGTH	STYLE
107180	3"	Flush With Mounting Holes

Metal Mini Shelf Channel Adapter With Screw

A smaller but sturdy version of our Metal Shelf Channel Adapter With Screw (see above). Stronger than common extruded or injection molded shelf channel adapters. Securely mounts to a variety of heavier signs, acrylic boxes or literature holders to shelf price channels. Integrated Phillips screw design provides a secure fit. Also features a 1/4" wide slotted top and bottom hole that can be used with our Metal Merchandising Strips (see page 76). Removable and reusable.

- 5/8" face height with one 9/64" diameter hole
- Extends approximately 7/8" from shelf
- Fits standard 1-1/4" shelf price channels
- Assembled screw is 10-24 x 1" long, zinc plated steel
- Spring steel material with zinc plate

ITEM #	LENGTH	STYLE
107154	1-3/4"	Flush With Mounting Holes

Slim-Line Dual Mount Sign Protector

Very economical flush-position sign protector. Flexible and crystal clear. Securely mounts to most standard shelf price channels directly at the edge of the shelf, and in a tilted viewing angle that does not block or interfere with the products on the shelf. Centered mounting strip insures your signage will be centered both above and below the shelf. Can also be inserted securely into the face of a wide variety of both thin and thick backed info strip sign holders.

- Fits standard 1-1/4" shelf price channels
- Custom lengths also available
- 15 mil thick, clear rigid PVC material

ITEM #	HEIGHT	LENGTH
150327	2-1/4"	4-1/4"
150161	3-1/2"	5-1/2"

Slim-Line Sign Protector

Very economical flush-position sign protector. Flexible and crystal clear. Securely mounts to most standard shelf price channels directly at the edge of the shelf, and in a tilted viewing angle that does not block or interfere with the products on the shelf. Off-centered mounting strip allows your signage to be displayed either above or below the shelf. Can also be inserted securely into the face of a wide variety of both thin and thick backed info strip sign holders.

- Fits standard 1-1/4" shelf price channels
- Custom lengths also available
- Clear rigid PVC material

	ITEM #	HEIGHT	LENGTH	THICKNESS
NEW	150009	2-1/2"	3-1/2"	15 mil
	150163	3"	5"	12 mil
NEW	150366	3"	5"	15 mil
	150160	3-1/2"	5-1/2"	15 mil
	150164	7"	11"	12 mil

Slim-Line Oversized Sign Protector

Unlike our traditional line of flush-position Slim-Line Sign Protectors, this "oversized" style is designed to hang perpendicular to the shelf top and not to slant or tilt. Securely mounts to most standard shelf price channels directly at the edge of the shelf. As an added feature, the integrated snap-fit mounting strip ensures your signs rise a bit above the shelf to attract attention. Flexible and crystal clear.

- Fits standard 1-1/4" shelf price channels
- Each print protector width is approximately 3/16" wider than the actual recommended sign size shown below
- Custom sizes and lengths also available – please inquire
- 15 mil thick, clear PVC material
- Packed 25 per bag

ITEM #	SIGN SIZE	STYLE
107413	8-1/2" Width x 5-1/2" Height	Landscape
107412	8-1/2" Width x 11" Height	Portrait

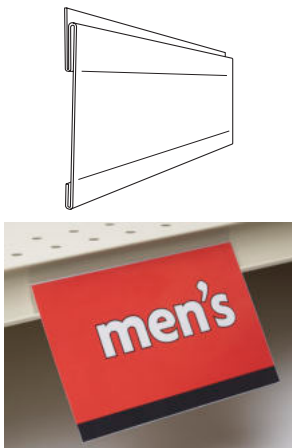

Mid-Channel Mount Sign Protectors

Economical, clip-in sign protector for common shelf fronts. Flexible and crystal clear. Securely mounts to most standard shelf price channels at a tilted viewing angle. Can also be inserted into the face of a variety of info strip sign holders.

- 12 mil thick
- Fits standard 1-1/4" shelf price channels
- Two lengths to choose from
- Custom lengths available - please inquire
- Clear, heat-bent PVC material

ITEM #	HEIGHT	LENGTH
150123	3-1/2"	5-1/2"
150124	3-1/2"	11"

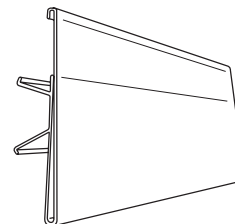

Sign & Literature Holders

Center Shelf Mount Covered-Face Sign Holder

Center signs neatly on shelves. Covered-face sign holder protects literature off common “C” channel shelving fronts. Snap-in back is centered to hang equally above and below the shelf. Signs are protected behind the clear face. Removable and reusable.

- 50 mil thick
- Fits common 1-1/4" shelf channels
- Custom lengths available - please inquire
- Clear rigid PVC material

ITEM #	HEIGHT	LENGTH
140701	3-1/2"	5-1/2"

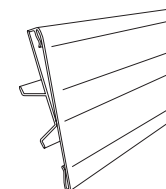

Hinged “C” Channel Covered-Face Sign Holder

Covered face design that easily accepts and protects common signs directly off of common “C” channel shelving fronts. Built-in hinge function flips the sign up when stocking inventory below. Scan codes through the clear facing. Part is removable and reusable.

- Designed to fit into common 1-1/4" height shelf price channels
- Holds 3-1/2" height x 5-1/2" long signs in flush position
- Custom lengths available – please inquire
- Clear PVC material

ITEM #	HEIGHT	LENGTH
108881	3-1/2"	5-1/2"

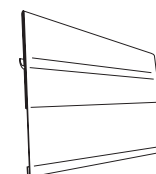

Economy Covered-Face Center Mount Sign Holder

Economically holds and protects signs or UPC inserts on most standard shelf price channels directly at the edge of the shelf while at a tilted viewing angel. Centered, snap-fit mounting strip insures your signage will be located both above and below the shelf. Scan codes through the flexible clear facing. Change signs with easy side insertion/removal. Extruded design that is both thicker and more durable than common heat bent protectors.

- Snap fits into most standard 1-1/4" height shelf price channels
- Custom lengths available – please inquire
- Clear PVC material

	ITEM #	HEIGHT	LENGTH	SIGN POSITION
	108760	3-1/2"	5-1/2"	Flush

NEW	150376	3-1/2"	7-3/4"	Flush

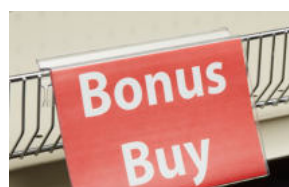

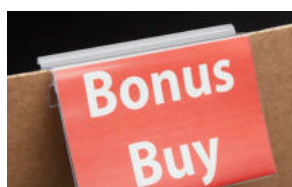

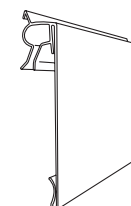

Multi-Mount Covered-Face Sign Holder

A single solution for at least three uses throughout the store. Attaches to most 1-1/4" height shelf channels, wire fixtures up to .375" diameter and panels of .080" to .250" thick. Signs and literature are held firmly, protected behind the clear facing. Removable and reusable.

- 40 mil thick
- Clear rigid PVC material
- Custom lengths and sizes available – please inquire

ITEM #	HEIGHT	LENGTH
150153	3-1/2"	5-1/2"

Universal Info Strip Hinged Covered-Face Sign Holder

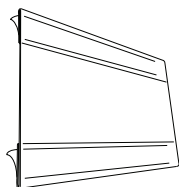

Clips securely onto the face of a wide variety of both thin and thick backer info strip sign holders. Hold signs firm in horizontal (flush) position. Integrated hinge allows the sign to flip up for easy access to inventory or scanning below. Removable and reusable.

- Integrated hinge connects full face window front to gripper
- "U" style single fin gripper is designed to fit most info strip label holders
- Clear PVC material

ITEM #	LENGTH	HEIGHT	SIGN POSITION
108594	5-1/2"	3-1/2"	Flush

Sign & Literature Holders

Covered Face Channel With Adhesive

Scan codes through the clear facing. Economically hold and protect signs or UPC inserts on pallet rack cross members or any other flat, clean surface. Change signs with easy side insertion/removal.

- Holds common 3-1/2" height x 5-1/2" long signs
- Two strips of adhesive – one top and one bottom
- Custom lengths available
- Clear PVC material
- Also available in non-glare material – please inquire

ITEM #	HEIGHT	LENGTH
150162	3-1/2"	5-1/2"

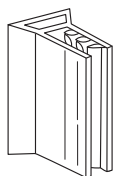

Shelf-Top Flag Sign Holder

Capture customer attention with aisle signage in flag position. Unique display arm securely holds signs perpendicular to shelf. Universal mounting tabs hook into most standard perforated shelves – round or diamond hole. Signs with pre-punched top holes easily traverse onto end of display arm.

- 7-1/2" overall length with 1-5/32" base width
- Holds paper signs up to .024" thick
- Sign requires minimum 7/32" diameter hanging holes
- Recommended for signs 4" to 6" wide
- Beige glass filled nylon material

ITEM #	OVERALL LENGTH	SIGN POSITION
107225	7-1/2"	Flag

Gripper Twist-In Sign Holder

Just insert base of clip into standard shelf price channel and twist-in for secure locking action. Gripper fins hold sign firm in vertical position. Part is removable and reusable.

- 1-1/4" long (1.150" cut length) x 5/8" overall height
- Base is 1/2" wide
- Holds material up to .080" thick
- Fits standard 1-1/4" shelf price channels
- Clear PVC material

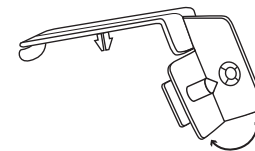

ITEM #	SIGN POSITION
108549	Flag

Self-Piercing Flag Sign Holder

Clip hooks into most standard perforated shelves and securely holds paper signs perpendicular to shelf. Very popular, reusable perf shelf clip featuring a piercing male pin that easily folds and punctures paper signs for a secure hold.

- 3" overall length
- 3/4" fold section
- Holds paper signs up to .012" thick
- Natural polypropylene material
- Packaged 100 per bag

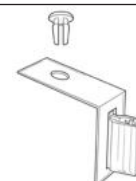

ITEM #	SIGN POSITION
107200	Flag

Perf Shelf Gripper Flag Sign Holder

Fits most round, square or diamond shaped perforated shelf holes. Attaches to shelf with #120400 Perf Shelf White Dart Clip (included). Is removable with a pinch of the Dart Clip and can be reused. Gripper fins hold sign firm in vertical (flag) position.

- 2" overall length x 3/4" wide
- Angled shelf front gripper area is 1-1/8" long x 9/16" height
- .250" diameter hole for Dart Clip insertion
- Holds signs up to .080" thick
- Clear PVC material
- Packaged 100 grippers and 100 clips per bag

ITEM #	SIGN POSITION

Self-Piercing Channel Flag Holder

Clips into standard price channels and securely holds paper signs. Very popular, reusable perf shelf clip featuring a piercing male pin that easily folds and punctures paper signs for a secure hold. Two styles to choose from: Standard holds signs at a slightly upward angle (i.e. parallel to the angled shelf channel), and Angled which holds signs perpendicular to the shelf surface. Great for ever-changing sale signs.

- 3/4" wide x 1-1/4" height
- 7/8" fold section
- Holds paper signs up to .012" thick
- Fits standard 1-1/4" shelf price channels
- Natural polypropylene material
- Packaged 50 per bag

#107201

#107209

ITEM #	STYLE	SIGN POSITION

Heavy Duty Self-Piercing Channel Flag Holder

Clips into standard price channels and securely holds paper signs. Reusable perf shelf clip featuring two self-piercing male pins with built-in finger protectors that easily fold and puncture paper signs for a secure hold. Unlike our other self-piercing sign holders, this heavy duty style clip is specifically designed for larger/thicker signs held in flag position (i.e. perpendicular to the shelf surface). Great for ever-changing sale signs.

- 1" wide x 2-1/8" height
- Dual 3/4" fold sections with finger protectors
- Holds paper signs up to .015" thick
- Fits standard 1-1/4" shelf price channels
- Natural polypropylene material
- Packaged 500 per bag

ITEM #	SIGN POSITION
107211	Flag

Price Channel Gripper Flag Sign Holder

Just insert base of clip into shelf price channel. Gripper fins hold sign firmly in vertical (flag) position. Two styles to choose from: Standard holds signs at a slightly upward angle (i.e. parallel to the angled shelf channel) and Angled (**Patented**) which holds signs perpendicular to the shelf surface (i.e. parallel to the floor). Both parts are removable and reusable.

- 1-3/8" long x 3/4" wide x 7/8" height
- Fits standard 1-1/4" shelf price channels
- Holds signs up to .080" thick
- Clear PVC material
- Also available in black

ITEM #	STYLE	SIGN POSITION
108100	Standard	Flag

Gripper Dual Action Flag Sign Holder

Versatile price channel clip that is reusable and easy to insert – just insert legs into shelf price channel. Gripper fins hold signs firmly and simultaneously in both flush (up or down) and/or flag position.

- 1-5/8" overall height x 3/4" length
- Fits into standard 1-1/4" shelf price channels
- Both sets of gripper fins hold signs up to .080" thick
- Clear PVC material

ITEM #	SIGN POSITION
108106	Flush/Up, Flush/Down & Flag

Price Channel Sign Holder

Our most economical shelf edge clip. Extremely versatile clip that securely holds all types of signs in three positions: flush/up, flush/down or flag. Snaps securely to fit standard shelf price channels.

- 1-3/8" long x 1" wide x 3/4" height
- Holds material up to .060" thick
- Fits standard 1-1/4" shelf price channels
- Natural translucent polypropylene material
- Packaged 50 per bag

ITEM #	SIGN POSITION
107125	Flush/Up, Flush/Down & Flag

Info Strip Gripper Flag Sign Holder

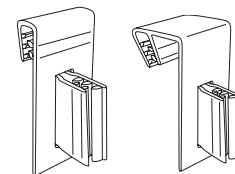

Clips securely onto the face of most thin backer, economy style info strips such as our shorter height Self-Adhesive Info Strips (see page 28). Gripper fins hold sign firmly in vertical (flag) position. Two styles to choose from: Standard holds signs at a slightly upward angle (i.e. parallel to the angled shelf channel) and Angled (**Patented**) which holds signs parallel to the floor. Both parts are removable and reusable.

- 1-1/2" long x 3/4" wide x 9/16" height
- Gripper fins hold signs up to .080" thick
- Clear PVC material

Spring Clip-On Track Sign Holder

One-track or two-track sign holder is supported by a durable spring clip, allowing attachment to multiple fixtures. Clip is lined with anti-slip coating and securely grips thicker items. Knuckling swivel system allows for display at optimal angles. Friction-fit slots support additional signage (details below).

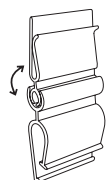

- Combine promotional and pricing information
- #150319B features one track that accepts 1-1/4" height signs, with a friction-fit slot on top for additional signage to rise above
- #150318B features two tracks that accept 1-1/4" and 2-1/4" height signs, with friction-fit slots on the top and bottom for additional signage to rise above or hang below
- Spring clip has a maximum grip of 1" dia.
- Custom lengths, custom tracks and custom colors available
- Black plastic and black PVC material

ITEM #	STYLE	TRACK HEIGHT	BONUS SLOT	LENGTH	OVERALL HEIGHT	COLOR

Ratchet-Style Deli Sign Clip

Top and bottom sections combine to form an ingenious ratcheting clip that is ideal for displaying signs, labels or advertisements on bowls, pans, floral buckets or other goods. Also works on deli style trays that have lipped edges. Two-way ratcheting ribs both securely hold and tilt signs forward or backward for optimal viewing angles. Removable and reusable.

- Two clips joined by a firm interlocking ratcheting design
- Top end holds signs up to .080" thick
- Other end hooks onto goods up to 3/8" thick
- Clear PVC material
- Parts come unassembled
- Packaged 25 tops and 25 bottoms per bag

Upward Shelf-Top Adhesive Sign Holder – Metal

Display various signs above standard perforated shelves. Unlike Kinter's other shelf-top sign holders, this product is designed to rise above the shelf rather than hanging below. Simply peel and stick your message to the 2" x 3" adhesive face. Use two or more holders for larger signs.

- Signs stand above the shelf
- Slide-on face is made from clear PVC with peel-off foam adhesive
- Base is made of beige painted steel material

ITEM #	STYLE	FACE SIZE	COLOR
106450	Adhesive Face	2" Wide x 3" Height	Beige

Flush Mount Adapter With Adhesive

Use this adapter to mount signs, pockets or literature holders practically anywhere. Adapter is sold either by itself or attached onto one of several different metal or plastic bases (see pages 108-112) for easy placement of your graphic in almost any retail setting – please inquire.

- 2" wide x 3" tall front mounting area
- Front mounting area has permanent foam tape with peel & stick paper backing
- Also available with four .187" diameter mounting holes instead of foam tape – please inquire
- Clear PVC material

Hinged Gripper Offset Sign Holder

Gripper sign holder that attaches to the top or sides of any clean, flat surface such as shelves and pallet rack uprights and cross members. Easily attach pricing or product information offset and extended into the aisle in horizontal (flush) position. Built-in hinge function flips the sign up when stocking shelves below.

- 1-1/2" long adhesive backed shelf attachment strip
- Gripper fins hold signs firmly up to .080" thick
- Extends 3/4" out from shelf edge
- Custom lengths and colors available
- Clear PVC material

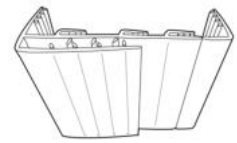

ITEM #	LENGTH	WIDTH	HEIGHT
108530	5-1/2"	2-1/4"	3/4"

Universal Adjustable Flush Grippers

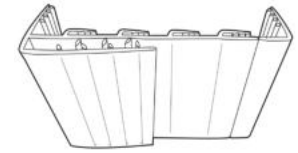

This **Patented** design is universal, interchangeable and inexpensive. Add flush mounted signs and displays to most square edged gondola end caps, uprights, cross members, wing panels or any other (metal or wood) retail or warehouse fixture. One clip does it all. Built-in ratcheting settings allow for fine adjustments; thus, undersized or oversized store fixtures are never a problem. Gripper fins hold signs securely with no adhesive or fasteners required. Each clip is produced and shipped as one piece and is eco-friendly since it is removable and reusable.

How it works: Simply snap apart the attached break-away leg, engage leg at desired width, micro-adjust and press onto fixture.

- Retail style has 1" tall fixture gripper legs and a pre-breakaway width of 3-1/2"
- Warehouse style has 1-1/4" tall fixture gripper legs and a pre-breakaway width of 3-7/8"
- Warehouse style will also fit round fixtures up to 1-1/2" in diameter
- Custom lengths available
- Clear PVC material

Magnetic Adjustable Double-Hook Aisle Sign Arm

Hold aisle signs securely in flag position from almost any angle off exposed metal surfaces such as the underside of shelving fixtures or tops of gondolas. Ratcheting magnetic base design allows the display of signs, promotions or category markers at optimal viewing positions with the simple push of a side button. Adjustable double clear plastic hooks rotate and fit a wide range of hole placement widths of up to 10 inches apart. Removable and reusable. **Warning:** Magnets should not be used near electronic equipment.

- Stem style is fixed length and is not telescopic
- Includes a plastic tip safety end cap – gray
- .120" clear plastic hook diameter
- 90 degree bent arm is 12" long x 3-1/2" height x 3/8" diameter
- Minimum recommended sign hole size is 3/16"
- Magnetic base is 1-1/2" wide x 2-3/4" long x 5/8" height
- Brushed aluminum arm with white plastic base

Garment Display Hanger

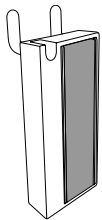

An inexpensive, clever way to display varieties of garments for any occasion, message or season. When combined with our Double Magnetic Adapter Base (sold separately – see page 153) and placed directly on exposed metal surfaces such as shelving fixtures or gondola tops, this ingenious hanger offers an attention-grabbing presentation. Create full 360 degree optimal viewing angles by simply swiveling the stem's direction within the Double Magnetic Adapter Base. Use one hanger for single-sided garment placement or two hangers back to back for double-sided impact. Removable and reusable.

- Curved tip top offers the ability to dual display hats as well
- .234" wire stem diameter
- Steel powder coated black
- Other colors or finishes also available – please inquire

Business Card Holder

Offer standard-sized business cards on desks, tables or counters. Adds a professional appearance to any setting. Winged-back, single-pocket design ensures that cards remain upright.

- Holds business cards or small literature up to 3-5/8" wide
- Displays up to 50 business cards
- Extended back keeps cards propped up
- Deluxe .080" thick plastic
- Crystal clear styrene

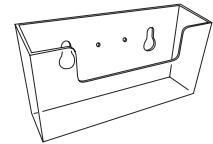

ITEM #	WIDTH	BACK HEIGHT	DEPTH
150136	4"	3-1/2"	1"

Rigid Wall Mount Coupon Holder

Attractively showcase coupons, recipes or product information from flat surfaces such as walls, windows or display boards. Can be mounted with our premium mushroom head suction cups (sold separately – see page 162) or common #6 diameter screws (also sold separately – please inquire). Sits perfectly as a freestanding holder on countertops as well.

- Deluxe .080" - .090" thick styrene
- Designed for common 6" wide coupons
- Frontside is notched and a bit shorter than backside for improved visibility
- Two backside keyholes at 3-1/2" on center accept either our small, medium or large mushroom head suction cups
- Two additional backside round holes are 5/32" diameter and 1-1/8" on center
- Can also be mounted with double-sided tape or cable ties (sold separately)
- Crystal clear styrene material

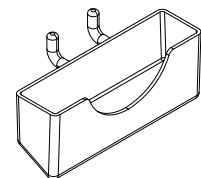

ITEM #	WIDTH	BACK HEIGHT	DEPTH

Rigid Freestanding Literature Holder

Attractively showcase tri-fold literature, pamphlets or brochures. Sits perfectly stable as a freestanding holder on tops of tables, shelves, desks or counters. Slant back, single-pocket design ensures that literature remains upright.

- Holds literature up to 4" wide
- Double backside wing design for increased stability
- Base measures 3-1/4" deep
- Deluxe .070" - .080" thick styrene
- Frontside is notched for improved visibility
- Crystal clear styrene material

ITEM #	WIDTH	BACK HEIGHT	DEPTH
150826	4-5/16"	7"	1-5/16"

Fold-Up Rigid Literature Holder

Ingenious ship flat, fold-up, self-standing literature holder that saves inventory space and eliminates breakage. Attractively showcase tri-fold pamphlets or brochures. Sits stable as a freestanding holder on tops of tables, shelves, desks or counters. Slant back, single pocket design ensures that literature remains upright.

- Holds literature up to 4-1/8" wide
- Wide backside easel design for increased stability
- Base measures 3-1/4" when snapped together via a few simple folds – instructions included with each part
- Also can be wall mounted via two backside hole options: one slotted hole and one keyhole
- Frontside is notched for improved visibility
- .070" - .080" rigid material thickness
- Clear K-Resin material

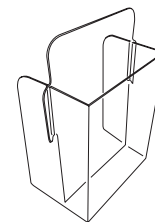

ITEM #	WIDTH	BACK HEIGHT	DEPTH
150130	4-1/8"	7"	1-5/8"

Fold-Up Easel Back Literature Box

Makes brochures stand up and get noticed. Ingenious ship flat, fold-up, self standing literature holder/protector for countertop display. Much less expensive than solid acrylic tri-fold brochure holders. Box assembles easily by locking into position with integrated double-tabs. Full 20 mil thickness is stronger than thinner imitations.

- Die-impressed score lines easily fold into place
- Holds 4" wide brochures
- 4-1/16" wide x 1-1/4" deep x 5" front height and 6-1/4" back height
- 20 mil thick, clear rigid PVC material

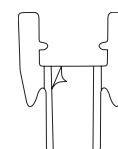

ITEM #	ASSEMBLED WIDTH	ASSEMBLED OVERALL HEIGHT
150122	4-1/16"	6-1/4"

Warehouse Upright Adapter

Designed to securely attach signs, flush displays or fold-up literature boxes directly onto common upright slots found in warehouse pallet racking. Simply peel and stick the pre-applied adhesive strip to the back side, flat surface of most literature holders – then, flexibly engage the two wings into the teardrop shaped holes found on standard retail warehouse uprights.

- Flexible mounting wings are 1-5/8" on center
- Fits most standard warehouse pallet racking with teardrop style holes
- .050" (50 mil) thick natural high density polyethylene

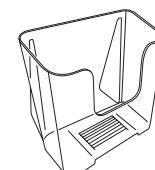

ITEM #	WIDTH	HEIGHT
150155	2"	2-1/2"

Single-Pocket Winged Back Literature Holder

Attractively showcase literature, pamphlets or brochures. Sits as a freestanding holder on tables, shelves, desks or counters. Winged-back, single-pocket design ensures that literature remains upright.

- Holds literature up to 4" wide
- Frontside is notched for improved visibility
- Bottom of pocket has ridges to keep literature from sliding
- Deluxe .080" thick plastic
- Crystal clear styrene

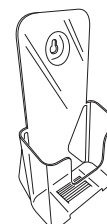

ITEM #	WIDTH	BACK HEIGHT	DEPTH
150131	4-3/8"	3-7/8"	1-5/8"

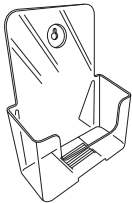

Single-Pocket Winged Back Literature Holder With Hole

Attractively showcase literature, pamphlets or brochures. Sits as a freestanding holder on tables, shelves, desks or counters, or can be mounted to a wall or other fixtures using the built-in hole (fasteners sold separately). Winged-back, single-pocket design ensures that literature remains upright.

- Holds literature up to 4" wide
- Frontside is notched for improved visibility
- Bottom of pocket has ridges to keep literature from sliding
- Built-in mounting hole adds versatility
- Deluxe .080" thick plastic
- Crystal clear styrene

ITEM #	WIDTH	BACK HEIGHT	DEPTH
150132	4-3/8"	7-3/4"	1-5/8"

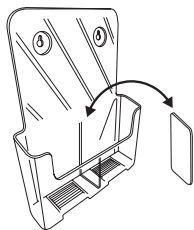

Extra-Large Winged Back Literature Holder With Hole

Attractively showcase larger, thicker literature. Sits as a freestanding holder on tables, shelves, desks or counters, or can be mounted to a wall or other fixtures using the built-in hole (fasteners sold separately). Winged-back, single-pocket design ensures that literature remains upright.

- Holds literature up to 6-3/8" wide
- Frontside is notched for improved visibility
- Bottom of pocket has ridges to keep literature from sliding
- Built-in mounting hole adds versatility
- Deluxe .080" thick plastic
- Crystal clear styrene

ITEM #	WIDTH	BACK HEIGHT	DEPTH
150137	6-3/4"	7-3/4"	2"

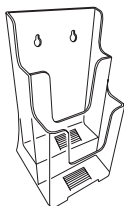

Two-Way Winged Back Literature Holder

Display literature two different ways: Either one long pocket or two smaller pockets. This freestanding literature holder features a handy, slide-in divider. Keep the divider in place to have two separate pockets, or simply remove the divider and use the entire length at once. Sits as a freestanding holder, or can be mounted to a wall or other fixtures using the built-in holes (fasteners sold separately). Winged-back design ensures that literature remains upright.

- With divider in place, hold literature up to 4-1/4" wide
- With divider removed, hold literature up to 9" wide
- Frontside is notched for improved visibility
- Bottom of pocket has ridges to keep literature from sliding
- Built-in mounting holes add versatility
- Deluxe .080" thick plastic
- Crystal clear styrene

ITEM #	WIDTH	BACK HEIGHT	DEPTH
150138	9-3/8"	10-3/4"	1-1/2"

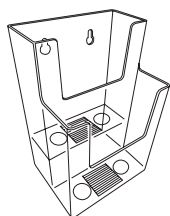

Two-Level Winged Back Brochure Holder

Two separate levels showcase tri-fold literature, pamphlets or brochures. Place as a freestanding holder, or mount to a wall or other fixtures using two built-in holes (fasteners sold separately). Winged back allows a slightly angled view. Unit is one solid, clear piece that requires no assembly.

- Holds literature up to 4-1/8" wide
- Front pocket is 1-1/8" deep and 4-1/2" tall
- Back pocket is 1-1/4" deep and 4-3/4" tall
- Level 2 is 1-1/2" higher than Level 1
- Bottom of pockets have ridges to keep literature from sliding
- Built-in mounting holes add versatility
- Deluxe .080" thick plastic
- Both front sides are notched for improved visibility
- Crystal clear styrene

ITEM #	WIDTH	BACK HEIGHT	LEVELS
150134	4-5/8"	8-1/4"	2 Levels

Two-Level Brochure Holder

Two separate levels showcase tri-fold literature, pamphlets or brochures. Place as a freestanding holder, or mount to a wall or other fixtures using two built-in holes (fasteners sold separately). Unit is one solid, clear piece that requires no assembly.

- Holds literature up to 4-1/4" wide
- Front pocket is 1-1/2" deep and 4-3/4" tall
- Back pocket is 1-3/4" deep and 4-7/8" tall
- Level 2 is 2" higher than Level 1
- Bottom of pockets have ridges to keep literature from sliding
- Built-in mounting holes add versatility
- Deluxe .080" thick plastic
- Both front sides are notched for improved visibility
- Crystal clear styrene

ITEM #	WIDTH	BACK HEIGHT	LEVELS

Sign & Literature Holders

Three-Level Brochure Holder

Three separate levels showcase tri-fold literature, pamphlets or brochures. Place as a freestanding holder, or mount to a wall or other fixtures using two built-in holes (fasteners sold separately). Unit is one solid, clear piece that requires no assembly.

- Holds literature up to 4-1/4" wide
- Each pocket is 1-5/8" deep and 4-7/8" tall
- Levels 2 and 3 are each 2" higher than the one before
- Bottom of pockets have ridges to keep literature from sliding
- Built-in mounting holes add versatility
- Deluxe .080" thick plastic
- All three frontsides are notched for improved visibility
- Crystal clear styrene

ITEM #	WIDTH	BACK HEIGHT	LEVELS
150831	4-5/8"	9"	3 Levels

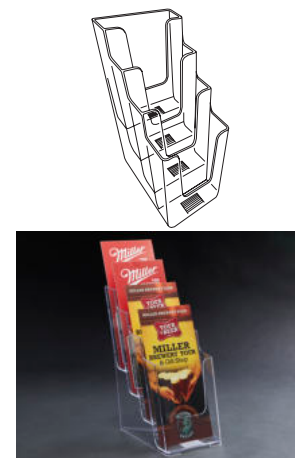

Four-Level Brochure Holder

Four separate levels showcase tri-fold literature, pamphlets or brochures. Place as a freestanding holder, or mount to a wall or other fixtures using two built-in holes (fasteners sold separately). Unit is one solid, clear piece that requires no assembly.

- Holds literature up to 4-1/8" wide
- All pockets are 5-1/2" tall and at least 1" deep
- Levels 2, 3 and 4 are 1-1/2" higher than the one before
- Bottom of pockets have ridges to keep literature from sliding
- Built-in mounting holes add versatility
- Deluxe .070" to .090" thick plastic
- All four frontsides are notched for improved visibility
- Crystal clear styrene

ITEM #	WIDTH	BACK HEIGHT	LEVELS

Please note: Display boards are not included.

1. Peel off backing to expose adhesive

2. Press easel onto center of display board

3. Fold out wing & bend down support tab

Sign & Literature Holders

Take-One Outdoor Literature Holder

Versatile vacuum-formed holder that keeps literature, brochures and flyers protected and easily accessible. Hinged top flap simply snaps on and allows for easy restocking/removal of material. Two popular sizes to choose from: the small is for half-fold and tri-fold sheets while the large is for standard full sheets (not legal size). **Patented.**

- For both indoor and outdoor use
- Pre-punched hanging holes at top and bottom
- Clear PETG material
- Included with each literature holder: two .178" wide (50# tensile) x 11" long natural nylon cable ties; two #10 x 3/4" long Phillips pan head steel zinc plated sheet metal screws; and one red lettered "Take One" sticker
- Can also be mounted with double-sided tape or suction cups (sold separately)

ITEM #	WIDTH	HEIGHT	DEPTH	SIZE
150150	5-1/2"	9-1/4"	1-1/2"	Small
150151	9"	11-3/4"	1-1/8"	Large

Mounting hardware included

If you need different length Cable Ties than the two 11" long straps included, additional Locking Straps can be purchased separately (see page 202).

Suction cups sold separately (see page 162-163)

K-Frame. In-store impact. **Solved.**

Focus consumer attention on the products and promotions that drive your business with K-Frame, the elegant, modular and cost-effective new signage framing solution from Kinter. K-Frame is available in a wide variety of sizes and configurations to accommodate just about every possible signage need. It installs in a snap and is made to last. Ask a KinterCare Representative about all of the framing options and related mounting accessories available.

Sign & Literature Holders

K-Frames

Elegant, round cornered two-sided sign frame that is both interchangeable and versatile. In-store advertising made cost-effective when snapped into any one of a variety of K-Frame base choices (all bases sold separately). Can be used in either portrait (vertical) or landscape (horizontal) orientation and repositioned as needed. Signs are framed evenly on all four sides by an attractive 15/32" wide border.

- Choose the frame that is right for your application
- Secure friction fit design with no tools required
- Accepts signs up to .110" thick
- Compatible with all K-Frame holder system components
- Custom sizes and colors available – please inquire
- White or black plastic material
- Packaged 5 per bag

- Clear PVC

ITEM #	WIDTH	MAX. WIRE DIAMETER
106098	1-1/4"	up to 3/8"

Display Construction

Shelf Support Clips

Makes corrugated assembly easy and saves on shipping costs. Prior to shipping corrugated displays, two piece shelf support clips allow for pre-attachment of “knock-down” sections. Male parts have holes for glue seep through and female parts have snap-lock features. **Warning:** Parts are designed to be used vertically and are not recommended for horizontal use.

- Male and female parts sold separately and in equal quantities only
- Fits up to 3/16" (C-Flute) corrugated
- Polypropylene material
- Also available in other colors – please inquire

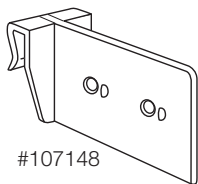

ITEM #	STYLE	SIZE	HEIGHT	LENGTH	COLOR

107142	Male	Large	2-3/8"	2-1/4"	White
107143	Female	Large	2-3/8"	n/a	White

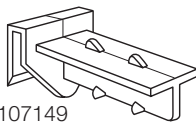

#107140 is also available with our Modular Display Pole Shelf Support (see page 199)

Display Construction

#107148

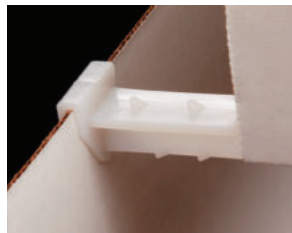

#107149

Clip-On Corrugated Shelf Supports

Use to securely support corrugated shelves within displays. The vertical style is for light to medium weight applications and the horizontal style is for heavier applications. The vertical style has side holes for glue seep through and the horizontal style has tapered teeth that bite into corrugated.

- Fits up to 1/8" (B-Flute) corrugated
- Natural polypropylene material
- Packaged 50 per bag

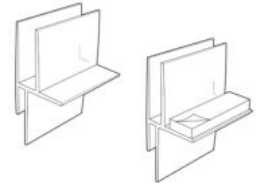

ITEM #	STYLE	STRENGTH	LENGTH
107148	Vertical	Standard	2-1/4"
107149	Horizontal	Heavy Duty	2"

Corrugated Shelf Support Inserts

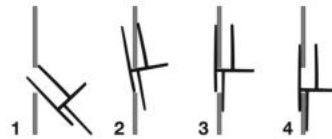

Offers quick and easy installation of corrugated shelves while securely holding shelf in place – no glue required. Simply insert the clip into a corrugated cut-out, slide the insert into place and slip the edge of the shelf over the capture leg – it's that simple.

- 1-1/2" wide x 2-1/4" overall length
- Single capacity holds 1/8" (B-Flute) shelf construction & 1/8" display wall for a total of 1/4"
- Double capacity holds doubled thickness 1/8" (B-Flute) shelf construction & 1/8" display wall for a total of 3/8"
- Clear PVC material

ITEM #	CAPACITY	STYLE
107156	1/4" Single	No Adhesive
107158	1/4" Single	With Adhesive
107157	3/8" Double	No Adhesive

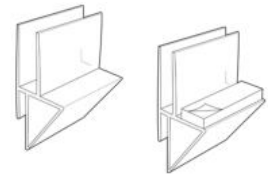

Insertion Steps:

Heavy Duty Corrugated Shelf Support Inserts

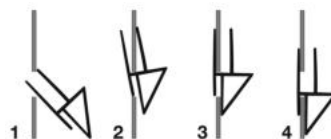

Angled support tube styled bottom offers more strength for heavier shelves. Easy installation with no glue required. Simply insert the clip into a corrugated cut-out, slide the insert into place and slip the edge of the shelf over the capture leg – it's that simple.

- 1-1/2" wide x 2-1/4" overall length
- Angled support for heavier applications
- Single capacity holds 1/8" (B-Flute) shelf construction & 1/8" display wall for a total of 1/4"
- Double capacity holds doubled thickness 1/8" (B-Flute) shelf construction & 1/8" display wall for a total of 3/8"
- Clear PVC material

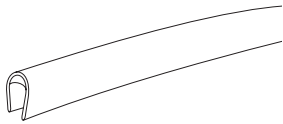

ITEM #	CAPACITY	STYLE
107159	1/4" Single	No Adhesive
107161	1/4" Single	With Adhesive
107160	3/8" Double	No Adhesive

Insertion Steps:

Corrugated Edge Molding

Flexible plastic trim designed to give a beautiful finished appearance to corrugated display edging. Pre-glued, pressure sensitive adhesive within the channel assures a secure fit even around irregularly shaped or rounded edges. Attractively cover unfinished edges while assuring customer safety from possible paper cuts. Quick and easy installation.

- 5/16" U-shaped overall height designed to fit 1/8" (B-Flute) corrugated
- Bright chrome has a decorative mylar finish
- Other colors, finishes or special lengths available – please inquire
- Flexible vinyl material
- Packaged in continuous 500 foot long rolls
- Sold in full rolls only

ITEM #	COLOR	ROLL QUANTITY
150625	Bright Chrome	500 feet
150625W	White	500 feet
150625B	Black	500 feet

Flute Wire

An inexpensive way to form or support corrugated displays, die cuts or headers. Use to keep weaker display sections from bending or breaking over. Add signs above displays or to join two or more displays together. If shipping larger folded signs or scored headers, Flute Wires are a great way to re-assemble as rigid.

- Slides inside the fluting of common corrugated materials and holds a bend as needed
- For use in either B or C Flute corrugate
- Other Flute sizes/diameters and lengths available – please inquire
- Bright galvanized, zinc coated metal

ITEM #	FITS INSIDE	WIRE GAUGE	LENGTH

Adjustable Pallet Guard

Selling straight from the pallet made highly appealing, safe and secure. Enhance your store's appearance at an affordable price. Pallet guards hide unsightly floor placed pallets and protect merchandise from being damaged. Pallet guards also reduce the risk of customer trips and/or falls. Great for club stores or wholesale merchandise retail environments.

- Adjustable panels that fit a wide range of pallets from 28 inch to 54 inch in size
- Four pre-assembled panels that are 6 inch height each
- More durable than paper, corrugated or elastic band style pallet wraps
- Removable and reusable time and time again
- Easy to set up and extend with no tools required
- Also available in caution yellow, white and other custom colors – please inquire
- Durable black HIPS material

ITEM #	FITS PALLET SIZE	COLOR

Rigid Display Feet

Three-point display foot that lifts, supports and protects display corners 1/2" above the floor. For added strength for larger floor based displays use the center style, two-point support between the corners. Simply friction fit each part to attach to corrugated bottom edges.

- Holds up to 3/16" (C-Flute) corrugated 1/2" off the floor
- Corner style is a fixed 90 degree angle and has corner dimensions of 2-1/2" x 2-1/2"
- Center style is 1-1/2" wide and has a tapered shape to a 1" wide top
- White styrene material

Floor Stand Corner Glide

Three point rigid display foot that lifts, supports, and protects display corners flush and low-profile to the floor at fixed, 90 degree angles. Adheres to flat bottom corrugated displays and floor stands with permanent adhesive. Durable display corner glide that makes moving fixtures or displays easy.

- Fixed 90 degree angle with both sides 2-1/2" from corner
- Holds displays approximately 1/16" off the floor
- Adhesive backed base
- Clear ABS material
- Packaged 200 per bag

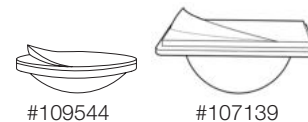

ITEM #	OVERALL HEIGHT	CORNER DIMENSIONS
107134	7/8"	2-1/2" x 2-1/2"

Display Caster With Adhesive

Adheres to flat bottom displays with permanent adhesive. Durable display foot that lifts, protects and makes moving heavy displays easy.

- #109544 round mini casters (also called “glide buttons”) have .200" height rounded contour foot
- #107139 square casters have .750" height rounded contour foot and supports up to 100 lbs. off the floor

ITEM #	BASE DIMENSIONS	MATERIAL

Plastic Master Display Caster

Highly popular caster. Fixed, smooth-running wheel set in a square, steel-reinforced black mounting bracket. Adheres to flat bottom displays with permanent adhesive and makes almost anything moveable in minutes. No tools needed – just peel and stick.

- Square, adhesive backed base
- 1-1/4" diameter non-swiveling wheel
- 1-1/2" overall height
- Supports a maximum capacity of 60 lbs. per caster
- Black high impact polystyrene (HIPS) material

ITEM #	BASE DIMENSIONS
107138	2" x 2"

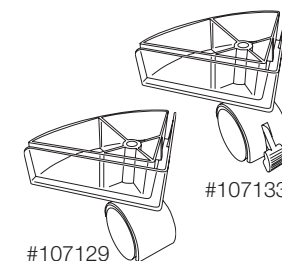

Swivel Display Caster With Corner Bracket

Swiveling, smooth-rolling independent wheel set threaded into a durable 90 degree corner support bracket (some assembly required). Lifts and protects display corners approximately 2 inches above the floor. Two styles to choose from: locking and non-locking. Simply friction fit each clear corner support bracket to attach to corrugated bottom edges. Makes almost any fixture or corrugated display easily moveable. Optional locking style can be used to both mobilize or immobilize a display.

- Holds up to 1/4" (A-Flute) corrugated 2" off the floor
- 1-9/16" wheel diameter with 5/16-18 x 3/4" long plated steel stem
- Reinforced corner bracket having dimensions of 3-1/2" x 3-1/2" x 1-1/4" height
- Supports a maximum of 75 lbs. per swivel caster (i.e. 300 lbs. total distributed weight among 4 swivel casters)
- Clear polycarbonate corner and black HIPS wheel
- Packed four complete assemblies per bag
- Sold only in full bags of four pieces

ITEM #	STYLE
107129	Swiveling and Non-Locking
107133	Swiveling and Locking

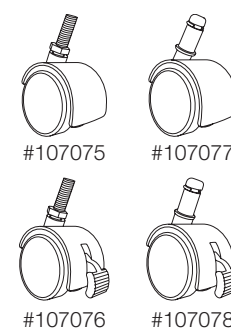

Twin Wheel Casters

Swiveling, smooth rolling independent wheel set offered with or without threaded stem. Lifts display corners approximately 2 inches above the floor. Two styles to choose from: locking and non-locking. For the non-threaded stem option, simply friction fit to create a seamless joint with no tools required. Makes almost any fixture or display easily moveable. Optional locking style can be used to both mobilize or immobilize a display.

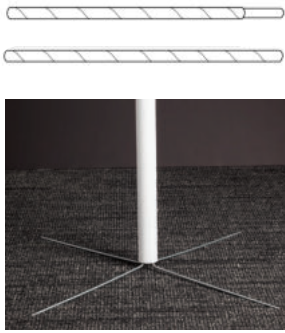

- 1-9/16" wheel diameter
- Threaded style has a 5/16-18 x 3/4" long zinc plated steel stem
- Non-threaded style has a 7/16" diameter x 7/8" long zinc plated steel stem
- Supports a maximum of 75 lbs. per swivel caster (i.e. 300 lbs. total distributed weight among 4 swivel casters)
- Black HIPS wheel
- Sold only in full bags of four pieces

Display Poles

Two section, rigid litho display poles/tubes with four common diameters to choose from. Male and female pieces (sold separately) are each 39 inches long; when fully assembled, total overall length is 6 feet. Great for when displays or signs require poles for support. The 6" long integrated inner core (joiner) on the male pole has tight tolerances for a secure fit. Male and female sections sold separately.

- When assembled, display pole is 6 ft. long
- Also available with holes or notches – please inquire
- Custom colors and/or lengths available
- White or black litho wrapped, spiral wound paper material

Wire Display Pole Foot

Simply press two identical/overlapping pieces into the inside of our common Display Poles (sold separately) to create an inexpensive, four-legged, sturdy base. Four sizes to choose from, each of which create a 24" overall tip-to-tip span.

- Sold by the piece, not the set
- Complete assembly requires two of the same size pieces
- Four sizes available for different inside diameter poles
- .177" wire diameter, bright galvanized steel

ITEM #	FITS POLE SIZE	OVERALL SPAN
108050	Small (13/16" I.D.)	24"
108051	Medium (1-1/4" I.D.)	24"
108052	Large (1-15/32" I.D.)	24"
NEW 108053	Extra Large (1-3/4" I.D.)	24"

Molded Plastic Display Feet Kit

Our popular sturdy plastic display pole feet, a locking rubber ring and easy to follow instruction sheet packaged together in a convenient kit. Simply press each identical foot into the inside of common Display Poles of 1-1/2" to 2" O.D. (sold separately – see above) to create an inexpensive, yet elegant, four-legged base. More compact to ship than compared to traditional wire display pole feet. **Patented.**

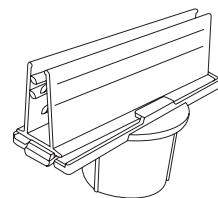

- Each plastic foot measures 12" long x 5-1/4" height x 1/2" wide
- Creates a well balanced 26" overall tip-to-tip span
- Flexible rubber retaining ring is 1-3/4" I.D. x 7/32" thick
- One size fits three common fiber pole O.D.'s of 1-1/2", 1-3/4" and 2"
- Each sealed, clear polybagged kit contains four display pole feet, one ring and an instruction sheet
- Black plastic material

ITEM #	CONTENTS	COLOR

Gripper Sign Holder For Display Poles

Add header signage to common display pole tops with this simple two-piece assembled holder. Unique "T" style adapter that fits two common size litho poles – specifically the O.D. of our small pole and the I.D. of our medium pole. Gripper fins hold signs securely in horizontal position. Dual slide-in/slide-over friction fit design that is both removable and reusable. Litho display poles sold separately (see page 198).

- Each part comes assembled and ready for use
- 2" overall non-inserted height
- Gripper top is 3" wide x 1" height and holds signs .080" to .250" thick
- "T" style base is white styrene material and gripper top is clear PVC
- Also available in black or custom colors – please inquire

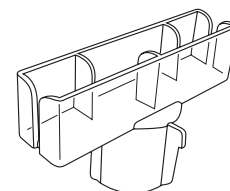

ITEM #	FITS POLE SIZES	OVERALL WIDTH
108060	Small (1" O.D.) & Medium (1-1/4" I.D.)	3"

Top Sign Holder For Display Poles

Add header signage to common display pole tops with this simple one-piece holder. Unique "T" style adapter that fits two common size litho poles – specifically, the O.D. of our small pole and the I.D. of our large pole. Internal interlocking ribs hold signs securely in horizontal position. Dual slide-in/slide-over friction fit design that is both removable and reusable. Litho display poles sold separately (see page 198).

- 1-3/4" overall non-inserted height
- Top is 3" wide x 13/16" height and holds signs .018" to .062" thick
- Also available in black, white or in custom colors – please inquire
- Clear styrene material

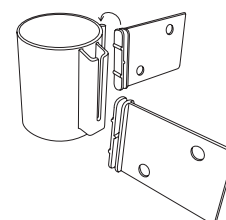

ITEM #	FITS POLE SIZES	OVERALL WIDTH
109519	Small (1" O.D.) & Large (1-15/32" I.D.)	3"

Modular Display Pole Shelf Support

Makes corrugated shelving assembly easy and saves on shipping costs. Prior to shipping four-sided corrugated shelving displays, Modular Display Pole Shelf Supports are combined with our small male Shelf Support Clips (included) to allow for pre-attachment of "knock down" shelving sections. As an added option, caps are available for a finished look on the top tier (sold separately – see below). Otherwise known as corrugated corner support shelving brackets.

- Included small male Shelf Support Clips fit up to 3/16" (C-Flute) corrugated
- Quick and easy friction fit assembly with our 1-3/4" O.D. Display Poles (sold separately)
- Round display pole supports are 2" outside diameter
- Small male shelf support clips are 1-7/8" height x 2-1/4" length
- White polypropylene material
- Packaged ten display pole supports and twenty small male shelf support clips per bag

Cap sold separately

ITEM #	HEIGHT	FITS POLE SIZE
109514	2-1/2"	Large (1-3/4" O.D.)

Modular Display Pole Shelf Support Cap

When inserted into the top tier section of our Modular Display Pole Shelf Supports (sold separately), these caps provide the finishing touch needed for an upscale appearance.

- Secure low-profile flush style cap design
- 2" O.D. round flat head
- 3/4" long integrated cross style male insert for friction fit
- White polypropylene material
- Packaged 50 per bag

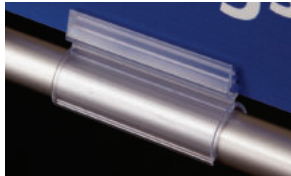

ITEM #	SIZE	FOR USE WITH
109515	2" O.D.	Modular Display Pole Shelf Support

Pole Gripper Sign Holder

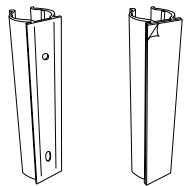

Gripper fins hold sign securely in vertical (flag) position. Clip-on design, coupled with gripper ribs, firmly attaches to display poles to prevent sign from rotating, thus allowing for a variety of viewing angles. Part is removable and reusable.

- Small and medium are 1/2" height and large is 5/8" height
- Three sizes to choose from
- Custom lengths available
- Clear PVC material

Premium Pole Gripper – Flush

Clip-on design coupled with gripper ribs prevent rotation. Firmly attach signs and promotions flush to common banner stands and display poles (sold separately). Also use integrated fastener holes (one round and one oval) or permanent adhesive backing to secure round poles to most surfaces. "Premium" size is stronger than our common Pole Gripper or Strap Clips. **Note:** When part is placed on the maximum 1" O.D. size, the flat mounting base area tends to bow a little.

- Fits 3/4" through 1" O.D. round poles
- .125" diameter hole option accepts common plastic or metal fasteners (sold separately)
- 3/4" wide x 4" long mounting base area
- Custom lengths available
- Clear PVC material

ITEM #	OVERALL LENGTH	STYLE
108724	4"	With Two Holes
108725	4"	With Adhesive

Pole Gripper

An easy way to secure display poles to most flat, clean surfaces with integrated permanent adhesive backing. Clip-on design is both fast and inexpensive. Also use to attach signs and promotions to Display Poles (sold separately). Available in two common sizes.

- Sturdy adhesive backed clip
- Small size has a 3/4" wide x 9/16" height backing
- Medium size has a 3-1/16" wide x 1" height backing
- White styrene material

ITEM #	SIZE	FITS POLE SIZE
107152	Small	Small (1" O.D.)
107153	Medium	Medium (1-1/2" O.D.)

Adhesive Strap Clip

Fast, inexpensive way to attach display poles to most flat, clean surfaces with adhesive. Cable Tie passes through the channel area around the pole and then adjusts to desired size for a secure fit.

- Adhesive backed base is 1" long x 1-3/8" height
- Centered channel area has 1/4" inside width x 3/8" overall height
- Accepts Cable Ties .178" wide or less (sold separately)
- Clear PVC material

ITEM #	BASE LENGTH	BASE HEIGHT
107151	1"	1-3/8"

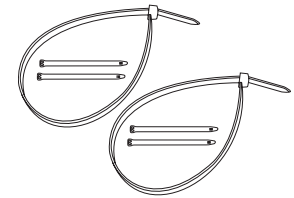

Cable Ties are sold separately – see page 202.
This clip can be used with parts #130500 through #130507 (.178" wide or smaller).

Pole Sign Cable Tie Kits

Fast, inexpensive way to secure both indoor and outdoor signs back to back on most round or square poles. Hang corplas or corrugated signs with confidence. Our most popular cable ties pre-packaged in a convenient kit. For back to back signs, the 36" long ties easily secure the signs to the pole, while the 8" long ties cinch the corners together. No tools required to assemble.

- 36" long ties are our popular #130512 (.340" wide)
- 8" long ties are our standard #130504 (.140" wide)
- Nylon 6/6 material
- Each sealed, clear polybagged kit contains two 36" long ties and four 8" long ties

ITEM #	COLOR	CONTENTS
130525	Natural	Two 36" and Four 8" Ties
130525B	Black	Two 36" and Four 8" Ties

Display Construction

Indoor/Outdoor Sign-Mounting Bracket Kit

Secure, heavy-duty way to hang signs on most round or square poles, posts or columns with confidence. Stainless steel construction lends itself well to both indoor and outdoor use. All required components conveniently sealed in a clear poly bag. For two signs back to back, or for a dramatic three-sign triangular effect, combine additional brackets, bolts and washers (sold separately – please inquire). Some minor assembly required. **Warning:** Straps must be firmly fastened and locked down securely.

- Straps are 9/16" wide x 52" overall length with a slotted worm-drive hex screw housing
- 5/16-18 threaded brackets have slotted flared legs and measure 2-1/4" width x 1-1/2" height and will offset from pole approximately 5/8"
- Hex bolts are 5/16-18 x 5/8" long with 1/2" hex width across flats
- Flat washers are 5/16" bolt size x 5/8" O.D. – natural nylon
- Hex wrench and slotted screwdriver required (sold separately – see page 223).
- Stainless steel straps, brackets and bolts
- Each sealed, clear polybagged kit contains two straps, two brackets, two bolts and two washers

Releasable Beaded Locking Straps

Also known as Beaded Cable Ties. Fast, inexpensive way to temporarily or permanently secure signs and other items. Unlike our standard, solid style Cable Ties (Locking Straps), these releasable locking straps are removable and reusable. Just adjust to desired size anywhere along the full length and lock into place. Simple hand assembly with no tools required. Round ball design eliminates snags, cuts and abrasions.

- Tail beads/balls snap securely into head
- 4" long straps have a .200" head width x .350" head length
- 6", 8" and 10" long straps have a .230" head width x .490" head length
- Nylon 6/6 material

Fixed Style Security Tie

Fast, economical way to secure vinyl pouches, tags and/or tickets to just about anything. The thinnest naturally looping tie that we offer. Almost invisible, yet very strong. Fixed locked length. Tamperproof: must be cut to be removed.

- Available in three common lengths
- Non-adjustable fixed length design
- Cannot be re-used after engagement
- Natural nylon material
- Packaged 500 per bag

ITEM #	LENGTH	TENSILE STRENGTH
130553	3"	10#
130555	5"	10#
130559	9"	10#

Ladder Style Permanent Locking Straps

Fast, inexpensive way to permanently secure signs and other items. Simply adjust to desired size anywhere along the full length and lock into place with built-in ratcheting mechanism. Unlike our standard, solid style Cable Ties (Locking Straps), ladder ties are extremely flexible and can be cut with scissors for easy removal.

- Straps are notched full length for a hollow laddered style
- Nylon 6/6 material
- Also available in black
- Packaged 1,000 per bag

130571	.140"	11"	40#	Natural

Loop Style Locking Strap

Hang lightweight signs, merchandising strips, vinyl pouches and more with this simple, inexpensive plastic fastener. The male and female ends bend around and snap together to create an approximate 7/8" loop length. Loop style straps are intended to be more permanent in nature and are not recommended to be pulled apart for reuse.

- Total overall length is 2-3/8"
- Both round heads are 3/8" diameter
- Strap is 1/8" wide x 1-5/8" long
- Pin dia. is 1/8"
- Maximum sign thickness is 20 mil
- Clear plastic material
- Packed 100 per bag

ITEM #	OVERALL LENGTH	COLOR
130565	2-3/8"	Clear

Power Panel Bar

When legs are inserted into the sides of perforated shelving, power bars allow for attachment of corrugated displays using plastic or metal wing clips (sold separately). Removable and reusable. Also known as a Wing Bar or Sidekick.

- .177" diameter wire, with two lengths to choose from
- Two attached arms that adjust to fit perforated shelf holes (round, square or diamond shaped) either 14" or 17-1/2" apart
- Bright galvanized steel material

ITEM #	OVERALL LENGTH
107108	15-1/2"
107119	19-1/4"

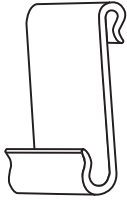

Power Wire Wing Clip

Our most popular size. Securely attach corrugated displays on wire power wing/bar (i.e. sidekick).

- Fits up to .250" diameter wire and 1/8" (B-Flute) corrugated
- Additional widths and colors can be made to order
- White high impact polystyrene (HIPS) material

ITEM #	WIDTH	LENGTH
107101	1"	1-3/4"

Power Wire Wing Clip – Long Style

Designed to securely attach corrugated displays on wire power wing/bar (i.e. sidekick).

- Fits up to .250" diameter wire and 1/8" (B-Flute) corrugated
- Additional widths and colors can be made to order
- White PVC material

ITEM #	WIDTH	LENGTH
107100	1"	2"

Display Construction

Heavy Duty Power Wire Wing Clip

Designed to securely attach corrugated displays on wire power wing/bar (i.e. sidekick). Larger clip width adds extra strength.

- Fits up to .250" diameter wire and 1/8" (B-Flute) corrugated
- Additional widths and colors can be made to order
- White polypropylene material
- Packaged 100 per bag

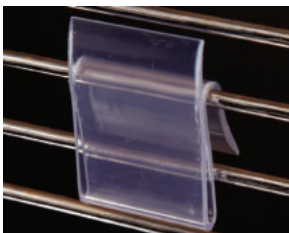

ITEM #	WIDTH	LENGTH
107102	1-1/4"	2-1/4"

Clear Power Wire Wing Clip

Designed to securely attach corrugated displays on wire power wing/bar (i.e. sidekick). Both clips are popular for heavy applications with #107104 offering extra duty strength.

- Fits up to .250" diameter wire and 1/8" (B-Flute) to 1/4" (A-Flute) corrugated
- Additional widths and colors can be made to order
- Clear rigid PVC material

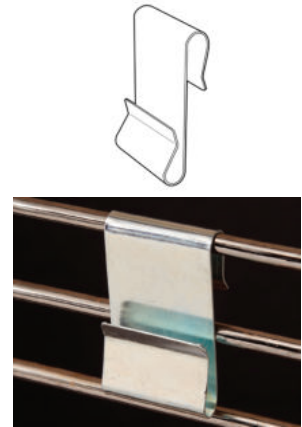

ITEM #	WIDTH	LENGTH
107103	1"	2"
107104	1-1/2"	2"

Metal Power Wire Wing Clip

Our strongest power panel clip – recommended for heavy displays. Designed to securely attach corrugated displays on wire power wing/bar (i.e. sidekick).

- Fits up to .219" diameter wire and 1/4" (A-Flute) corrugated
- Zinc plated steel material
- Packaged 50 per bag

ITEM #	WIDTH	LENGTH
107107	1"	1-3/4"

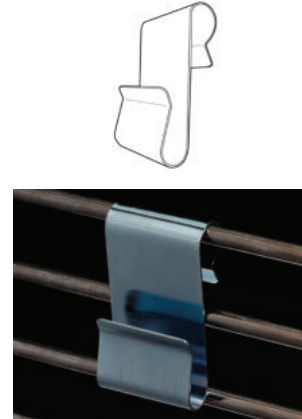

Metal Power Wire Wing Clip – Large Style

Our strongest and largest capacity metal heavy duty power panel clip. Recommended for heavier displays. Designed to securely attach corrugated displays on wire power wing/bar (i.e. sidekick).

- Fits up to .375" diameter wire and 5/16" corrugated
- Zinc plated steel material
- Packaged 50 per bag

ITEM #	WIDTH	LENGTH
107114	1"	1-3/4"

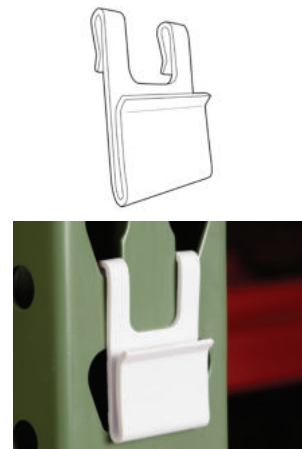

Warehouse Power Wing Clip – Plastic

Designed to securely attach corrugated displays in flush position to most teardrop shaped holes found on standard retail warehouse uprights.

- Attaching legs are 1-1/4" on center
- Fits most standard warehouse uprights
- Holds up to 1/8" (B-Flute) corrugated
- White PVC material

ITEM #	WIDTH	LENGTH
107116	1-1/2"	2-3/8"

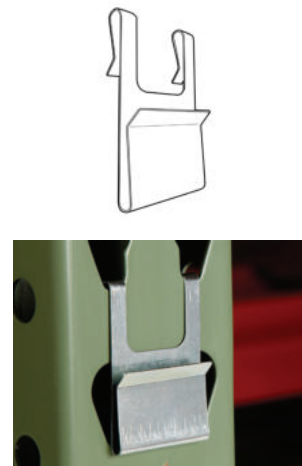

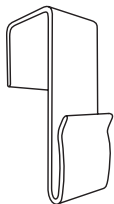

Warehouse Power Wing Clip – Metal

Designed to securely attach corrugated displays in flush position to most teardrop shaped holes found on standard retail warehouse uprights. Metal clips are stronger than plastic and can be used for heavy displays.

- Attaching legs are 1-1/4" on center
- Fits most standard warehouse uprights
- Holds up to 1/8" (B-Flute) corrugated
- Zinc plated steel material
- Packaged 50 per bag

ITEM #	WIDTH	LENGTH
107115	1-1/2"	2-3/8"

Square Edge Power Wing Clip

Designed to securely attach corrugated displays in flush position to square edged fixtures. Great for wood panels or endcaps.

- Fits up to 1" thick fixtures and 1/8" (B-Flute) to 1/4" (A-Flute) corrugated
- Additional colors can be made to order
- White ABS material

ITEM #	WIDTH	LENGTH
109521	1"	2-13/16"

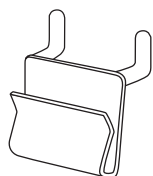

Slatwall Power Wing Clip

Designed to securely attach corrugated displays in flush position to slatwall. Z-bar shape is stronger than our plastic two prong Pegboard/Slatwall Power Wing Clip.

- Upper lip fits most standard slatwall grooves
- 1-1/2" high exposed base once inserted into slatwall
- Holds up to 1/8" (B-Flute) corrugated
- White PVC material

ITEM #	WIDTH	LENGTH
107113	1"	2"

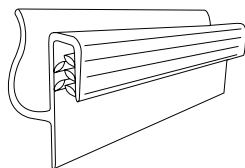

Pegboard/Slatwall Power Wing Clip

Designed to securely attach corrugated displays in flush position to pegboard and slatwall.

- Prongs are 1" on center
- Fits both standard 1/4" diameter pegboard and slatwall
- Holds up to 1/4" (A-Flute) corrugated
- White polypropylene material
- Packaged 100 per bag

ITEM #	WIDTH	LENGTH
107105	1-1/4"	1-1/4"

Gripper Flush Sign Holder For Slatwall

Gripper fins hold signs firmly in horizontal (flush) position. Use two or more holders for larger signs. The base is designed to fit into most standard slatwall. Removable and reusable.

- Fits most standard slatwall grooves
- 3" long x 1" tall
- Custom lengths available
- Gripper fins hold signs up to .080" thick
- Clear PVC material

ITEM #	LENGTH	GRIP CAPACITY	SIGN POSITION
108730	3"	up to .080"	Flush

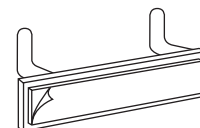

Display Construction

Pegboard/Slatwall Adapter

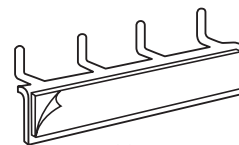

Flush mount connectors that simply hook into pegboard holes or slatwall. Use to attach signs, pockets or literature holders.

- Both fit standard 1/4" diameter pegboard holes or slatwall
- Four prong offers heavy duty holding power
- Mounting base area: two prong has 5/8" height & four prong has 1" height
- Packaged as shown below

Z-Bar Slatwall Adapter

Use to attach signs, pockets or literature holders flush against slatwall. Z-bar shape is wider and stronger than our standard 1" and 2" slatwall adapters.

- 3/4" high adhesive base once inserted into slatwall
- Fits all standard slatwall grooves
- Available in custom lengths and additional colors
- Clear PVC material

ITEM #	OVERALL LENGTH	HEIGHT OF ADHESIVE
108512	2-3/8"	1/2"

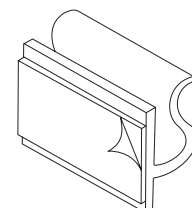

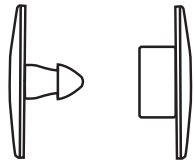

Slatwall Adapter With Adhesive

Use to attach signs, pockets, literature holders and lightweight displays flush against slatwall. Hold displays with attached permanent adhesive strip.

- Fits all standard slatwall grooves
- Additional lengths can be made to order
- .063" thick white styrene material

ITEM #	LENGTH	HEIGHT OF ADHESIVE
108500	1"	1/2"
108504	4"	1/2"

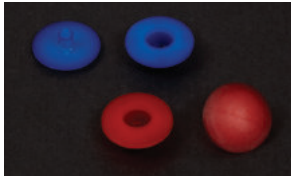

Snap Rivet Fastener

Combination of two mating parts (male & female) that permanently lock to connect flat panels together.

- Complete assembly requires two pieces – sold separately
- Both male and female have .625" O.D. round heads
- Female fits into .320" diameter hole size

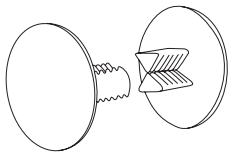

We can dye your Snap Rivets for you.

ITEM #	TYPE	GRIP CAPACITY	COLOR	MATERIAL
120320	Female	(fits all male lengths)	Natural	Nylon 6/6
120320B	Female	(fits all male lengths)	Black	Nylon 6/6
120320C	Female	(fits all male lengths)	Clear	Polycarbonate
120325	Male	.170" to .190"	Natural	Nylon 6/6
120325B	Male	.170" to .190"	Black	Nylon 6/6
120325C	Male	.170" to .190"	Clear	Polycarbonate

120327C	Male	.220" to .240"	Clear	Polycarbonate
120329	Male	.320" to .340"	Natural	Nylon 6/6
120329B	Male	.320" to .340"	Black	Nylon 6/6
120329C	Male	.320" to .340"	Clear	Polycarbonate

Reminder: One complete assembly requires two pieces – one male and one female – sold separately.

Display Construction

Ratchet Rivet Fastener

Simply press two pieces together. Serrated teeth adjust to a variety of locking depths and join panels together in a secure and permanent manner.

- Complete assembly requires two pieces
- Two round head diameters available (large & small)
- Fits into .281" diameter hole size

We can dye your Ratchet Rivets for you.

We can paint the heads for an exact color match.

Viking Clip Fastener – Push On Type

Two piece construction (screw & wing nut combination). Versatile wing nut fastener can be pushed on for fast assembly. This clip is extremely popular for sign & display construction. Removable & reusable.

- Fits .187" hole size
- Round screw head is 17/32" O.D.
- Round wing nut is 5/8" O.D.
- Screw or push on wing nut fastener to attach, and screw off to remove
- Polycarbonate material

ITEM #	GRIP CAPACITY	SCREW LENGTH	COLOR
120401	3/4"	7/8"	Clear

120406	1-3/8"	1-1/2"	Clear
120406B	1-3/8"	1-1/2"	Black

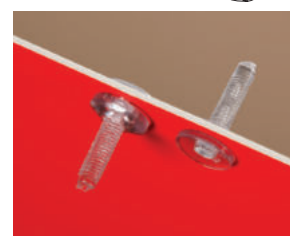

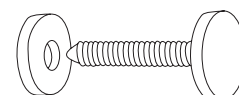

Quick-Grip Washer Fastener

Two piece construction (screw & retaining washer combination). Features fast attaching "slide-on" retaining nut for quick assembly of signs and displays. Provides a secure, non-removable hold.

- Fits .187" hole size
- Round screw head and retaining washer fastener are 9/16" O.D.
- Polycarbonate material

ITEM #	GRIP CAPACITY	SCREW LENGTH	COLOR
120403	1/2"	5/8"	Clear
120404	3/4"	7/8"	Clear

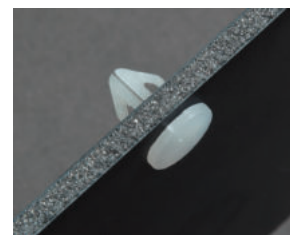

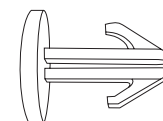

Thumbsnap Fastener

Unique arrow style tip deflects when pushed into a hole then springs back for a secure hold that resists removal.

- .500" O.D. flat head
- Fits .250" hole size
- Polypropylene material

ITEM #	SHANK LENGTH	MAXIMUM GRIP CAPACITY	COLOR
120397	.438"	1/8"	Natural

120398B	.563"	1/4"	Black

Pegboard Paper/Vinyl Fastener

Hollow body design allows the clip to compress when pushed into common 1/4" diameter pegboard holes and resist removal. Easy to install and remove with thumb and fingers – no tools required. Ingenious clip that greatly increases speed and efficiency when attaching backer paper or large vinyl formats to pegboard. Removable and reusable.

- Fits common 1/4" diameter pegboard holes
- .480" head O.D. with .250" ball top O.D.
- Natural polypropylene material

ITEM #	HOLE SIZE	OVERALL LENGTH	GRIP CAPACITY
120433	.250"	.985"	.125" to .187"

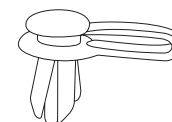

Perf Shelf Plastic Loop Fastener

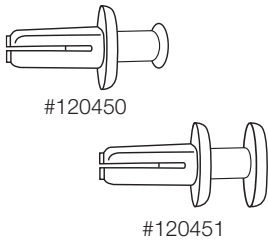

Hang lightweight signs, displays or pouches with this simple, inexpensive plastic fastener. Designed to fit most round, square or diamond shaped perforated shelf holes. The male and female ends bend around to create an approximate 1/2" loop length. Simply press pin in to expand legs firmly into place.

- Total overall length is 1-7/8"
- Fits approximate .219" to .250" hole perforations
- Up to .187" grip capacity
- Strap is 1/8" wide x 1-1/16" long
- Natural polypropylene material
- Black also available – please inquire
- Packed 100 per bag

ITEM #	ENGAGED HEAD HEIGHT	PIN HEAD DIAMETER	COLOR
109520	.156"	.470"	Natural

Display Construction

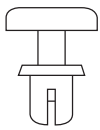

Perf Shelf Universal Fasteners

Both styles fit most round, square or diamond shaped perforated shelf holes, and can easily be removed and reused. Simply press pin in to expand legs that lock firmly in place. The low profile style offers a less noticeable, smaller pin head diameter and built-in side slots for easy removal.

- Pre-assembled two piece design
- Fits .250" hole size
- .001" to .187" grip capacity
- .500" shank length
- .438" O.D. flat heads
- Nylon 6/6 material

ITEM #	STYLE	ENGAGED HEAD HEIGHT	PIN HEAD DIAMETER	COLOR
120450	Low Profile	.093"	.240"	Natural
120450B	Low Profile	.093"	.240"	Black
120451	Standard	.140"	.430"	Natural
120451B	Standard	.140"	.430"	Black

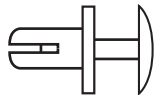

Perf Shelf White Snap Rivet

When combined with most round perforated shelf holes, this rivet yields .060" of grip capacity. Not recommended for square or diamond shaped perforated shelf holes. Simply press down on head to expand legs that lock panels and components firmly in place. No tools required.

- Pre-assembled two piece design
- .490" O.D. round head
- Nylon 6/6 material

ITEM #	HOLE SIZE	GRIP CAPACITY	SHANK LENGTH	COLOR
120452	1/4"	.098" to .157"	.240"	Natural
120452B	1/4"	.098" to .157"	.240"	Black

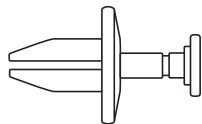

Expand-A-Lock Connector

Push-fit rivet style expansion fastener that requires no tools and fits most 5/32" to 11/64" round holes. Simply press pin down to expand legs that lock panels and components firmly in place.

- Pre-assembled two piece design
- 9/32" O.D. round head
- Nylon 6/6 material

ITEM #	HOLE SIZE	GRIP CAPACITY	SHANK LENGTH	COLOR
120405	5/32"	.100" to .250"	.315"	Natural
120405B	5/32"	.100" to .250"	.315"	Black

Heavy Duty Expand-A-Lock

Simply press pin down to expand two tapered legs that lock panels and components firmly in place. Fits standard 1/4" pegboard holes and 1/4" round shaped perforated shelf holes (not square or diamond). Removable and reusable.

- Pre-assembled two piece design
- 11/16" O.D. round head
- Nylon 6/6 material

ITEM #	HOLE SIZE	GRIP CAPACITY	SHANK LENGTH	COLOR
120399W	1/4"	.060" to .228"	.562"	White
120399B	1/4"	.060" to .228"	.562"	Black

Display Construction

Perf Shelf Channel Fastener

Unique triangular fin design that fits most round, square or diamond shaped perforated shelf holes. Is removable and can be reused.

- .625" O.D. flat head
- #120407 is very popular for shelving applications
- Nylon 6/6 material

ITEM #	HOLE SIZE	GRIP CAPACITY	SHANK LENGTH	COLOR
120407	.250"	.078" to .375"	.500"	White

Diamond Hole Shelf Dart Clip

Fits diamond shaped or square perforated shelf holes. Also fits 7/32" diameter round holes. Provides a secure hold. Is removable with a pinch and can be reused.

- .344" O.D. round head
- Nylon 6/6 material

ITEM #	HOLE SIZE	GRIP CAPACITY	SHANK LENGTH	COLOR
120430	.219"	.001" to .093"	.420"	Natural
120430B	.219"	.001" to .093"	.420"	Black

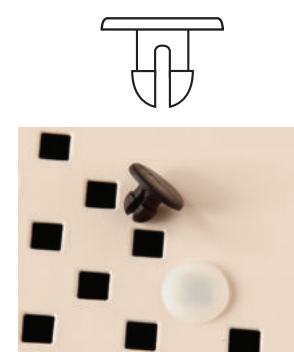

Diamond Hole Shelf Push-In Clip

Features a larger head than our common shelf dart clips. Fits diamond shaped or square perforated shelf holes. Also fits 7/32" diameter round holes. Provides a secure hold. Is removable with a pinch and can be reused.

- .469" O.D. round head
- Nylon 6/6 material

ITEM #	HOLE SIZE	GRIP CAPACITY	SHANK LENGTH	COLOR
120858	.219"	.001" to .121"	.274"	Natural
120858B	.219"	.001" to .121"	.274"	Black

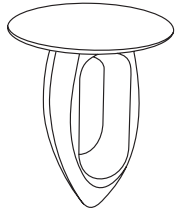

Dart Clip – Small

Hollow body design allows the clip to compress when pushed into hole, then expand back for a secure hold that resists removal. Removable and reusable.

- .406" O.D. round head
- For use in drilled, punched or molded holes
- Ideal where fast and/or blind installation is required
- Nylon 6/6 material

ITEM #	HOLE SIZE	GRIP CAPACITY	SHANK LENGTH	COLOR
120431	.187"	.125" to .187"	.563"	Natural
120431B	.187"	.125" to .187"	.563"	Black

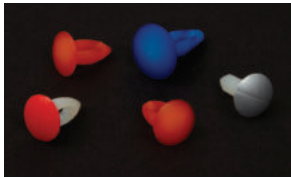

Dart (Arrow) Clip Fastener

Hollow body design allows the clip to compress when pushed into hole, then expand back for a secure hold that resists removal. Low cost way to assemble thin gauge materials. Simply snap in. No tools required. Removable and reusable.

- A variety of hole sizes, lengths & head diameters available
- Round heads
- For use in drilled, punched or molded holes
- Ideal where fast and/or blind installation is required
- #120418 is very popular for display construction & 1/4" hole dia. pegboard use

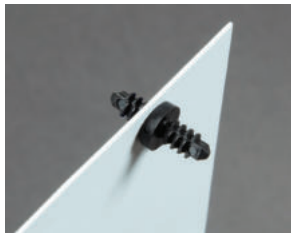

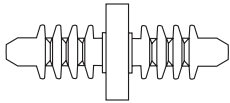

We can dye your clips for you, or paint the heads for an exact color match.

Display Construction

X-Mas Tree Clip Fasteners

Flexible ribs deflect when pushed into hole then spring back for a secure lock that resists removal. Universal use in a wide variety of materials such as metal, wood, foam, rubber and plastic, in both solid and compressed forms. For use in a wide range of panel thicknesses and hole diameters.

- Wide variety of sizes & styles available
- For use in drilled, punched or molded holes, both threaded and non-threaded
- Ideal where fast and/or blind installation is required
- #120200, #120205 & #120212 are very popular for shelving and display construction
- Parts are separated on the following pages by the type of fins they have

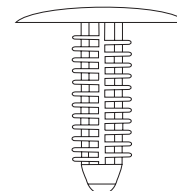

X-Mas Tree Clip Fastener – Fin Type “P” – Reusable

- Solid shaft and self-centering design assures insertion and removal without damage to the retaining fins
- Removable and reusable – special shaft and fins retain their holding power and can be used again & again

Display Construction

Head styles are illustrated on our website: kinter.com

Complete list of all X-Mas Tree Clip Fasteners together can be found on our website: kinter.com

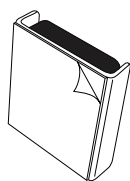

Magnetic Adapter

Rectangular metal casing containing an integrated ceramic magnetic base(s). Compact, versatile magnet assures full contact and maximum holding power. Use in a variety of applications; for instance, attaching lightweight signs and display products to metal surfaces such as shelving. Also ideal for latches and receptacles. Mount with adhesive (shown below) or a common 1/8" pop rivet. Removable and reusable. **Warning:** Holding capacity is the approximate maximum pull rating under ideal conditions. Always test suitability on a per-application basis. For best results, use on an indoor, bare (unfinished) metal surface that is smooth and clean. Metal conditions will affect holding power. Magnets should not be used near electronic equipment.

- 7/8" wide x 1/4" overall height, with 1/8" diameter center hole
- 3" long magnet has a hollow underside center area
- Available with optional non-scratch inserts (see below)
- Nickel plated steel housing

ITEM #	OVERALL LENGTH	HORIZONTAL CAPACITY
107033	1"	12 lbs.
107037	3"	16 lbs.

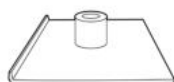

Magnetic Adapter With Adhesive

Our highly popular ceramic magnetic adapters with 3M brand high bond adhesive tape applied directly to the rectangular metal casing. Compact, versatile magnet assures full contact and maximum holding power. Great for numerous P.O.P. applications. Simply peel off the 3M factory liner and stick to any clean, smooth surface. Best suited for indoor use. **Warning:** Magnets should not be used near electronic equipment.

- Available with optional non-scratch inserts (see below)
- 7/8" wide x 1/4" overall height
- 3" long magnet has a hollow underside center area
- Tape is high tack acrylic based adhesive that reaches maximum strength within 24 hours
- Nickel plated steel housing with .025" thick tape

ITEM #	OVERALL LENGTH	TAPE COLOR
107080	1"	Gray
107083	3"	Gray

Non-Scratch Magnetic Insert

Ingenious flexible insert that helps reduce the possibility of magnet scratching and abrasion on finished or painted surfaces. Specifically designed to friction fit most undersides of our rectangular magnets or magnetic based gripper sign holders (sold separately). Single-sided raised edge allows for rapid assembly and assures that the adapter will remain in alignment with the magnet. Also makes separating stacked magnets a breeze. **Warning:** When inserted properly into a magnet, this spacer/insert will reduce the original stated holding capacity of the magnet. Always test holding power suitability on a per-application basis.

- Friction fit – no glue or adhesive required
- Factory installed inserts are available with most of our rectangular magnets – please inquire
- When used with 1" magnets, inserts will block the use of the center hole
- Not for use with our line of ladderless magnetic banner hangers or ceiling clips
- Not recommended for use on non-Kinter-supplied magnets
- .020" thick natural low density polyethylene material

ITEM #	LENGTH	WIDTH
107040	1"	13/16"

Heavy Duty Magnetic Adapter

Rectangular metal casing having a full three ceramic magnetic base making this part stronger than our common 3" long magnet #107037. Use this heavy duty magnet when more holding power is required. Perfect for larger upright signs or heavier displays. Two integrated mounting holes also offers additional strength benefits when attaching with screws or common 1/8" pop rivets – not included. Removable and reusable. **Warning:** Holding capacity is the approximate maximum pull rating under ideal conditions. Always test suitability on per-application basis. For best results, use on an indoor, bare (unfinished) metal surface that is smooth and clean. Metal conditions will affect holding power. Magnets should not be used near electronic equipment.

- Available with optional non-scratch inserts (see page 216)
- 1/4" overall height x 7/8" wide x 3" long
- Each end has a 1/8" diameter round hole
- Also available with adhesive – please inquire
- Nickel plated steel housing

ITEM #	OVERALL LENGTH	HORIZONTAL CAPACITY
107050	3"	22 lbs.

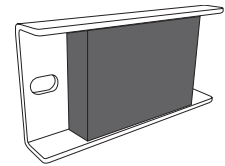

Extra Heavy Duty Magnetic Adapter

By far our strongest magnet for maximum holding power. Extra heavy duty rectangular metal casing containing an integrated ceramic magnetic block base. Use to display large format upright signs or heavy display products from metal surfaces such as gondola tops or pallet rack uprights. Mount with screws or common 3/16" pop rivets (not included). Removable and reusable. **Warning:** Holding capacity is the approximate maximum pull rating under ideal conditions. Always test suitability on per-application basis. For best results, use on an indoor, bare (unfinished) metal surface that is smooth and clean. Metal conditions will affect holding power. Magnets should not be used near electronic equipment.

- 1/2" overall height x 1-1/2" wide x 3" long
- Each end has a slotted shaped hole measuring .202" wide x .355" long
- Zinc plated steel housing

ITEM #	OVERALL LENGTH	HORIZONTAL CAPACITY
107049	3"	60 lbs.

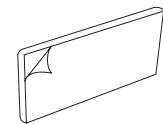

Rectangular Neo Magnet With Adhesive

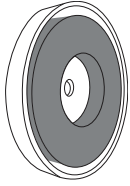

Low profile, popular neodymium magnet with clear adhesive transfer tape applied to one side. Compact, versatile magnet that assures full contact and maximum holding power. Small consistent radius edges equate to a smooth, burr-free product. Great for numerous P.O.P. applications. Simply peel off the 3M factory liner and stick to any clean, smooth surface. Best suited for indoor use.

Warning: Magnets should not be used near electronic equipment.

- Otherwise known as "Rare Earth Magnets"
- Super powerful and compact
- 1/16" thickness x 1/2" wide x 1" long
- Meets neodymium industry standard #3512 properties with adhesive on south pole side

ITEM #	OVERALL LENGTH	THICKNESS	FINISH
107059	1"	1/16"	Nickel

Round Magnetic Adapter

Round magnetic casing containing an integrated ceramic magnetic base. Compact, versatile magnet assures full contact and maximum holding power. Use in a variety of applications: for instance, attaching signs and display products to metal surfaces such as shelving. Mount with adhesive or a common 3/16" pop rivet. Two sizes to choose from with both being removable and reusable.

Warning: Holding capacity is the approximate maximum pull rating under ideal conditions. Always test suitability on a per-application basis. For best results, use on an indoor, bare (unfinished) metal surface that is smooth and clean. Metal conditions will affect holding power. Magnets should not be used near electronic equipment.

- Both sizes have a 3/16" diameter center hole
- Round magnet base with nickel plated round steel housing

ITEM #	BASE O.D.	OVERALL HEIGHT	HORIZONTAL CAPACITY
107055	1-13/32"	1/4"	15 lbs.
107047	2"	5/16"	35 lbs.

Round Neo Disk Magnet

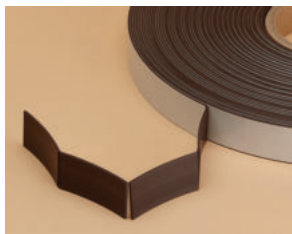

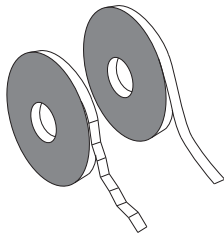

Extremely strong magnets for their small, compact size. Neodymium disk magnets are solid and do not have a center hole so mounting requires glue, adhesive and/or counter boring. Small consistent radius edges equate to a smooth, burr-free product. Great for use as display door latches offering a secure closure and extra holding power. Best suited for indoor use. **Warning:** Magnets should not be used near electronic equipment. Due to their small size, please keep away from children/pets.

- Otherwise known as "Rare Earth Magnets"
- Meets neodymium industry standard #4212 and #4512 properties
- Super powerful and compact

ITEM #	OUTSIDE DIAMETER	THICKNESS	FINISH
107051	7/16"	3/16"	Nickel
107227	1"	1/16"	Nickel

Flexible Magnets

Convenient 100 ft. long rolls of our most popular flexible magnets. Offered two ways: in pre-cut (scored) pieces or on a continuous length roll that can easily be cut with scissors to any length. Great for mounting lightweight signs and display products to steel shelves or warehouse racks. Adheres to any clean, flat surface – simply peel and stick. Also known as Rubber Magnets or Magnetic Tape.

Warning: Magnets should not be used near electronic equipment.

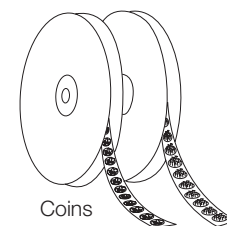

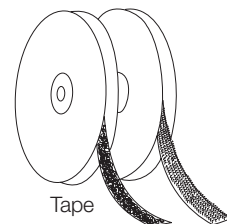

- Custom lengths, widths and thicknesses also available – please inquire
- 1/16" thick flexible black magnet with clear acrylic adhesive backing for indoor or outdoor use
- Sold in full 100 ft. long rolls only

ITEM #	MAGNET SIZE	ROLL QUANTITY
107041	1/2" W x 1" L	1,200 pieces
107042	1" W x 2" L	600 pieces
107043	1" W x 100 Continuous Feet	100 feet

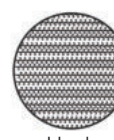

Hook & Loop Fasteners

Highly popular for numerous P.O.P. applications and signs with changing messages. Hook and loop fasteners provide holding power with flexibility and fast set up time for immediate use. Simply peel tape or coins from paper/clear liner and stick to any clean, smooth, dry surface. Best suited for indoor use.

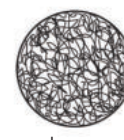

- Hook and loop sold separately
- Coins are also known as Buttons, Tabs or Dots
- Tape and coins made from durable woven nylon material
- Both tape and coins have high tack, rubber based adhesive backing
- Temperature use range: 0°F to 170°F
- Additional sizes and custom cuts can be made to order
- Packaged in continuous 25 yard long rolls
- Special packaging available, including mated sets or kiss-cut pieces

Kinter can cut and mate your Hook & Loop in-house. Ask a KinterCare representative to tell you more.

Double-Sided Pre-Cut Foam Tape

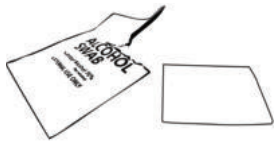

Our most popular and convenient to use pre-cut sizes of double-sided white foam tape. Parts are supplied kiss cut (scored) on a roll for quick and easy application - simply peel and stick. Options are two-sided permanent or two-sided removable adhesive. Permanent style is high tack and bonds to low surface energy plastics, powder-coated materials and some UV coatings. Removable style is perfect for temporary displays or sign use on non-delaminating surfaces. Great for use on metal, cardboard, paper, plastic and PVC foam board surfaces.

- Can be cut smaller with scissors
- Permanent or removable adhesive on two opposing sides
- Permanent liner printed ink color is blue
- Removable liner printed ink color is green
- Additional lengths, widths, thicknesses and black also available – please inquire
- White foam material
- #150680 and #150682 are sheet perforated every 18 pieces
- Sold in full rolls only

ITEM #	WIDTH	LENGTH	THICKNESS	STYLE	ROLL QUANTITY

Display Construction

Alcohol Swab

Include in hardware kits wherever adhesives or films are encountered. A soft isopropyl alcohol swab self-contained within a convenient tear packet. Use to properly clean and prepare surfaces before applying adhesive backed items (such as sign supports, data strips, flexible magnets or hook & loop products) for maximum holding strength. Can also be used to help remove stubborn adhesive residue or films from warehouse racking or store fixtures. **Warning:** Make certain that the surface is completely dry before applying adhesive backed products. Vapors can be strong, and direct contact with eyes may cause irritation.

- Single-use general cleaner for most surfaces
- 70% isopropyl alcohol preps by volume
- .062" thick white rectangular swab containing isopropyl alcohol
- Packaged 100 individually wrapped swabs per box

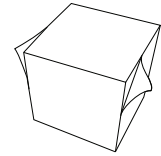

ITEM #	SWAB DIMENSIONS	PACKET DIMENSIONS
105010	1-1/4" H x 1" W	2-1/4" H x 1-3/4" W

Foam Block Stand-Off

Foam block stand-offs add dimension to displays and signage. Used to create a 3-D effect that makes your graphics stand out. Place foam blocks 1"-2" from the edge of your graphic to create multi-layered displays for added depth. Can also be used to create gondola shelf wobblers or aisle violators.

- 1" H x 1" W x 1" L square blocks
- Permanent adhesive on two opposing sides – simply peel and stick
- Can be stuck together to create longer stand-offs
- White foam material
- 36 kiss-cut blocks per sheet
- Sold in full sheets only

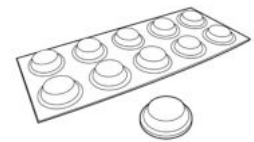

ITEM #	LENGTH	WIDTH	HEIGHT	COLOR
150675	1"	1"	1"	White

Bumper Buttons

Non-marring adhesive backed bumper buttons. Great for attaching to cabinets, doors or to the bottom of displays and literature holders. Abrasion and skid resistant. Shock and vibration dampening. Easy peel & stick application to any clean, flat surface. Offered in both clear and black.

- Tops are flat, cylindrical style
- Adhesive is clear rubber based for either indoor or outdoor use
- Other shapes, sizes and colors also available – please inquire
- Polyurethane material
- 200 pieces per sheet/pad
- Sold in full sheets only

Display Construction

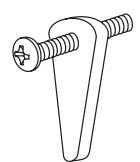

Upright Flip Inserts

Securely attach signs, displays and fixtures onto common upright slots found in gondolas and warehouse pallet racking. Simply put the screw through the fixture, then into the threaded insert nut, then engage upright and tighten.

- Threaded nut inserts are .100" thick
- Screws have Slotted/Phillips combination drive undersized pan heads
- Both inserts and screws are zinc plated steel
- Parts come unassembled
- Packaged 100 nut inserts and 100 screws per bag

Toggler® Anchor

All purpose, secure fitting, hollow wall fastener offering great versatility and extra holding power. Great for use in display construction, hollow walls, paneling and drywall. Simply fold down the 1-1/2" to 1-7/8" spread anchor wings, insert into hole and use key (sold separately) to expand the toggler wings. Can be used in combination with a #8 to #12 diameter self-tapping screw (also sold separately). If used with a screw, the screw may be removed and the anchor will remain in place for re-use.

- 9/16" diameter round head
- For use in a 5/16" diameter hole, with material up to 1/2" thick
- Anchors and setting pin are sold separately
- Natural polypropylene material

ITEM #	SIZE	DESCRIPTION
140215	1/8" to 1/4" capacity	Anchor
140214	3/8" to 1/2" capacity	Anchor
140216	1-1/8" long	Red Setting Pin (Key)

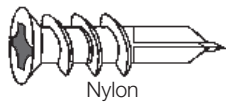

Wall Anchor – Light Duty Conical

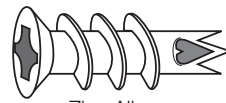

Our most economical anchor. For use in drywall, concrete, wood or brick. Anchor has horizontal fins that expand as screw is driven in. Excellent for use with lightweight menu boards, literature holders and signs. To install, insert anchor in drilled hole, insert screw through fixture into anchor and tighten.

- Use in combination with a self tapping or wood screw (sold separately)
- Polypropylene material

ITEM #	FITS SCREW SIZE	LENGTH	HOLE DRILL SIZE	COLOR

140211	#10 to #12	1"	1/4"	Red

Nylon

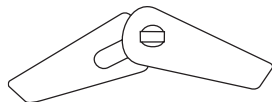

Zinc Alloy

Wall Anchor – Medium Duty Zip-It®

No pre-drilling of hole required. Self drilling point cuts right into 3/8" to 5/8" thick drywall. Simply screw anchor into drywall, then insert screw through fixture into anchor and tighten. Deep coarse threads create strong engagement and hold. Replaces plastic conical anchors where more strength is required.

- Flush, low profile Phillips countersinking head
- Use in combination with a self tapping screw or screw eye (sold separately)
- Minimum required screw length engagement for all sizes is 3/4"

ITEM #	FITS SCREW SIZE	LENGTH	MATERIAL
140200	#6 x 1"	1-5/16"	Nylon
140202	#6 x 1"	1-1/16"	Zinc Alloy
140201	#8 x 1"	1-11/16"	Nylon
140203	#8 x 1"	1-5/16"	Zinc Alloy

Wall Anchor – Heavy Duty Toggle Wing

Great for use in drywall, paneling, block and hollow base display construction where extra holding power is required. Spring wing type hollow wall anchor is made of two wings connected by a threaded nut and a coil spring. Wings open automatically behind the wall to prevent pull-through. To install, put the screw through the fixture, thread toggle wing onto screw, fold wings back and insert anchor through pre-drilled hole until wings spring open, then tighten screw.

- Use in combination with a machine screw or eye bolt (sold separately)
- Zinc plated steel material

ITEM #	FITS SCREW SIZE	LENGTH	HOLE DRILL SIZE *
140220	6-32 (1/8")	1-1/2"	3/8"
140222	10-24 (3/16")	2-1/8"	1/2"
140223	1/4-20 (1/4")	2-1/8"	5/8"

* In hard/solid materials, you may need to drill the hole 1/16" larger than what is listed above.

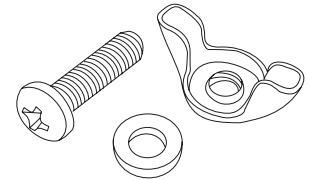

Don't forget: we also carry screws!

Screws sold separately

Wing Nut & Bolt Kit

One complete set of all hardware needed to hold heavier displays securely. Also great for attaching sign fixtures to common shelf tops or undersides through the round, square or diamond shaped perforated shelf holes. Use two or more kits for larger displays. Parts are removable and reusable.

- Bolt is a 10-32 x 3/4" long Phillips pan head machine screw – steel, zinc plated
- Wing nut is a stamped style 10-32 – steel, zinc plated
- Flat washer is .375" O.D. x .194" I.D. x .062" thick natural nylon
- Each sealed, clear polybagged kit contains one bolt, one wing nut and one washer
- Other hardware sizes or packaging quantities per bag available – please inquire

ITEM #	CONTENTS
105015	One Screw, One Wing Nut and One Washer

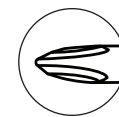

Economy Screwdrivers

Our most economical screwdrivers. Include these in hardware kits. Large, comfortable plastic handles offer a secure grip and solid turning power.

- #2 Phillips drive fits most screws 5-40 through 10-24 diameter
- #3 Phillips drive fits most screws 12-24 through 1/4-20 diameter
- 1/4" Slotted is the width of the tip of the blade
- Handles are 1" O.D. black polypropylene material
- Round blades are 15/64" dia. heat treated steel
- Items below have Phillips or Slotted drive blades – also available with Torx or Square drive blades

ITEM #	BLADE DRIVE	OVERALL LENGTH	HANDLE LENGTH	BLADE LENGTH

Single End Economy Wrenches

Our most economical hex wrench. Designed for light duty, single-use (a.k.a. disposable style). Include these in hardware kits where light duty assembly is required.

- For use on common hex bolts and nuts
- 1" wide x 3" long
- 16 gauge cold rolled flat steel – zinc plated

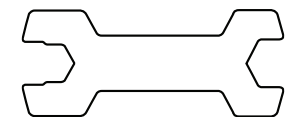

ITEM #	SIZE *
105060	1/4" Hex Width Across Flats
105061	5/16" Hex Width Across Flats
105062	3/8" Hex Width Across Flats
105063	7/16" Hex Width Across Flats
105064	1/2" Hex Width Across Flats

* **Please note:** Wrench sizes are based upon hex width across flats of nuts and bolts – not diameter

Combination Economy Wrench

An economical, double ended multi-size range hex wrench. Designed for light duty, single-use (a.k.a. disposable style). Include these in hardware kits where light duty assembly is required.

- For use on common hex bolts and nuts, sizes 1/4" through 3/8" diameter
- 1-1/4" wide x 3-3/8" long
- 16 gauge cold rolled flat steel – zinc plated

ITEM #	SIZE *
105065	7/16", 1/2" & 9/16" Hex Width Across Flats

* **Please note:** Wrench sizes are based upon hex width across flats of nuts and bolts – not diameter

Fastener & Label Remover Tool

Multi-purpose tool that is ideal for removing even the most stubborn push-in fasteners from shelving and pegboard holes. Turn the tool around and use the scraper end to speed up insertion or removal of labels from info strips or shelf channels. Unlike our competitors' less expensive plastic removal tools, our tool is made of steel and thus is far less likely to break under even extreme prying conditions.

- Smooth handle shape that forms to the hand for comfortable use
- Durable plastic handle is 3/4" wide x 5/8" thick
- Flat metal angled blade is 1/2" wide x 3/32" thick
- Integrated .234" diameter hole centered within the handle
- Black polypropylene handle with nickel plated steel blade

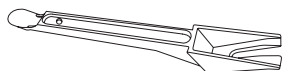

ITEM #	OVERALL LENGTH	HANDLE LENGTH	BLADE LENGTH
105090	7"	4-3/4"	2-1/4"

Easy-Off Fastener & Label Remover Tool – Plastic

Strong, multi-purpose tool designed for removing fasteners from shelves and pegboard holes. Turn the tool around and use the scraper end to speed up insertion or removal of labels from info strips or shelf channels. Less likely to break than economy style plastic tools yet a less expensive alternative to our steel version tool. Extra-long handle design provides additional leverage for stubborn push-in fasteners.

- Two useful tools in one
- Durable handle is 5/8" wide x 7/16" thick
- Shovel style end with integrated prying fork
- Handy .297" diameter hole centered within the handle
- Durable acetal plastic

ITEM #	OVERALL LENGTH	COLOR
105092	8-1/2"	Orange

Economy Fastener & Label Remover Tool

An inexpensive, economical style multi-purpose tool designed for removing fasteners from shelves and pegboard holes. Turn the tool around and use the scraper end to speed up insertion or removal of labels from info strips or shelf channels. Contoured ergonomic shaped universal tool.

- Smooth handle design that forms to the hand for comfortable use
- .828" x .640" thick with prying style fork end
- Integrated .297" diameter hole centered within the handle
- Polypropylene material
- Packaged 50 per box

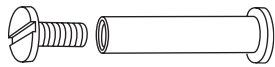

ITEM #	OVERALL LENGTH	COLOR
105091	5-1/4"	Black

Display Construction

Rings & Binder Posts

We can paint the heads of your posts & screws for an exact color match.

Anodized colors also available.

Aluminum Binder Post & Screws 8-32

Each binder post assembly consists of one post and one screw. Low profile, matching head on both the post and the screw allow for a nice clean look. Aluminum material is much stronger and more durable than nylon post and screw imitations. Binding capacity is determined by length of post used. Use one of three aluminum screws for standard, removable applications. Use #100043 for rapid assemblies in lightweight applications. Use #100049 for permanent applications.

- Post and screw sold separately
- Aluminum female posts are .200" dia. x .415" head O.D. – unslotted
- Aluminum male screws are 8-32 thread dia. x .415" head O.D. – slotted
- For use in 7/32" holes

** Optional closed end short length posts

Aluminum Binder Post Extensions 8-32

When used in conjunction with Aluminum Binder Posts, extensions add length in order to increase binding capacity as needed.

- .200" post diameter
- 8-32 thread diameter on both male and female ends
- #100030 accepts #100050 removable binder screw; all other extensions accept #100052
- For use in 7/32" holes
- Aluminum material

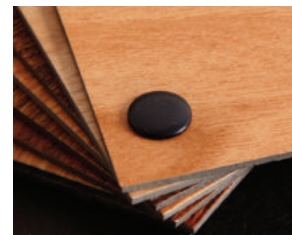

ITEM #	EXTENSION LENGTH
100030	1/4"
100031	1/2"
100032	3/4"
100033	1"

Black Aluminum Binder Post & Screws 8-32

Durable black anodized finish on our most popular sizes of aluminum binder posts and matching screws. It should be noted that during the anodizing process a very small, randomly located contact point(s) will reveal a bare aluminum spot. Each black anodized post assembly consists of one post and one screw. Low profile, matching head on both the post and the screw allow for a nice clean look. Binding capacity is determined by length of post used.

- Post and screw sold separately
- Female posts are .203" dia. x .415" head O.D. – unslotted
- Male screws are 8-32 thread dia. x .415" head O.D. – slotted
- Additional lengths available in black upon request
- For use in 7/32" holes
- Aluminum material, anodized black

* #100049 PermaLock Screw works with aluminum and steel posts only – not brass

Stainless Steel Binder Post & Screws 8-32

Each binder post assembly consists of one post and one screw. Low profile, matching head on both the post and the screw allow for a clean, corrosion-resistant look. Binding capacity is determined by length of post used. Use in conjunction with one of two stainless steel screws offered below.

- Post and screw sold separately
- Stainless steel female posts are .203" dia. x .415" head O.D. – unslotted
- Stainless steel male screws are 8-32 thread dia. x .415" head O.D. – slotted
- For use in 7/32" holes
- 18-8 (SS302-SS304) stainless steel material

Steel Barrel Bolts & Screws 10-24

Low profile, matching head on both the bolt and screw allow for a nice clean look. Zinc plated steel is much stronger than common aluminum binder posts. Each barrel bolt assembly consists of one bolt and one screw. Binding capacity is determined by length of barrel bolt used. Otherwise known as Sex Bolts or Chicago Screws.

- Barrel bolt and screw sold separately
- Female bolts are .250" dia. x .438" head O.D. – Slotted/Phillips combination
- Male screws are 10-24 thread dia. x .438" head O.D. – Slotted/Phillips combination
- For use in 17/64" holes
- Additional lengths available upon request
- Zinc plated steel material

ITEM #	DESCRIPTION	LENGTH	HEAD TYPE
100242	Removable Screw	5/16"	Combo Drive
100254	Barrel Bolt	1/4"	Open End, Slotted Drive

We can paint the heads of your barrel bolts & screws to match an exact color.

Steel Barrel Bolt Extension 10-24

When used in conjunction with Steel Barrel Bolts, extensions add length in order to increase binding capacity as needed.

- .250" barrel diameter
- 10-24 thread diameter on both male and female ends
- For use in 17/64" holes
- Zinc plated steel material

ITEM #	EXTENSION LENGTH
100231	1/2"

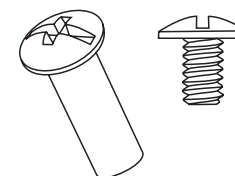

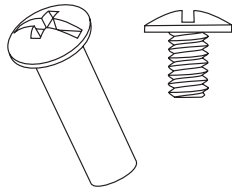

Stainless Steel Barrel Bolts & Screws 10-24

Low profile, matching head on both the bolt and screw allow for a nice clean look. Stainless steel material will not corrode or rust, unlike common steel zinc-plated barrel bolts and screws. Each barrel bolt assembly consists of one bolt and one screw. Binding capacity is determined by length of barrel bolt used. Otherwise known as Sex Bolts or Chicago Screws.

- Barrel bolt and screw sold separately
- Female bolts are .250" dia. x .438" head O.D. – Slotted/Phillips combination
- Male screws are 10-24 thread dia. x .438" head O.D. – Slotted/Phillips combination
- For use in 17/64" holes
- Additional lengths or barrel bolt extensions available upon request
- 18-8 (SS302-SS304) stainless steel material

Rings & Binder Posts

Rapid Assembly Plastic Binder Post & Screws 10-24

Large, low profile matching heads on both the post & screw allow for a nice, clean look. Screw can be pushed in for fast assembly. For best results, insert screw length completely. Removable and reusable. Each assembly consists of one post and one screw. Binding capacity is determined by length of post used. Otherwise known as Quick-Connect or Adjust-A-Locks.

- Post and screw sold separately
- Female posts are .240" barrel dia. x .562" head O.D.
- Male screws are 10-24 thread dia. x .562" head O.D.
- For use in 1/4" holes
- Plastic material
- Also available in clear

Pear Clips

Strong construction. Clips totally shut for secure closure. Also known as Shower Curtain Rings or Golf Towel Clips.

- 2-1/2" length
- 1-3/8" diameter inside loop

ITEM #	MATERIAL	WIRE DIAMETER
101001	Zinc Plated Steel	.080"
101008	Brass Plated Steel	.080"
101009	Stainless Steel	.090"

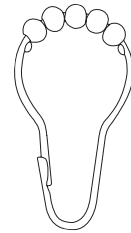

Roller Style Pear Clip

Pear shaped roller ball shower curtain ring. Curved top design rolls virtually friction-free across metal or wood rods. Great for display booths or partition fixtures requiring a drape or curtain. Reduces the possibility of curtains ripping. Clips totally shut for a secure closure.

- For use on up to 1-3/16" diameter rods or dowels
- 1-3/8" inside loop diameter
- Five 5/16" diameter free spinning roller balls centered along the top
- Solid brass with nickel plate
- Packaged 100 per bag

ITEM #	OVERALL LENGTH	WIRE DIAMETER
101010	2-3/4"	.085"

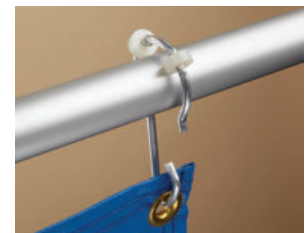

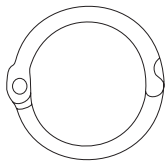

Aluminum Roller Hook

Open style, pear-shaped curtain roller hook. Curved shape top design with integrated nylon wheels that rolls virtually friction-free across metal or wooden rods. Great for display booths or partition fixtures requiring a drape or curtain. Reduces the possibility of curtains ripping. Open hook design that will not rust or corrode.

- For use on up to 7/8" diameter rods or dowels
- Two 1/2" outside diameter natural nylon roller wheels
- 9/32" bottom hook opening
- Aluminum material

ITEM #	OVERALL LENGTH	WIRE DIAMETER
101011	3-3/8"	.148"

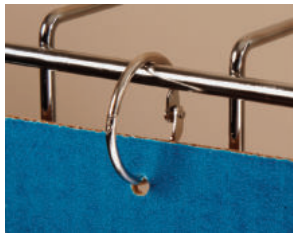

Hinged Snap Rings

Hinged design snaps easily and locks securely. Multipurpose rings. Also known as Loose Leaf Rings, Book Rings or Hinged Key Rings. **Warning:** Small sizes may be difficult to open.

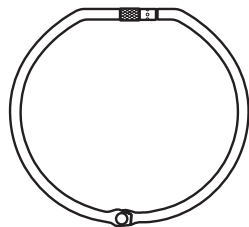

- Standard nickel plated steel or special brass plated steel
- Packaged as shown below

ITEM #	I.D.	WIRE DIAMETER	FINISH	PACKAGED
101015	1/2"	.079"	Nickel	200 per bag
101002	3/4"	.091"	Nickel	200 per bag
101017	3/4"	.091"	Brass	200 per bag
101003	1"	.109"	Nickel	200 per bag
101018	1"	.109"	Brass	200 per bag

101019	1-1/2"	.118"	Brass	100 per bag
101005	2"	.118"	Nickel	50 per bag
101006	2-1/2"	.130"	Nickel	50 per bag
101007	3"	.170"	Nickel	10 per bag

We can paint your rings to match an exact color.

Screw Lock Rings

Strong, multipurpose oversized rings are well suited for bulky loose leaf material, swatches or samples. Hinged design and threaded locking device hold securely.

- Nickel plated steel

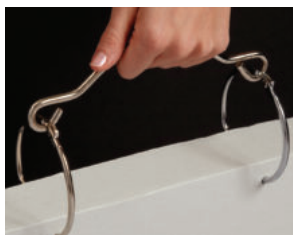

ITEM #	I.D.	WIRE DIAMETER
101052	2"	.156"
101053	3"	.203"
101054	4"	.203"
101055	5"	.203"
101056	6"	.203"
101057	7"	.218"
101058	8"	.218"
101060	10"	.218"

Ring Handles

Use in conjunction with metal Hinged Snap Rings or Screw Lock Rings to hold bulky loose leaf material, samples or swatches. 1/4" diameter wire is very strong. Three popular lengths to choose from.

- Length of handle is measured from inside of loop to inside of loop
- .250" diameter nickel plated steel

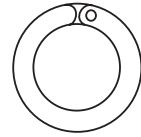

ITEM #	LENGTH
101037	7"
101039	9"
101040	10"

Plastic Snap Ring

Economical multi-use connector link. Easy to use one piece snap closure design. Simply press closed for hanging of signs from wire fixtures or to make lightweight sample swatches.

- 5/8" open I.D.
- 9/16" I.D. x 7/8" O.D. ring when closed

ITEM #	COLOR	MATERIAL
101025	White	Polyethylene
101025B	Black	Polyethylene
101025C	Clear	Polycarbonate

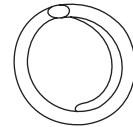

Plastic Spiral Ring

Coiled style economical multi-use connector link. Overlap spiral design is easy to use and offers memory closure. Great for hanging signs from wire fixtures or to create lightweight sample swatches and flip charts.

- 11/16" I.D. x 13/16" O.D.
- .094" diameter rigid PVC material
- Packaged 250 per bag

ITEM #	COLOR
101026	White
101026C	Clear

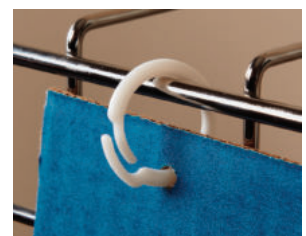

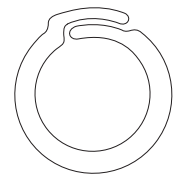

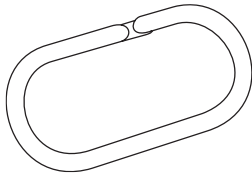

Plastic Overlap Ring

Round overlap style split ring design is easy to use and offers memory closure. A quick way to hang signs from wire fixtures or to create lightweight sample swatches and flip charts.

- 3/4" I.D. x 1" O.D.
- Packaged 250 per bag

ITEM #	COLOR	MATERIAL
101027	White	High Impact Plastic
101027C	Clear	Polycarbonate

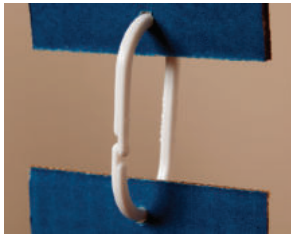

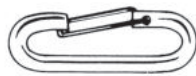

Plastic Oval Snap Ring

Economical, multi-use connector link with easy to use, one piece snap closure design. Simply press closed for hanging of signs evenly and straight one below the other, or to attach advertisements to wire fixtures. Snaps closed to create an oval shaped ring.

- 15/16" wide x 2" long inside dimension x .156" diameter
- Packaged 100 per bag

ITEM #	COLOR	MATERIAL
101028	White	Polyethylene
101028C	Clear	ABS

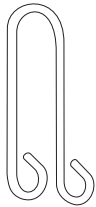

Bit Snap Link

Oval shaped, spring snap closed design connector that offers multiple uses. Securely link or hang most anything light duty. **Warning:** Not designed for lifting.

- .192" wire diameter
- 7/32" snap opening
- Zinc plated steel

ITEM #	LENGTH
101075	1-3/4"

"U" Hook

In conjunction with Binder Post & Screws (up to 3/4" long – see page 226-230), "U" Hooks are popular for use on foam board and other thick sign material. Also used to attach two sign panels back to back, or for holding sample swatches. Binder Post & Screws are sold separately.

- 2" overall length x 3/4" wide
- 1/4" I.D. looped ends
- .093" wire diameter, bright galvanized steel
- Packaged 100 per bag

ITEM #	LENGTH	MAX. MATERIAL THICKNESS
106002	2"	3/4"

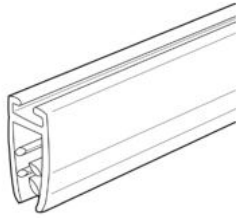

Rings & Binder Posts

With one of the largest inventories of binder posts and barrel bolts in the US, as well as many popular ring choices, we are your choice for low-cost bindery hardware.

Ceiling Systems & Accessories

Gripper Atlas Banner Hanger

A simple and economical way to hang signs and banners. Gripper fins hold heavier or longer length signs securely. Can also be used on the bottom edge of banners or posters to stabilize or keep straight. Removable and reusable.

- "U" shaped design with two grip sizes available
- Overall height is 9/16" for smaller capacity and 3/4" for larger capacity
- Top accepts either our #110503 or #110506 series hanger clips (sold separately)
- Gripper fins on bottom hold sign materials firm
- PVC material
- Also available in black

ITEM #	GRIP CAPACITY	OVERALL LENGTH	COLOR
110800	.015" to .080"	22"	Clear
110801	.015" to .080"	24"	Clear

Banner Hanger Clip

For use in conjunction with both our Gripper Atlas and Apollo Banner Hangers (sold separately). Provides an adjustable hanging point by sliding into the top track of either hanger. **Warning:** Not recommended for use with barbed cords unless cord is tied to the center hole.

- 11/16" wide x 3/4" height x .050" thick with curved top
- 5/16" diameter center hole

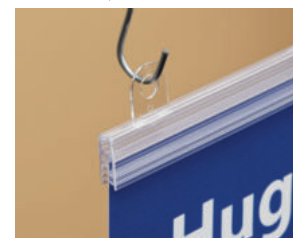

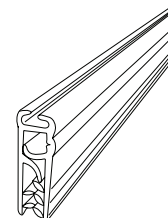

ITEM #	COLOR	MATERIAL
110503	Clear	Polycarbonate
110503B	Black	Nylon
110503W	White	Nylon

Gripper Apollo Banner Hanger

Add ever-changing advertisements anywhere with little cost. Designed to quickly and easily attach a banner to the hanger: just snap up to open, insert sign and snap down to close. Integrated soft gripper fingers hold signs firm, with two internal overlapping rails for an extra snug fit.

- 3/4" height "U" shaped square design
- Top accepts either our #110503 or #110506 series hanger clips (sold separately)
- Bottom has a hinged/snap-shut gripper fin section
- Clear PVC material
- Available in custom lengths or colors
- Also available with adhesive (see page 95)

Elliptical Banner Hanger – Aluminum

Dress up signs and banners, both large and small, with classic upscale elegance. Grips and displays permanent or semi-permanent advertisements securely and easily. Pick an internal holder option (sold separately), attach to edge of graphic and slide holder into lightweight aluminum hanger – it's that easy! Optional accessories include inserts, joiners, hanger clips and end caps. Also works great with common 1/4" to 1/2" hemmed wooden or plastic banner dowel rods (see pages 248-249).

- 1" height x 3/4" width
- Holds a wide range of sign materials
- Various holder insert options (sold separately)
- Other lengths available
- Silver satin anodized aluminum material
- Also available in anodized black

ITEM #	GRIP CAPACITY	OVERALL LENGTH	COLOR
110023	up to .187"	24"	Silver
110024	up to .187"	36"	Silver
110025	up to .187"	48"	Silver

Elliptical End Cap

When inserted into the ends of our aluminum Elliptical Banner Hanger (sold separately), these end caps provide the finishing touch needed for an elegant, upscale appearance.

- 1" height x 3/4" width
- Textured face
- Elliptical shape
- Male insert pin is 1/2" long
- Black nylon 6/6 material

ITEM #	FOR USE WITH
110500B	Elliptical Banner Hanger – Aluminum

Elliptical Banner Hanger Clip

For use in conjunction with our aluminum or plastic Elliptical Banner Hangers (sold separately). Provides an adjustable hanging point by sliding into the top track of the hanger. **Warning:** Not recommended for use with barbed cords.

- 11/16" wide x 5/8" height x .100" thick with curved top
- 5/16" diameter center hole

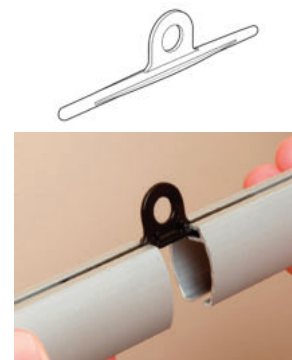

ITEM #	COLOR	MATERIAL
110502	Clear	Polycarbonate

Aluminum Banner Joiner Hanger Clip

For use in conjunction with our Elliptical Aluminum Banner hangers (sold separately). Dual use part that provides both a hanging point for support and a means of joining together two or more of our Elliptical Aluminum Banner Hanger housings. **Warning:** Not recommended for use with barbed cords.

- Two 1-1/4" long male insert pins with a 11/16" wide hanging clip in the middle
- 5/8" tall hanging clip has a curved top
- 5/16" diameter center hole
- Black acetal material

ITEM #	OVERALL LENGTH	FOR USE WITH
110504B	3"	Elliptical Banner Hanger – Aluminum

Graphic Ratchet Fastener

One of several internal holder options that can act as a cross member when two pieces are pressed together along the top edge of a graphic. Permanent and not removable from graphic. Grip capacity can accommodate any sign material up to .187" thick – perfect for use with our Aluminum Elliptical Banner Hanger (sold separately).

- Complete assembly requires two pieces
- Fits into .281" diameter hole size
- Natural nylon 6/6 material

ITEM #	HEAD O.D.	FOR SIGN THICKNESS
120305	.406"	up to .187"

Reminder: Complete assembly requires two pieces.

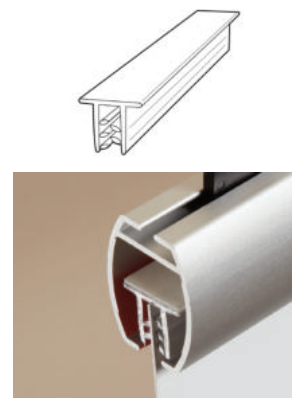

Gripper Sign Holder Insert

Two of several internal holder options that grip sign edges and act as a cross member. Simply press on to graphic edge and the gripper fins hold securely. Both are for use with our Aluminum Elliptical Banner Hanger (sold separately). Removable and reusable.

- 3" long x 1/2" height with base width of 1/2"
- Other lengths available upon request
- Clear PVC material

ITEM #	SIZE	FOR SIGN THICKNESS
108524	Standard	up to .080"
108532	Heavy Duty	.125" to .187"

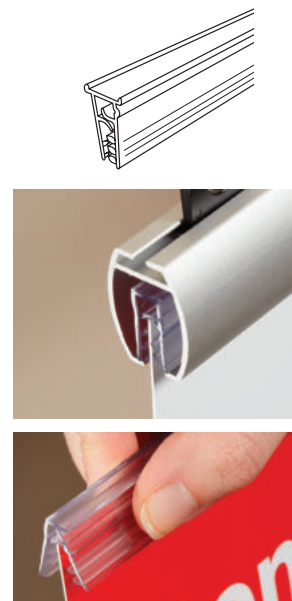

Gripper Apollo Insert

For use with our Aluminum Elliptical Banner Hanger (sold separately). One of several internal holder options that grip sign edges. Just snap up to open, insert sign and snap down to close – it's that easy. Removable and reusable. Integrated soft gripper fingers hold signs firm, with two internal overlapping rails for an extra snug fit.

- 11/16" height "U" shaped square design
- Hinged/snap-shut gripper fin section
- Clear PVC material

110502B	Black	Nylon

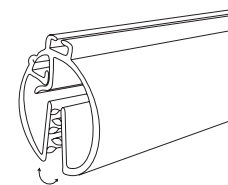

Kinter's secondary operations and fulfillment resources include high-speed bagging & boxing, labeling & instructions, direct-to-store shipment, and co-packing with customer supplied parts.

Space General Banner Hanger

Add ever-changing advertisements with an upscale, round tubular appearance. Designed to quickly and easily attach a banner to the hanger: Just snap up to open, insert sign and snap down to close. Integrated soft gripper fins hold signs firm. Also great for displaying sewn/hemmed fabric or vinyl banners, banners with metal grommets or flags. Can also be placed along the bottom of banners for stability. Optional accessories include hanger clips and end caps.

- 1" O.D. round shape
- Top accepts either #110503 or #110506 series hanger clips (sold separately)
- Optional end caps provide a finished appearance (see below)
- PVC material
- Custom lengths or colors also available – please inquire

Round Graphic/Banner Hanger

A dramatic, tubular way to prominently dress up signs and banners, both large and small. Grips and displays permanent or semi-permanent overhead advertisements securely and easily. Pick an internal holder option (sold separately), attach to edge of graphic and slide holder into round housing – it's that easy! Optional accessories include inserts, joiners, hanger clips and end caps. Also works great with common 1/4" to 1/2" hemmed wooden or plastic dowel rods (see pages 248-249). Optional round PVC material can be shaped and joined to create circular, oval, curved or serpentine mobiles for high visual impact.

- 1-5/8" O.D. round shape
- Holds a wide range of sign materials
- Can also be used as a matching bottom edge stabilizer
- Custom colors, materials, lengths, shapes and/or mitered angle cuts also available
- Black high impact polystyrene (HIPS) material

ITEM #	GRIP CAPACITY	OVERALL LENGTH	STYLE

Round Graphic/Banner Hanger Clip

For use in conjunction with our Round Graphic/Banner Hanger (sold separately). Strong spring steel, zinc plated squeeze clip that provides an adjustable hanging point by sliding into the top track of the hanger. Use more than two hanger clips for long lengths or joined housings. Otherwise known as a "Kiwi" Clip.

- .810" overall height x .500" wide
- .180" diameter center hole
- Friction fit
- .015" thick zinc plated spring steel
- Also available in black

ITEM #	WIDTH	FOR USE WITH
411203	1/2"	Round Graphic/Banner Hanger

Gripper Sign Holder Insert

Two of several internal holder options that grip sign edges and act as a cross member. Simply press on to graphic edge and the gripper fins hold securely. Both are for use with our Round Graphic/Banner Hanger (sold separately).

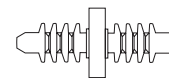

- 3" long x 1/2" height with base width of 1/2"
- Other lengths available upon request
- Clear PVC material

ITEM #	SIZE	FOR SIGN THICKNESS
108524	Standard	up to .080"
108532	Heavy Duty	.125"

Double Barbed Graphic Fastener

Internal holder option that acts as a cross member when pressed into holes along the top or bottom edges of signs that then slide into extruded frames. Accommodate any sign material up to .125" thick – perfect for use with our Round Graphic/Banner Hanger (sold separately).

- Recommended spacing is one fastener per 12 inches
- Press fit into 5/32" sized pre-drilled/punched holes
- Center flange with standard .305" long X-Mas Tree style fins on each side
- Proper installation is when center flange is flush with sign panel
- Black 6/6 nylon material

ITEM #	OVERALL LENGTH	FOR SIGN THICKNESS
120204B	.677"	up to .125"

Round or Square Economy Banner Joiner

An inexpensive, friction fit straight joiner that connects two or more Round or Square Graphic/Banner Hangers (sold separately). When centered, this joiner provides approximately 3 inches of internal connection/support. For added strength, the square profile can accept two joiners with one on each side (this double option is not available for the round profile). **Warning:** It is required to have a hanging point located near each joined section or sign frame may buckle.

- Designed for a straight, internal friction fit
- 1-3/8" height concave/curved design
- .030" thick black styrene material

ITEM #	OVERALL LENGTH	FOR USE WITH
110505B	6"	either Round or Square Graphic/Banner Hanger

Heavy Duty Round Graphic/Banner Joiner

Loose fitting straight metal joiner that, when integrated set screws are tightened, securely connects two or more Round Graphic/Banner Hangers (sold separately). Simply center the joiner within the inner channel of the round housing, tighten the set screws with hex wrench (sold separately) and a heavy duty connection is complete. Don't forget to include the hex wrench in hardware kits where metal joiners are required. These angled wrenches are designed to fit and turn the integrated joiner set screws, and the long arm offers extra solid turning power. Added option: Remove one set screw and connect two plates together to create unlimited custom shapes and/or mitered angles. **Warning:** It is required to have a hanging point located near each joined section or sign frame may buckle.

- Joiner is 3" long x .323" wide x .070" thick tapped metal plate
- Pre-assembled with two 10-32 x 1/2" long cup point socket set screws
- Can also be used when joining a matching bottom stabilizer
- Not for use with our Square Graphic/Banner Hanger
- Can be ordered with two joiners connected together – please inquire
- Joiner is bright galvanized steel plate with black steel set screws
- Hex wrench is black oxide alloy steel, and has 3/4" long short arm & 3-1/2" long arm
- Wrench has 3/32" hex key size that fits the joiner's integrated 10-32 set screws

Square Graphic/Banner Hanger

A dramatic, tubular way to prominently dress up signs and banners, both large and small. Grips and displays permanent or semi-permanent overhead advertisements securely and easily. Pick an internal holder option (sold separately), attach to edge of graphic and slide holder into square housing – it's that easy! Optional accessories include inserts, joiners, hanger clips and end caps. Also works great with common 1/4" to 1/2" hemmed wooden or plastic dowel rods (see pages 248-249). Optional square PVC material can be shaped and joined to create circular, oval, curved or serpentine mobiles for high visual impact.

- 1-1/2" square shape
- Holds a wide range of sign materials
- Can also be used as a matching bottom edge stabilizer or to ladder one sign below the other
- Custom colors, materials, lengths, shapes and/or mitered angle cuts also available
- Black high impact polystyrene (HIPS) material

Vinyl Graphic Banner Hanger Track

Are you tired of bowed, wavy or flimsy vinyl banner presentations when hung from traditional wooden dowels or strung from metal grommets? If so, we have the solution! This ingenious banner hanger track displays sewn/hemmed vinyl, fabric or paper graphics in a dramatic straight, crisp and level manner. Simply slide our Plastic Vinyl Graphic Banner Dowel Rod (sold separately – see below) into the sleeve of an edge sewn graphic and then into the inside track – it's that easy. For longer lengths, use two or more plastic dowel rods end to end. **Patent Pending.**

- Features a handy V-notch entryway to help banners slide in
- 1/2" wide x 7/8" overall height
- Use with end caps (sold separately) for a clean, finished appearance
- Three 3/16" diameter hanging holes (two end holes and one center hole)
- Custom lengths and colors available – please inquire
- White PVC material

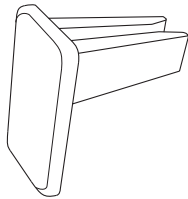

ITEM #	LENGTH	MATING PLASTIC ROD (SOLD SEPARATELY)
220220	24"	1 pc of 220201
220221	26"	1 pc of 220202

Banner Hanger Track End Cap Retainer

Friction fits directly onto the neck area of our line of Vinyl Graphic Banner Hanger Tracks. Provides a decorative end "stop" that helps retain our Plastic Vinyl Graphic Banner Dowel Rods within the "C" channel bottom track.

- 7/8" height x 1/2" width
- External legs are 3/4" long
- Textured face
- Rectangular shape
- White polycarbonate material

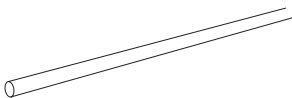

ITEM #	FOR USE WITH
220005W	Vinyl Graphic Banner Hanger Tracks

Plastic Vinyl Graphic Banner Dowel Rod

Use to economically display sewn/hemmed fabric or vinyl banners. Simply slide this round rigid plastic dowel into the sleeve of an edge sewn graphic and then into the inside track of our Vinyl Graphic Banner Hanger Track. Also works great with our Elliptical Aluminum Hanger (sold separately) or our Round and Square Plastic Hangers (also sold separately). Unlike wooden dowels, plastic dowels are extruded smooth with no chance of splinters or splinters. For longer lengths, use two or more dowels end to end.

- 1/4" diameter solid rigid dowel
- Use with end caps (sold separately) for a clean, finished appearance
- Dowels are always produced 1/8" shorter than below stated lengths to assure a proper fit
- Custom lengths available – please inquire
- White acrylic material

ITEM #	LENGTH	DIAMETER	COLOR
220201	24"	1/4"	White

Wooden Banner Dowel Rods

A simple, inexpensive way to support signs and displays horizontally from exposed ceilings, walls or windows. Great for displaying sewn/hemmed fabric or vinyl banners. Simply slide this round, rigid wood dowel into the top and/or bottom sleeve of an edge sewn graphic. Can be combined with Pear Clips, Snap Rings or Screw Eyes/Eyelets (sold separately) to hang signs in place. Also can be used as a stabilizer for bottom sewn/hemmed banners. **Warning:** Not recommended for the combined use of both barbed cords and screw eyes/eyelets unless the cord is tied directly to the screw eye.

- For an additional charge, end holes can be pre-drilled and/or screw eyes/eyelets inserted – please inquire
- Additional hanging accessories available such as rigid plastic End Caps and Screw Eyes (sold separately – see below)
- Three common diameters to choose from
- Other lengths and diameters available – please inquire
- Premium natural poplar or birch hardwood – kiln dried
- Sold in full bundles only

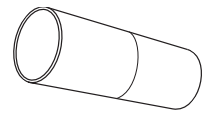

ITEM #	LENGTH	DIAMETER	BUNDLE QUANTITY
411211	36"	3/8"	100 pieces
411215	36"	1/2"	50 pieces
411216	48"	1/2"	50 pieces
411221	48"	3/4"	25 pieces

Wooden Banner Dowel Joiner

For use in conjunction with our Wooden Banner Dowel Rods (sold separately). Provides a sturdy joining option for two or more of the same diameter dowels, or easy breakdown for shipping purposes. Create wider banner displays or maximize horizontal space. Strong, friction-fit connector design.

Warning: Because wood naturally takes on or gives off moisture, joiners may tend to seasonally fit tightly or loosely.

- Double ended, friction-fit design
- Both sizes have an overall length of 2-9/16"
- Natural translucent polypropylene material
- Other sizes and colors available – please inquire

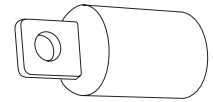

ITEM #	FOR USE WITH	OVERALL LENGTH
411236	1/2" dia. Wooden Banner Dowel Rods	2-9/16"
411237	3/4" dia. Wooden Banner Dowel Rods	2-9/16"

Wooden Banner Dowel End Cap

For use in conjunction with our Wooden Banner Dowel Rods (sold separately). Provides both a sturdy hanging point and a decorative finishing touch when slid onto the ends of common round wooden dowels. Works great with many common hanging hardware options such as metal hooks or barbed cords. Strong friction fit design. **Warning:** Not recommended for use with barbed cords unless cord is tied to the end hole. Further, because wood naturally takes on or gives off moisture, end caps may tend to fit tightly or loosely.

- Both the 3/8" and 1/2" diameters have an overall length of 1-5/16" and a hole size of 3/16"
- The 3/4" diameter has an overall length of 1-7/16" and a hole size of 5/16"
- All three sizes have a 3/4" dowel receiving depth when fully inserted
- Natural translucent polypropylene material or black
- Other sizes and colors available – please inquire

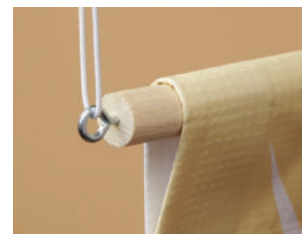

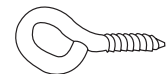

ITEM #	FOR USE WITH	COLOR

Wooden Banner Dowel Screw Eye

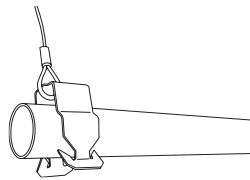

For use with our Wooden Banner Dowel Rods (sold separately). When properly inserted into pre-drilled ends of common wooden dowel rods, these inexpensive screw eyes/eyelets offer a sturdy hanging point. Works with many common hanging hardware options such as metal hooks or barbed cords.

Warning: Not recommended for use with barbed cords unless cord is tied directly to the screw eye.

- For an additional charge, screw eyes/eyelets can be factory inserted into our full line of wooden banner dowel rods – please inquire
- .080" wire diameter x 13/16" overall length with 5/32" closed eye I.D.
- Other sizes and colors/finishes available – please inquire
- Steel with bright zinc plate

Metal Vinyl Graphic Banner Rod System

A quick and inexpensive way to suspend signs and displays horizontally from exposed solid or split beam open style warehouse ceilings. Can be combined with Pear Clips or Snap Rings (sold separately) to lock signs into place. Great for displaying sewn/hemmed fabric or vinyl banners. No tools required. Won't sag or warp like common wooden banner dowel rods. Each complete assembly requires one support tube and two or more cable assemblies – each sold separately. Each cable assembly includes our highly popular self-locking cable adjuster with a looped cable end assembly connected to a snap-on conduit hanging clip together in a convenient polybagged kit. **Warning:** Use only in dry, indoor locations with conduit hanging clips placed a minimum of 3/4" inward from each end of the support tube.

- Cable is 1/16" dia. (7x7) galvanized steel x 30 ft. long
- Conduit hanging clip is 3/4" wide x 1-5/8" long and is made of spring steel with zinc plate
- Round support tube is rigid 3/4" EMT conduit (.922" O.D.) x .049" wall thickness, painted white
- 10 ft. support tube requires an additional cable assembly hanging point located in the middle
- Other cable and support tube lengths and colors available – please inquire

ITEM #	OVERALL LENGTH	COMPONENT TYPE	NUMBER OF CABLE ASSEMBLIES REQUIRED	FINISH	SAFE WORKING LOAD LIMIT

105130	30 ft.	Cable Assembly	n/a	Zinc	16 lbs.

Conduit Support Tube Hanging Clip

For use in conjunction with our line of round Conduit Support Tubes (sold separately). Ingenious push-on type hanging clip that simply and securely snaps directly onto common 3/4" (.922" O.D.) rigid EMT conduit without the need for any additional hardware such as nuts or bolts. Integrated sharp jagged teeth hold firm and resist removal when fully engaged on painted or plain steel conduit. Center hole on top is great for attaching metal hooks, locking rings, chain or cable. **Warning:** Use only in dry, indoor locations with clips placed a minimum of 3/4" inward from each end of the support tube. Removable and reusable.

- No tools required
- 3/4" wide x 1-5/8" long with 9/32" diameter centered top hole
- Also available in black or other colors – please inquire
- .027" thick zinc plated spring steel
- Packaged 100 per bag

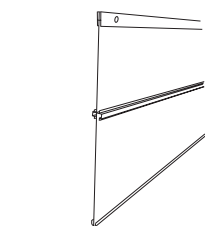

ITEM #	OVERALL LENGTH	FOR USE WITH
411205	1-5/8"	Conduit Support Tubes

Spiral Sign Board

Extruded panel holds both promotional signs and pricing simultaneously and cost effectively. When combined with our spiral sign board brackets and pads (both sold separately), these double-sided rigid boards are ideal for gondola tops, end caps and other in-store areas with changing price points. Display numerical and/or reading pads plus message graphics from one or both sides. Also can be hung from walls, windows or ceilings via integrated holes.

- #108839 holds 7-7/8" to 8" height signs in top channel (up to 1/8" thick) and 11-1/8" height spiral sign pads in bottom channel, with two 3/8" diameter mounting/hanging holes
- #109506B holds 4-1/2" height spiral sign pads in top channel (up to 5/32" thick) and 8" height spiral sign pads in bottom channel, with two 5/16" diameter mounting/hanging holes
- High impact polystyrene (HIPS) material
- One-sided boards, other lengths or colors also available – please inquire
- Packaged 10 per box

ITEM #	OVERALL LENGTH	OVERALL HEIGHT	FOR SPIRAL SIGN PADS	COLOR

Spiral Sign Board Pads sold separately (see page 92)

Spiral Sign Board Brackets sold separately (see page 92)

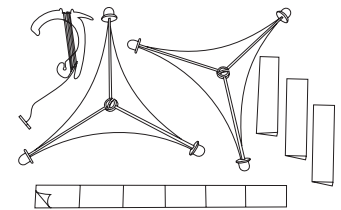

Universal Three-Sided Mobile Kit

Our most economical three-way mobile kit. Plastic three-sided formers and all components needed to both support and hang graphic posters. An inexpensive way to turn advertising posters into eye-catching displays. Easy assembly.

Poster hole info: Hole sizes should be 1/4" diameter to accommodate former pop thru tips. Two centered holes are required per poster. All posters must be the same size for proper balance.

Universal mobile info: Top and bottom plastic formers secure three posters from 9" to 40" wide. Holes should be spaced a minimum of 3/4" from both the top and bottom edges of the poster.

- Formers are 4-1/2" wide x 1/2" thick, three sided
- Each former also has an integrated small loop for optional bottom dangler attachment
- Panel edge clips are 2" long
- Formers are natural polypropylene material
- Panel edge clips are clear PVC material
- Each polybagged kit contains one 6 ft. white Ceiling Hook & Cord, two formers, three panel edge clips, six pieces of two-sided white foam tape and assembly instructions

ITEM #	POSTER WIDTH
109543	9" to 40"

Triway Mobile Kit

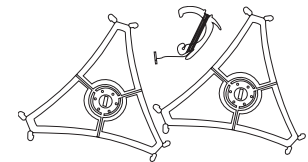

Plastic triangular formers support and hang graphic posters. Can also accommodate display poles (1" to 1-1/2" O.D.) and turning motors by simply removing the center disk in the bottom former. An inexpensive way to turn advertising posters into eye catching, three sided, mobile or pole topped displays. Easy assembly.

Poster hole info: Hole sizes should be 7/32" diameter to accommodate former pop thru tips. Four holes are required per poster. All posters must be the same size for proper balance.

Small triway: Top and bottom plastic formers secure three posters from 10" to 24" wide. The top and bottom pair of holes should be 3-3/16" to each side of the center of the poster.

Large triway: Top and bottom plastic formers secure three posters from 20" to 40" wide. The top and bottom pair of holes should be 6-5/16" to each side of the center of the poster.

- Small formers are 6-3/8" wide x 5/16" thick, three sided
- Large formers are 12-5/8" wide x 1/2" thick, three sided
- Formers are natural polypropylene material
- Each polybagged kit contains one 6 ft. white ceiling attachment & cord, two formers and assembly instructions

ITEM #	SIZE	POSTER WIDTH	CEILING ATTACHMENT
107060	Small	10" to 24"	Ceiling Hook & Cord
107061	Large	20" to 40"	Ceiling Hook & Cord
NEW 109661	Large	20" to 40"	Ceiling Twist Clip & Cord

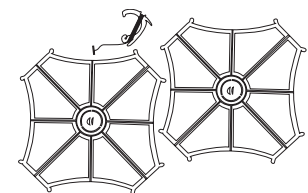

Quadway Mobile Kit

Plastic four-sided formers that support and hang graphic posters. An inexpensive way to turn advertising posters into eye-catching, four-sided mobile or pole-top displays. Can also accommodate display poles 1" or 1-1/2" O.D. (sold separately) and turning motors by simply removing the center disk in the bottom former. Easy assembly.

Poster hole info: Hole sizes should be 1/4" diameter to accommodate former pop thru tips. Four holes are required per poster. All posters must be the same size for proper balance.

Quadway info: Top and bottom plastic formers secure four posters from 12" to 24" wide. The top and bottom pair of holes should be 3-1/4" to each side of the center of the poster.

- Formers are 11-1/2" wide x 5/16" thick, four sided
- Formers are natural polypropylene material
- Each polybagged kit contains one 6 ft. white Ceiling Hook & Cord, two formers and assembly instructions

ITEM #	POSTER WIDTH
107065	12" to 24"

Wire Mobile Hanger & Cord

Versatile metal hook that installs easily on, or over, a variety of exposed ceiling supports or grids. Unravel wound barbed cord to desired length. Use to suspend lightweight signs, mobiles and banners.

- Hook opening is 1-1/4" wide and can negotiate over most metal ceiling grids
- Hook is .062" wire diameter x 5-1/4" overall length, bright galvanized spring steel
- Clear monofilament cord with zinc plated barbed end
- Packaged 25 per bag

ITEM #	CORD LENGTH	CORD COLOR
108040	5 ft.	Clear

Brass Wire Mobile Hanger & Cord

Versatile brass wire hook that installs easily on a variety of exposed ceiling supports or on the edge of common ceiling grids. Unravel wound barbed cord to desired length. Use to suspend lightweight signs, mobiles and banners. Solid brass wire material will not rust and can easily be bent as required.

- Hook opening is 5/8" wide and can be bent if desired
- Hook is .046" wire diameter x 4-5/8" overall length, solid brass material
- Clear monofilament cord with zinc plated barbed end
- Packaged 25 per bag

ITEM #	CORD LENGTH	CORD COLOR
108041	4 ft.	Clear
108042	6 ft.	Clear

Snap-Lock Ceiling Clip & Cord

Plastic clip that hinges and locks securely onto most standard ceiling grids with a claw-like feature. Unravel the wound barbed cord to desired length. Use to suspend lightweight signs, mobiles and banners. Compatible with most installation/extension poles, including our red end poles (page 264).

- Clip is 1/2" wide and extends 1-1/2" from ceiling grid
- Twists off for easy removal
- Clip is white polypropylene
- Packaged 200 per bag

Installation Poles sold separately (see page 264)

ITEM #	CORD LENGTH	CORD COLOR	CORD MATERIAL
107084	4 ft.	White	Braided Polyester
107084C	4 ft.	Clear	Monofilament
107086	6 ft.	White	Braided Polyester
107086C	6 ft.	Clear	Monofilament
107088	8 ft.	White	Braided Polyester
107088C	8 ft.	Clear	Monofilament

Metal Squeeze Clip & Cord

Locks onto ceiling grid with a simple squeeze. Unwind barbed cord to desired length. Use to suspend lightweight signs, mobiles and banners.

- Clip is .062" wire diameter x 3-1/2" overall length, bright galvanized spring steel
- Cord is braided polyester material
- Packaged 100 per bag

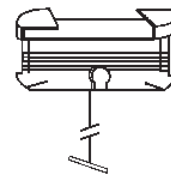

ITEM #	CORD LENGTH	CORD COLOR
107056	6 ft.	White
107056B	6 ft.	Black

Ceiling Twist Clip & Cord

Plastic clip attaches to ceiling grid with a simple turn and lock feature. Unravel wound barbed cord to desired length. Use to suspend lightweight signs, mobiles and banners. Built-in slits allow for micro adjustments of cord length for even hanging. Compatible with most installation/extension poles, including our red end poles (see page 264).

- Clip is 2" long x 1/2" wide
- Clip is white polypropylene material
- Packaged 100 per bag

ITEM #	CORD LENGTH	CORD COLOR	CORD MATERIAL
107034	4 ft.	White	Braided Polyester
107034C	4 ft.	Clear	Monofilament

107048B	8 ft.	Black	Braided Polyester
107048C	8 ft.	Clear	Monofilament

Installation Poles sold separately (see page 264)

Branched Multi-Cord Ceiling Clips

Twist-on style clip attaches to ceiling grid with a simple turn and lock feature. Versatile plastic hook installs easily on a variety of exposed ceiling supports or grids. Unravel wound barbed cord to desired length. Use to suspend three-paneled or four-paneled lightweight signs, mobiles and banners. Compatible with most installation/extension poles, including our red end poles (see page 264).

- Two ceiling grid attachment styles available
- Both twist-on clip & hook are white polypropylene material
- Cord is white braided polyester material
- 6 ft. long cord consists of one 4 ft. cord plus multiple 2 ft. long barbed branches
- Packaged 100 per bag

ITEM #	STYLE	OVERALL CORD LENGTH	NUMBER OF BRANCHES
107053	Twist-On Clip	6 ft.	3
107054	Twist-On Clip	6 ft.	4
107063	Hook	6 ft.	3
107064	Hook	6 ft.	4

Twist-On

Hook

Installation Poles sold separately (see page 264)

Barbed Cords

Use in conjunction with a Plastic Grid Clip With Hole (see page 259) or Hanging Coil (see page 263) to economically suspend lightweight signs. Recommended panel hole size is 1/8" to 3/16" diameter.

- White & black cords are tangle resistant
- Clear mono cord is nearly invisible
- .094" dia. x 5/8" long zinc plated steel barbs on both ends
- Length is measured between the barbs
- Other lengths and custom ends also available
- Packaged 100 per bundle

Elastic Barbed Cords

Stretches to approximately twice its length. Use to hold and suspend lightweight signs. Recommended panel hole size is 1/8" to 3/16" diameter.

- Length is measured between the barbs
- Other lengths, custom ends and colors also available
- Elastic rubber inner cord wrapped in durable .060" dia. white or black polyester
- .109" dia. x 11/16" long zinc plated steel barbs on both ends
- Packaged 100 per bundle

109068B	18"	36"	Black

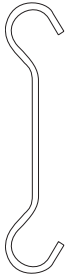

Mobile Springs

Economical sign suspension solution that is both adjustable and tangle-free. Hang lightweight signs and mobiles fast, straight and level with ease. Spiral wire with hook ends. Pulls out to a variety of lengths, from 6 inch up to 8 feet, and stays put; thus yielding exact sign heights, as desired. Low carbon steel hook ends can be hand-bent to hook directly onto the edge of most common ceiling grids. Also known as Stretchies or Jet Wires.

- 6" long part is .060" O.D. spiral wire
- 8" and 12" long parts are .075" O.D. spiral wire
- 3/8" hook openings on both ends
- Not a spring: will not return to original length once stretched
- Galvanized steel wire material
- Sold in full bags only

ITEM #	RESTED LENGTH	MAX. STRETCHED LENGTH	PACKAGED
108030	6 in.	4 ft.	100 per bag
108031	8 in.	5 ft.	100 per bag
108032	12 in.	8 ft.	25 per bag

Double “C” Hooks

Economical fixed length hooks hang signs level. Also known as Hangwires.

- 5/8" hook opening
- .093" wire diameter, bright galvanized steel
- Packaged 50 per bundle

ITEM #	OVERALL LENGTH
108010	4"

Plastic Double “C” Hooks – Open Ends

Fixed length clear plastic, open end hooks that hang signs level. Clear color is not as noticeable as common wire hooks.

- 5/32" diameter
- 3/8" hook opening on both ends
- Minimum recommended panel hole size is 13/64"
- Polycarbonate material
- Packaged 50 per bundle

ITEM #	OVERALL LENGTH	COLOR
220204	4"	Clear

Plastic Double “C” Hooks – Locking Ends

Fixed length clear plastic, teardrop shaped, locking loop ends that hang signs level. A safer alternative to clear plastic or metal open end Double “C” Hooks. Removable and reusable. Clear color is not as noticeable as common wire hooks. Also known as Safety Hooks.

- 5/32" diameter
- 1-1/4" length x 7/16" width locked loops on both ends
- Can be linked together for multiple lengths
- Minimum recommended panel hole size is 13/64"
- Polycarbonate material
- Packaged 50 per bundle

ITEM #	OVERALL LENGTH	COLOR
220306	6"	Clear
220312	12"	Clear
220318	18"	Clear

“S” Hooks

Nice range of common lengths and diameters for various hanging applications.

- Steel material, stocked in the finishes listed below

ITEM #	WIRE DIAMETER	LENGTH	FINISH
108003	.080"	1"	Bright Galvanized
108003B	.080"	1"	Black Oxide
108004	.093"	7/8"	Bright Galvanized
108005	.120"	1-5/16"	Bright Galvanized
108006	.135"	1-5/8"	Bright Galvanized
108007	.148"	2"	Bright Galvanized
108008	.177"	2-7/8"	Bright Galvanized

“C” Links

Economical way to hang multiple signs evenly and straight, one below the other.

- .093" wire diameter, bright galvanized steel
- Packaged 100 per bag

ITEM #	OVERALL LENGTH	OPENING
108001	1-1/2"	15/32"
108002	3"	5/8"

Wire Snap Link

Economical spring lock design that snaps easily and locks securely. Popular for directly connecting chain or the ends of cable to grid ceiling loops or banner hanger clips. Extremely strong for its thin wire design. Stainless steel offers corrosion resistance. Clips totally shut for a secure closure. **Warning:** Light duty use only – not designed for lifting.

- 1/32" wire diameter
- 1-1/4" overall length
- 11/16" closed inside loop length
- Other sizes available – please inquire
- Stainless steel material

ITEM #	LENGTH
101074	1-1/4"

“U” Hook

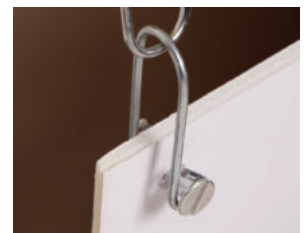

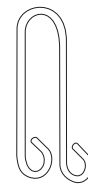

In conjunction with Binder Post & Screws (up to 3/4" long), “U” Hooks are popular for use on foam board and other thick sign material. Also used to attach two sign panels back to back, or for holding sample swatches. Binder Post & Screws are sold separately.

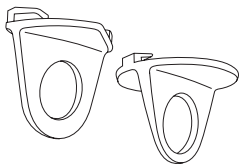

- 2" overall length x 3/4" wide
- 1/4" I.D. looped ends
- .093" wire diameter, bright galvanized steel
- Packaged 100 per bag

ITEM #	LENGTH	MAX. MATERIAL THICKNESS
106002	2"	3/4"

Binder Post & Screw
sold separately
(see page 226-230)

Ceiling Twist Loop

Securely attach to ceiling grid with a simple turn and lock feature. Compatible with most installation/extension poles, including our red end poles (see page 264). Can serve as a permanent fixture or can be easily removed for repositioning.

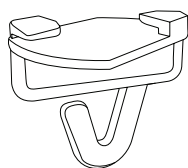

- 7/8" diameter loop

ITEM #	BASE SHAPE	BASE DIMENSIONS	COLOR	MATERIAL
107010	Round	2" O.D.	White	Styrene
107015	Rectangular	2" Long x 1-1/4" Wide	White	Styrene

Installation Poles sold separately (see page 264)

Ceiling Twist Hook

Securely attach to ceiling grid with a simple turn and lock feature. Can serve as a permanent fixture or can be easily removed for repositioning. Compatible with most installation/extension poles, including our red end poles (see page 264).

- 1/8" hook opening
- 1-1/2" overall length
- Styrene material

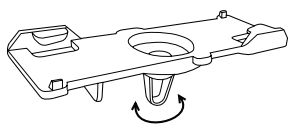

ITEM #	BASE SHAPE	BASE DIMENSIONS	COLOR
107017	Rectangular	2" Long x 1-1/4" Wide	White
107017C	Rectangular	2" Long x 1-1/4" Wide	Clear

Installation Poles sold separately (see page 264)

Ceiling Systems & Accessories

Swivel Ceiling Grid Clip

Rotate a sign to just the right viewing angle with a twist of the integrated loop. Securely attach to ceiling grid with a simple turn and lock feature. Can serve as a permanent fixture or can be easily removed for repositioning. Closed loop size is great for use with plastic and wire hooks (sold separately). Also known as Spider Clips.

- 3-1/4" long x 1-1/8" wide
- Extends 7/8" from ceiling grid
- Loop rotates 360 degrees
- Polycarbonate material
- Packaged 100 per bag

ITEM #	LENGTH	COLOR
107018	3-1/4"	Clear

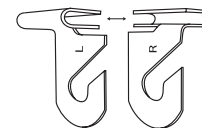

Aluminum Ceiling Hook

Interlocking two piece metal hook is reusable and extremely sturdy. Easy “slide on” ceiling grid installation. Each complete assembly (either hook or ring) requires two pieces. Simply slide one interlocking left and right together to form a hook, or two lefts/two rights to form a ring.

- 1" wide x 1-1/2" long
- 1/4" hook opening
- .040" thick aluminum, painted white

ITEM #	SIDE
107026	Left
107027	Right

Reminder: Complete assembly requires two pieces (either one left & one right, or two of the same), which are sold separately

One left and one right

Two of the same

One-Piece Folding Aluminum Ceiling Hook

Avoid the step of engaging traditional interlocking two-piece aluminum ceiling hooks together. This single piece, folding style ceiling grid hook is quick, secure and extremely sturdy. Easy “fold-onto-grid” installation that is great for ceiling displays requiring cord, hooks, chain or cable.

- Can serve as a permanent fixture
- 1" wide x 1-1/2" long
- 3/16" hook opening
- .040" thick aluminum, painted white
- Packaged 100 per bag

ITEM #	WIDTH	COLOR
107163	1"	White

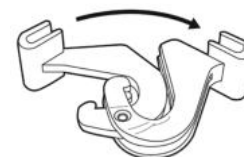

Clear Hinged Ceiling Hook

One piece clear plastic hook hinges open and closes around ceiling grid. Easy on & easy off. Clear color is unnoticeable. Removable & reusable.

- 3/4" wide x 1-3/8" long
- 21/64" hook opening
- Transparent lexan material
- Packaged 100 per bag

ITEM #	COLOR
107025	Clear

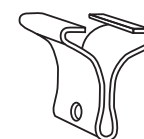

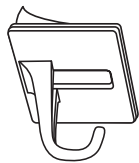

Plastic Grid Clip With Hole

Plastic clip grabs ceiling grid for tight and secure attachment. An alternative to wire clips and safer than open hooks. Small hole makes it great for use with Barbed Cords (sold separately – see page 254).

- 3/4" length x 5/8" width
- Polypropylene material
- Packaged 250 per bag

ITEM #	HOLE DIAMETER	COLOR
107019	5/32"	Clear
107020	5/32"	White

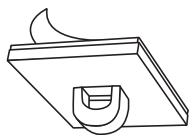

“J” Hook With Adhesive

Simply peel and stick for a secure hold on ceiling grids or any other clean, flat surface. Hook opening makes it great for lightweight rings and hooks.

- Hang horizontally or vertically
- Base has adhesive backing
- 7/8" overall height
- White styrene material
- Packaged 8 pieces per sheet

ITEM #	BASE DIMENSIONS	HOOK OPENING
107028	1" x 1"	11/32"

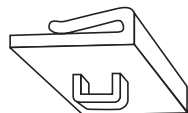

Adhesive Ceiling Loop

Simply peel and stick for a secure hold on ceiling grids or any other clean, flat surface. Small hole (loop) makes it great for attaching barbed cords, tags and lightweight hooks.

- Base has adhesive backing
- .328" overall height
- White polypropylene material
- Packaged 250 per bag

ITEM #	BASE DIMENSIONS	LOOP DIAMETER
107023	3/4" x 3/4"	3/16"

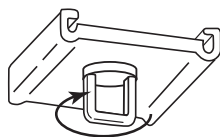

Clip-On Ceiling Loop

Also known as a “Mini-Clipper,” this clip connects securely to one side of ceiling grid. Also fits well on the lip of perimeter ceiling grid for hanging signs and banners flush to the wall. Small hole (loop) makes it great for attaching barbed cords, hooks and locking rings.

- 1/2" leg length
- .469" overall height
- White polypropylene material
- Packaged 250 per bag

ITEM #	BASE DIMENSIONS	LOOP DIAMETER
107024	3/4" x 3/4"	3/16"

Ceiling Swivel Loop Clip

Rotate a sign to just the right viewing angle with a simple rotation of the loop. Plastic clip grabs the ceiling grid for a secure attachment. Small loop size is great for use with wire hooks and barbed cords.

- Snaps onto standard 15/16" ceiling grid tee bars
- Loop rotates 360 degrees
- White styrene material
- Packaged 250 per bag

ITEM #	BASE DIMENSIONS	LOOP I.D.
107029	1" x 3/4"	.156"

Magnetic Hooks

Display lightweight signs and products from metal surfaces. Magnets are easily placed and removed. Attaches well to most ferrous metal surfaces. **Warning:** Holding capacity is the approximate maximum pull rating under ideal conditions. Always test suitability on a per application basis. For best results, use on an indoor, bare (unfinished) metal surface that is smooth and clean. Metal conditions will affect holding power. Magnets should not be used near electronic equipment.

- All three sizes offered are 1-1/4" overall length
- Round magnet base with round metal housing with hook attachment

ITEM #	BASE O.D.	HORIZONTAL CAPACITY	HOOK OPENING	FINISH
107030	1"	9 lbs.	.187"	Powder Coated White
107031	1-1/4"	14 lbs.	.187"	Powder Coated White
107032	2"	20 lbs.	.312"	Chrome Plated

Open hook can be pinched closed to form an eye (please inquire).

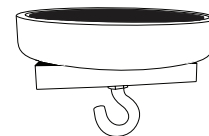

Heavy Duty Magnetic Hook

Display signs and products from metal surfaces. Attaches to most ferrous metal surfaces and is extremely strong. Otherwise known as a Gorilla 2-5/8" Animal Magnet. **Warning:** Holding capacity is the approximate maximum pull rating under ideal conditions. Always test suitability on a per application basis. For best results, use on an indoor, bare (unfinished) metal surface that is smooth and clean. Metal conditions will affect holding power.

- 1-1/2" overall length
- Free spinning, 9/16" x 5/16" x 1-7/8" long natural nylon block
- Can serve as a permanent fixture or can be removed and repositioned
- Round magnetic base with white painted metal housing with hook attachment

ITEM #	BASE O.D.	HORIZONTAL CAPACITY	HOOK OPENING	FINISH
107045	2-1/4"	45 lbs.	.172"	Powder Coated White

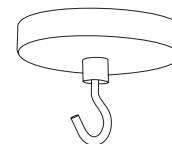

Extra Heavy-Duty Magnetic Hook

Our strongest magnetic hook, yet economical. Display signs and products from metal surfaces. Extremely strong for its 2" diameter size. Attaches to most ferrous metal surfaces. **Warning:** Holding capacity is the approximate maximum pull rating under ideal conditions. Always test suitability on a per application basis. For best results, use on an indoor, bare (unfinished) metal surface that is smooth and clean. Metal conditions will affect holding power.

- 1-13/32" overall length
- Can serve as a permanent fixture or can be removed & repositioned
- Round magnetic base with chrome plated housing with hook attachment

ITEM #	BASE O.D.	HORIZONTAL CAPACITY	HOOK OPENING	FINISH
109510	2"	50 lbs.	.250"	Chrome Plated

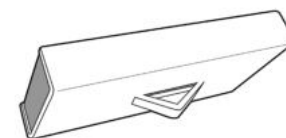

Magnetic Ceiling Loop

Specifically designed for use on metal ceiling grids as an alternative to wire clips and open magnetic hooks. Rectangular metal casing containing an integrated flex rubber magnetic base. Both sizes have a closed loop that can securely hold hooks, cable or chain. Removable and reusable. **Warning:** Holding capacity is the approximate maximum pull rating under ideal conditions. Always test suitability on a per-application basis. For best results, use on an indoor, bare (unfinished) metal surface that is smooth and clean. Metal conditions will affect holding power. Magnets should not be used near electronic equipment.

- For use on standard 15/16" metal ceiling grid tee bars
- 1" long part is 7/8" wide x 1/4" height (not including loop)
- 2" long part is 1" wide x 5/16" height (not including loop)
- .120" inside loop height - centered
- Nickel plated steel housing

ITEM #	LENGTH	HORIZONTAL CAPACITY
107039	1"	5 lbs.
107035	2"	14 lbs.

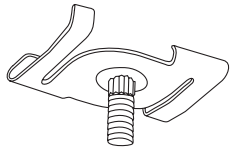

Metal Ceiling Twist Loop

Superior grip. Super strong spring steel. Twist on to lock securely on ceiling grid. When locked in place, this is our strongest ceiling clip. No special tools required.

- For use on standard 15/16" ceiling grid tee bars
- 20 gauge spring steel, painted white
- Packaged 100 per bag

ITEM #	BASE LENGTH	BASE WIDTH	LOOP I.D.
107021	1-1/2"	1"	15/64"

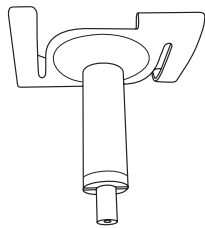

Metal Ceiling Twist Stud

Superior grip. Super strong spring steel. Twist on to lock securely on ceiling grid. Stud allows for attachment to a variety of signs and fixtures. No special tools required. Longer stud lengths also available.

- For use on standard 15/16" ceiling grid tee bars
- Base is 20 gauge spring steel painted white
- Fully threaded stud is zinc plated steel
- Packaged 100 per bag

ITEM #	BASE LENGTH	BASE WIDTH	STUD DIMENSIONS
107022	1-1/2"	1"	1/4-20 x 5/8"

Ceiling Twist Side Exit Cable Adjuster

Suspend lighting, signs and other fixtures directly to common drop-ceiling style grids in a vertical fashion. Twist-on-to-lock ceiling grid attachment design that quickly and easily allows for adjustment of bare cable (sold separately). Adjusters have a unique ball bearing push-button feature with integrated side exit for easy height adjustments. Holes on the top side and underside allow bare cable to pass through. **Warning:** Use only on bare cable (wire rope). Do not use on painted or coated cable. Not recommended for suspension of objects at angles.

- For use on standard 15/16" ceiling grid tee bars
- Turn and lock base is 1-1/2" long x 1" wide with 20 gauge steel painted white
- Cable adjuster body is 1" long x .354" diameter
- Cable passes through the bottom and exits out the side
- No special tools or setting keys required
- Reliable built-in 5 to 1 safety factor
- Nickel plated brass and steel material
- Packaged 100 per bag

ITEM #	FOR USE WITH BARE CABLE DIA.	SAFE WORKING LOAD LIMIT *
105160	1/32" (3x7)	7 lbs. (when used with 1/32" cable)
	or 1/16" (7x7)	or 30 lbs. (when used with 1/16" cable)

* Rating is for cable adjuster only, not for the ceiling grid. Consult ceiling grid weight specifications.

Grid Ceiling Spanner Bar

Allow for pinpoint positioning of signage at any location on the ceiling without being limited to the location of existing ceiling grids. No tools required. Simply rotate ends in place over existing ceiling grid edges – notched ends allow for a secure overlap. Also known as Cross Beams and Tile Dividers.

- Compatible with most grid ceilings
- Works in conjunction with all types of metal and plastic ceiling clips & hooks (sold separately)
- .048" thick aluminum, painted white

ITEM #	LENGTH	WIDTH
104100	24"	1"

“V” Clip

Most economical way to attach to a grid ceiling. Very strong for its small size.

- Galvanized spring steel
- Packaged 500 per bag

ITEM #	WIRE DIAMETER	LENGTH
107001	.047"	1"

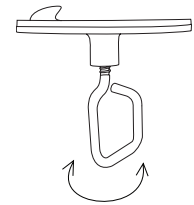

Swivel Snail Disk With Adhesive

Simply peel and stick for a secure hold on smooth plaster or other solid flat ceiling surfaces. Integrated metal loop rotates so signs can be hung at perfect viewing angles.

- 1-1/4" overall length
- Hang horizontally or vertically
- Round base has adhesive backing
- Loop is steel with zinc plate
- Base is white polypropylene material
- Packaged 100 per bag

ITEM #	BASE O.D.	LOOP WIDTH
107014	1-1/2"	11/32"

Hanging Coil

Both sizes screw into any location on an acoustic tile ceiling, with the 3/8" O.D. being the most popular. Also used on foam board (a.k.a. Gator Board) edges. Small loop makes it great for use with Barbed Cords (sold separately – see page 254).

- Galvanized spring steel
- Packaged 100 per bag

ITEM #	WIRE DIAMETER	O.D.	LENGTH
106005	.035"	1/4"	1"
106001	.040"	3/8"	1-1/4"

Squeeze Clip

Our most popular ceiling grid clip. Locks onto ceiling grid with a simple squeeze.

- Bright galvanized spring steel
- Packaged 100 per bag

ITEM #	WIRE DIAMETER	LENGTH
107003	.062"	3"

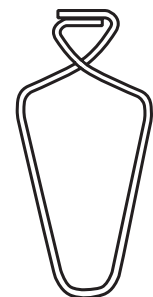

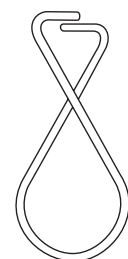

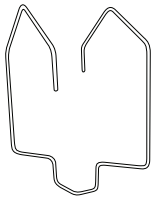

Figure “8” Squeeze Clip

Locks securely on ceiling grid with a squeeze.

- Bright galvanized spring steel
- Packaged 100 per bag

ITEM #	WIRE DIAMETER	LENGTH
107004	.062"	2-1/2"

Warehouse Ceiling Hook For Solid Beam

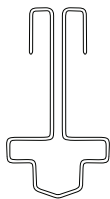

Use to hang banners from exposed solid beams. Works great with cable and chain (sold separately). Compatible with most installation/extension poles, including our red end poles (see below).

- 6" wide x 8" tall
- 11-gauge (.121" diameter) wire
- Holds up to 7 lbs. when hung properly
- Zinc plated steel material

ITEM #	WIDTH	HEIGHT	FOR USE ON
107009	6"	8"	Solid Beams

Installation
Poles sold
separately
(see below)

Warehouse Ceiling Hook For Split Beam

Use to hang banners from exposed split beams. Works great with cable and chain (sold separately). Compatible with most installation/extension poles, including our red end poles (see below).

- 4-1/4" wide x 7-1/4" tall
- 11-gauge (.121" diameter) wire
- Holds up to 7 lbs. when hung properly
- Zinc plated steel material

ITEM #	WIDTH	HEIGHT	FOR USE ON
107008	4-1/4"	7-1/4"	Split Beams

Installation
Poles sold
separately
(see below)

Installation Poles

Hang or remove signs, banners and ceiling accessories from ground level without the need for a ladder – quick and safe! Smooth telescopic pole for use with a wide variety of our plastic and metal sign hanging components (sold separately). Otherwise known as Lifter or Extension Poles.

- Permanently affixed 2" inside width red plastic socket end
- Clear satin anodized finish with black hand grip
- Reliable twist-lock features
- Lightweight aluminum material

ITEM #	EXTENDED LENGTH	FOR MAXIMUM CEILING HEIGHTS	COLLAPSED LENGTH	NUMBER OF SECTIONS
220025	10 ft.	15 ft.	47"	3
220027	18 ft.	23 ft.	65"	4

Threaded Extension Pole

Fixed single length economy style or smooth telescopic poles with standard acme threaded ends that are designed to fit multiple styles of common internally threaded end accessories such as squeegees, paint rollers or reaching mechanisms. Otherwise known as installation poles.

- Integrated 3/4" diameter reinforced acme threaded black plastic end tip x 1" long
- Clear satin anodized finish with black plastic hand grip end
- Telescopic styles offer reliable twist-lock features
- Lightweight aluminum material

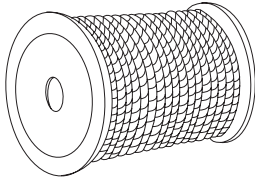

ITEM #	EXTENDED LENGTH	COLLAPSED LENGTH	NUMBER OF SECTIONS
220004	4 ft.	48"	1
220010	10 ft.	47"	3
220018	18 ft.	65"	4

Cable & Chain

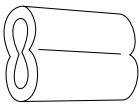

Steel Cable

Flexible galvanized aircraft quality cable (wire rope) is stronger and less expensive than chain. Also, cable is thinner and less noticeable than chain. The recommended safe working load is a 5 to 1 ratio (i.e. approximate break strength divided by 5).

- Both bare and coated cable available
- Packaged on single plastic spools at the lengths listed below
- Custom lengths available

ITEM #	WIRE DIAMETER	SPOOL LENGTH	MATERIAL	COATING	APPROX. BREAK STRENGTH	RECOMMENDED SAFE WORKING LOAD

Cable Sleeves (Crimps)

Cable sleeves are used in conjunction with steel cable for looping and swaging ends. **Warning:** Swaging over vinyl or nylon coated cable will result in severely reduced holding power and is not recommended in applications where human safety, lifting or full wire strength is involved.

- Oval duplex design
- Cable sleeves are also known as Crimps or Ferrules

ITEM #	CABLE DIAMETER	MATERIAL
105001	1/32"	Zinc Plated Copper

Looped End Cable Assemblies

Flexible bare steel cable assemblies with factory installed, crimped-on fittings. Very strong and durable.

- Standard assemblies (those listed below) have cable-sleeved loops on both ends
- Custom lengths, cable diameters or loop configurations are also available
- Other cable endings include straight cuts (no fitting), button stops, eyelets and ball stops

ITEM #	CABLE DIAMETER	OVERALL LENGTH	LOOP LENGTH

102011	1/16"	48"	3/4"

Other popular cable end fittings available:

Eyelet

Ball stop

Button stop

Straight cut (no fitting)

Order your parts pre-assembled to save you time & money.

Fixed Style Cable End – Snap Hook

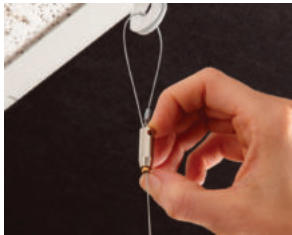

When properly swaged over 1/16" bare cable (sold separately), this fitting gives you a fixed snap hook at the end of your cable assembly. J-shaped, spring snap design offers multiple uses. Creates a quick and easy way to hang banners, displays, or even lighting and electrical fixtures. **Please note:** This fitting cannot be crimped with a hand swager tool. This must be factory installed (crimped) using a hydraulic press – please inquire with cable length(s) required. **Warning:** Not designed for lifting.

- 2-1/8" overall length
- When crimped onto cable, will extend cable assembly by approximately 1-1/2" per end
- .175" wire diameter
- 3/8" snap opening
- Zinc plated steel

ITEM #	FITS OVER	SAFE WORKING LOAD LIMIT
105113	1/16" (7x7) Bare Cable	25 lbs.

Have Kinter create your custom cable assembly for you. Just hang & go!

Bullet Style Cable Adjuster

Fast and easy way to form a loop with bare cable (sold separately) to suspend lightweight signs and fixtures vertically or at slight angles. "Bullet" shaped jacket contains an integrated wedge and spring that acts as both a cable release and a locking mechanism for easy height adjustments. **Warning:** Use only on bare cable (wire rope) in dry, indoor locations. Do not use on coated cable. Suspension of objects at angles reduces the safe working load limits (call for details).

- No special tools or setting keys required
- Reliable built-in 10 to 1 safety factor
- Nickel plated brass material
- Packaged 500 per bag

ITEM #	FOR USE WITH BARE CABLE DIA.	LENGTH	DIAMETER	SAFE WORKING LOAD LIMIT
105115	1/32" (3x7)	1"	5/16"	11 lbs.

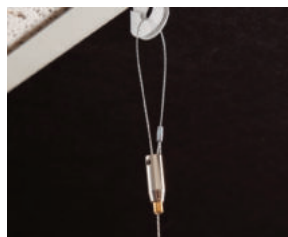

Bullet Style Cable & Adjuster Kits

Our economically priced self-locking "bullet" shaped cable adjuster with an attached looped end cable in a convenient kit. Easily raise or lower signs with no tools required. Adjustable hanging loop length of cable is a minimum of half its stated length and a maximum of its full stated length. 1/32" cable is great for lightweight applications. **Warning:** Use only in dry, indoor locations. Suspension of objects at angles reduces the safe working load limits (call for details).

- Cable is 1/32" dia. (3x7) galvanized steel
- Cable is permanently attached to adjuster on one end and has a 3/4" long loop & crimp on the other end
- Economy style cable adjuster that needs no special tool or setting key
- Cable with adjuster holds up to 11 lbs.
- Other cable lengths available upon request
- Each sealed, clear polybagged kit contains one adjuster and one cable, pre-assembled

ITEM #	CONTENTS	APPROX. LOOP LENGTH RANGE
105140	One Bullet Style Adjuster and One 5 ft. long Cable	2-1/2 ft. thru 5 ft.
105141	One Bullet Style Adjuster and One 10 ft. long Cable	5 ft. thru 10 ft.
105142	One Bullet Style Adjuster and One 20 ft. long Cable	10 ft. thru 20 ft.
105143	One Bullet Style Adjuster and One 30 ft. long Cable	15 ft. thru 30 ft.

Snap Hook Bottom Exit Cable Adjuster

Our least expensive snap hook cable lock. Quick and easy way to add an adjustable snap hook to bare cable (sold separately). Suspend lighting, signs and other fixtures vertically. Adjusters have a unique ball bearing push-button feature with bottom exit for easy height adjustments. Holes at top and bottom allow cable to traverse directly through. Lightweight, self-locking and reusable. **Warning:** Use only on bare cable (wire rope) in dry, low-humidity, indoor locations. Do not use on painted or coated cable. Suspension of objects at angles reduces the safe working load limits (call for details).

- 1-3/16" overall length with 13/64" snap opening
- Cable passes through the top and exits out the bottom
- No special tools or setting keys required
- Reliable built-in 5 to 1 safety factor
- Nickel plated zinc alloy and brass material
- Packaged 200 per bag

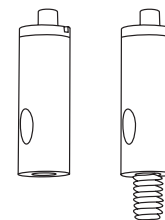

ITEM #	FOR USE WITH BARE CABLE DIA.	SAFE WORKING LOAD LIMIT
105159	1/32" (3x7)	7 lbs. (when used with 1/32" cable)
	or 1/16" (7x7)	or 30 lbs. (when used with 1/16" cable)

Threaded Side Exit Cable Adjuster

Choose between male (external) or female (internal) thread. Quick and easy way to add an adjustable threaded receiver fitting to bare cable (sold separately). Suspend lighting, signs and other fixtures vertically. Adjusters have a unique ball bearing push-button feature with integrated side exit for easy height adjustments. Lightweight, self-locking and reusable. Holes at top and on the side allow bare cable to pass through. **Warning:** Use only on bare cable (wire rope) in dry, low-humidity, indoor locations. Do not use on painted or coated cable. Suspension of objects at angles reduces the safe working load limits (call for details).

- Body is 1" long x .354" diameter
- Bottom of female adjuster has internally tapped 10-32 threading x 1/4" depth
- Bottom of male adjuster has 10-32 external threading x 5/16" long
- Cable passes through the top and exits out the side
- No special tools or setting keys required
- Reliable built-in 5 to 1 safety factor
- Nickel plated brass and/or steel material
- Packaged 200 per bag

#105157 #105161

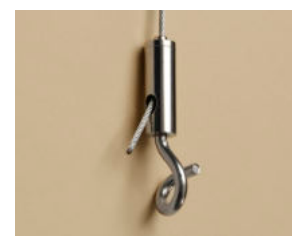

ITEM #	THREAD TYPE	FOR USE WITH BARE CABLE DIA.	SAFE WORKING LOAD LIMIT
105157	Female	1/32" (3x7) and 1/16" (7x7)	7 lbs. for 1/32" & 30 lbs. for 1/16"
105161	Male	1/32" (3x7) and 1/16" (7x7)	7 lbs. for 1/32" & 30 lbs. for 1/16"

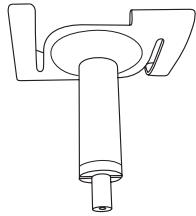

Pigtail Hook Side Exit Cable Adjuster

Versatile "pigtail" shaped open hook design that quickly and easily adds an adjustable hook to bare cable (sold separately). Suspend lighting, signs and other fixtures vertically. Adjusters have a unique ball bearing push-button feature with integrated side exit for easy height adjustments. Lightweight, self-locking and reusable. Holes at top and on the side allow bare cable to pass through. **Warning:** Use only on bare cable (wire rope) in dry, low-humidity, indoor locations. Do not use on painted or coated cable. Suspension of objects at angles reduces the safe working load limit (call for details).

- Body is 1" long x .354" diameter
- Pigtail shaped hook end is .140" wire diameter with a 3/16" hook opening x 13/16" overall length
- Cable passes through the top and exits out the side
- No special tools or setting keys required
- Reliable built-in 5 to 1 safety factor
- Nickel plated brass and steel material
- Packaged 200 per bag

ITEM #	FOR USE WITH BARE CABLE DIA.	SAFE WORKING LOAD LIMIT
105158	1/32" (3x7)	7 lbs. (when used with 1/32" cable)
	or 1/16" (7x7)	or 30 lbs. (when used with 1/16" cable)

Ceiling Twist Side Exit Cable Adjuster

Suspend lighting, signs and other fixtures directly to common drop-ceiling style grids in a vertical fashion. Twist-on-to-lock ceiling grid attachment design that quickly and easily allows for adjustment of bare cable (sold separately). Adjusters have a unique ball bearing push-button feature with integrated side exit for easy height adjustments. Holes on the top side and underside allow bare cable to pass through. **Warning:** Use only on bare cable (wire rope). Do not use on painted or coated cable. Not recommended for suspension of objects at angles.

- For use on standard 15/16" ceiling grid tee bars
- Turn and lock base is 1-1/2" long x 1" wide with 20 gauge steel painted white
- Cable adjuster body is 1" long x .354" diameter
- Cable passes through the bottom and exits out the side
- No special tools or setting keys required
- Reliable built-in 5 to 1 safety factor
- Nickel plated brass and steel material
- Packaged 100 per bag

ITEM #	FOR USE WITH BARE CABLE DIA.	SAFE WORKING LOAD LIMIT *
105160	1/32" (3x7) or	7 lbs. (when used with 1/32" cable)
	1/16" (7x7)	30 lbs. (when used with 1/16" cable)

* Rating is for cable adjuster only & is not for the ceiling grid. Consult ceiling grid weight specifications.

Looping Cable Adjuster

A fast and easy way to form loops with cable (sold separately) to suspend signs, lighting and other fixtures vertically or at slight angles. Adjusters have a unique ball bearing push-button feature for easy height adjustments. Lightweight, self-locking and reusable. **Warning:** Use only on bare cable (wire rope) in dry, low-humidity locations. Do not use on painted or coated cable. Suspension of objects at angles reduces the safe working load limits (call for details).

- #105155 measures 3/4" length x 3/4" width
- #105156 measures 1-3/16" length x 1-3/16" width
- No special tools or setting keys required
- Up to six (6) times faster to install than historical methods
- Reliable built-in 5 to 1 safety factor
- Aircraft quality aluminum material

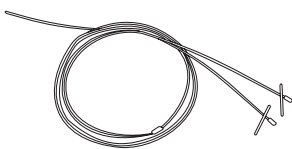

ITEM #	FOR USE WITH BARE CABLE DIAMETER	SAFE WORKING LOAD LIMIT	PACKAGED
105155	1/32" (3x7) and 1/16" (7x7)	15 lbs. for 1/32" & 75 lbs. for 1/16"	100 per bag
105156	3/32" (7x7) and 1/8" (7x7)	150 lbs. for 3/32" & 250 lbs. for 1/8"	50 per bag

"Y" Drop Style Cable Assemblies

Simple single point high bay environment ceiling suspender having two integrated leg end attachment points. Perfect for cable baskets and light fixtures. Two common branched leg end styles to choose from. Captive toggle paddle style is designed to conveniently fit into specific hole diameters of common light fixtures. Snap hook style is perfect for cable baskets and trays. Great for use in conjunction with our line of cable adjusters (sold separately – see above).

- Toggle ends are 1-1/2" overall length x 7/32" wide
- Snap hook ends are 3" overall length x 1/4" wire dia. with 5/8" snap opening
- Safe working load limit is 70 pounds
- Cable is 1/16" dia. (7x7) galvanized steel
- End fittings are zinc plated steel
- Other cable diameters and lengths available upon request

Cable & Adjuster Kits

Our highly popular self-locking cable adjuster with a looped end cable together in a convenient kit. Adjust height of signs easily with no tools required. 1/16" diameter cable is very strong. **Warning:** Use only in dry, indoor locations. Suspension of objects at angles reduces the safe working load limits (call for details).

- Cable is 1/16" dia. (7x7) galvanized steel and holds up to 75 lbs.
- Cable is straight cut on one end and has a 3/4" long loop on the other end
- Other cable lengths available upon request
- Each sealed, clear polybagged kit contains one adjuster and one cable, unassembled

104016	#10	.175"	250 ft.

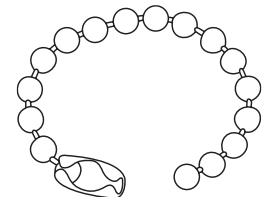

Beaded Chain Assemblies

Our most popular lengths of attractive beaded (ball) chain assemblies with factory installed single connector end. Well suited for use on bulky loose leaf material, swatches or samples, or on signs and promotions. Chain clips together for a secure, fixed length. **Warning:** Connector end may be difficult to link.

- Various lengths available in common #3, #6 and #10 ball chain sizes
- Chains are linkable to make longer chains
- Optional accessories sold separately
- Also available with coupling end for forming adjustable length loops – please inquire
- Custom lengths, colors and finishes available
- Silver nickel plated steel

ITEM #	TRADE SIZE	BALL DIAMETER	OVERALL LENGTH
102049	#3	.093"	4"
102050	#3	.093"	6"
102051	#3	.093"	12"

102055	#6	.125"	24"
102056	#10	.175"	6"
102057	#10	.175"	12"
102058	#10	.175"	24"

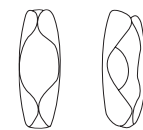

Beaded Chain Accessories

All accessories work in conjunction with our line of beaded/ball chain (sold separately). Connector ends (also known as Links or Clasps) have a solid back and are the most common by simply offering an end attachment at a fixed length. Coupling ends work the same as connector ends, but are more versatile by also offering an integrated, oversized back hole for creating optional adjustable loops. Both types are great when used as connectors for splicing links of beaded chain together for endless assemblies. **Warning:** Connectors and/or couplings may be difficult to link.

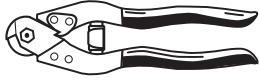

- Connectors have a solid backing and are small in size
- Couplings have a hollow, open backing and are a bit larger in size
- Both connectors and couplings are linkable and can be used to make longer chains
- Silver nickel plated metal

ITEM #	CHAIN SIZE	END TYPE	LENGTH

Connector Adjustable Coupling

Steel Cable (Wire Rope) Cutter

Top quality, pocket sized cutter. Use for hand cutting of wire rope and jack chain up to 3/16" diameter. Triangular shear cut blades allow for a clean, sharp end cut without crushing, deforming or fraying.

- High quality alloy steel with formed vinyl coated handles
- Packaged individually

ITEM #	CUTTING CAPACITY	OVERALL LENGTH
105050	up to 3/16" Dia.	8"

NEW

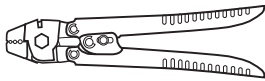

Economy Hand Swager

Our most economical cable tool, yet versatile. Use for hand compression of 1/32", 3/64" and 1/16" aluminum and copper cable sleeves (crimps) and stops. Make three presses (swaged areas) per sleeve. **Warning:** Swaging of fittings over coated cable will result in severely reduced holding power.

- Comfortable, no-slip handle grips
- Locks closed for storage
- High-grade steel, zinc plated

ITEM #	SWAGING CAPACITY	OVERALL LENGTH
105051	1/32," 3/64" or 1/16"	10"

Three Cavity Hand Swager

Multi-cavity tool for use on a variety of common, smaller diameter cables. Use for hand compression of 1/32", 3/64" and 1/16" aluminum and copper cable sleeves (crimps) and stops. Make three presses (swaged areas) per sleeve. Tool also has built-in cable cutter. **Warning:** Swaging of fittings directly over coated wire rope will result in severely reduced holding power.

- Heat treated forged alloy steel jaws
- Packaged individually

ITEM #	SWAGING CAPACITY	OVERALL LENGTH
105052	1/32", 3/64" & 1/16"	10"

Five Cavity Heavy Duty Swager

Multi-cavity tool for use on a variety of common, larger diameter cables. Use for hand compression of 1/16", 3/32", 1/8", 5/32" and 3/16" aluminum and copper cable sleeves (crimps) and stops. Make three presses (swaged areas) per sleeve. Tool also has built-in cable cutter (7/32" maximum cut).

Warning: Swaging of fittings directly over coated wire rope will result in severely reduced holding power.

- Heat treated forged alloy steel jaws
- Packaged individually

Cable & Chain

**K-Stick™ Ladderless
Sign Hanging System**

REDUCE RISK AND COSTS WITH THE **K-STICK LADDERLESS SIGN HANGING SYSTEM**

K-Stick is versatile, lightweight and works with all ceiling types, windows and walls. No wonder K-Stick is eliminating ladder falls in over 15,000 retail locations nationwide. For your FREE K-Stick Sample Kit go to kstick.com or call 800.323.2389.

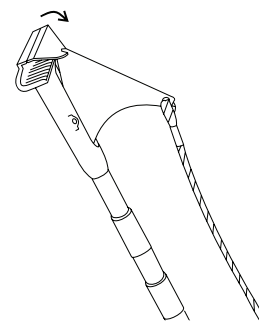

K-Stick™ Ladderless Sign Hanging System

K-Stick® Ladderless Pole

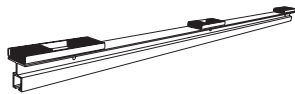

Hang, remove or rotate ceiling, wall and window signs and banners from ground level, without the need for a ladder. Quick and safe! Fixed single length economy style or smooth telescopic poles for use with all of our magnetic, cleat or hook style ladderless sign hanging system holders and accessories. Each K-Stick includes our **Patented & Patent Pending** "easy pivot" 6-1/4" long green plastic gripper pole end with attached yellow braided pull cord (some minor assembly required; instruction sheet included). For best sign hanging results, keep the pole vertical as it is extended to the ceiling. Use two or more poles when raising or lowering larger signs.

- Otherwise known as Installation Poles or Extension Poles
- Integrated 3/4" diameter reinforced acme threaded black plastic end/tip
- Clear satin anodized finish with black hand grip
- Telescopic styles offer reliable twist-lock features
- Sold as a full unit only – separate replacement parts are not available
- Lightweight aluminum material

Ladderless Magnetic Banner Hanger

A safe and simple way to hang signs and banners from metal ceiling grids/surfaces that are up to 23 feet in height. One piece, strong magnetic design with integrated holes and a “C” channel bottom track that accepts various sign hanging options such as plastic and metal hooks, clips, rings, cable or chain (all sold separately). For use from ground level with our K-Stick Ladderless Poles (see page 277). Simply pick a sign hanging option, attach to both the hanger and the edge of the graphic, elevate, align into position and release – it’s that easy! Removable and reusable – all safely from floor level. **Warning:** Metal conditions will affect holding power. Magnets should not be used near electronic equipment. **Patented.**

- 7/8" wide x 1-1/8" overall height (including attached ceramic magnets)
- Three 3/16" diameter hanging holes (two end holes and one center hole)
- Not recommended for use on ceiling grid perimeters
- Custom lengths and colors available – please inquire
- White PVC with nickel plated steel magnets

Ladderless 360 Degree Magnetic Banner Hanger

A safe and simple way to hang signs and banners from metal ceiling grids/surfaces that are up to 23 feet in height. Unlike our stationary ladderless options, this hanger turns a full 360 degrees, thus allowing your signage to be faced at optimal viewing angles. Strong magnetic design with integrated holes and a “C” channel bottom track that accepts various sign hanging options such as plastic and metal hooks, clips, rings, cable or chain (all sold separately). For both placing and pivoting from ground level, use our K-Stick Ladderless Poles (see page 277). Simply pick a sign hanging option, attach to both the hanger and the edge of the graphic, elevate, align into position and release – it’s that easy! Removable and reusable – all safely from floor level. **Warning:** Metal conditions will affect holding power. Magnets should not be used near electronic equipment. **Patented.**

- 1-1/8" wide x 1-5/8" overall joined height (including attached ceramic magnets)
- Two 3/16" diameter hanging holes (one at each end)
- Not recommended for use on ceiling grid perimeters
- Custom lengths and colors available – please inquire
- White PVC with nickel plated steel magnets

Ladderless Magnetic Banner Hanger – Heavy Duty

An even stronger version of our popular Ladderless Magnetic Banner Hanger. With three separate 3" long ceramic magnets attached closer together, this heavy duty banner hanger will stand up to any competitor’s neodymium magnetic holders. A safe and simple way to hang larger, heavier signs from metal ceiling grids/surfaces that are up to 23 feet in height. One piece, strong magnetic design with attached end cap retainers, integrated holes and a “C” channel bottom track that accepts various sign hanging options such as metal hooks, clips, rings, cable or chain (all sold separately). For use from ground level with our K-Stick Ladderless Poles (see page 277). Simply pick a sign hanging option, attach to both the hanger and the edge of the graphic, elevate, align into position and release – it’s that easy! Removable and reusable – all safely from floor level. **Warning:** Metal conditions will affect holding power. Magnets should not be used near electronic equipment. **Patented.**

- 7/8" wide x 1-1/8" overall height (including attached ceramic magnets)
- Three 3/16" diameter hanging holes (two end holes and one center hole)
- Attached white end cap retainers included
- For best strength results, hang signs from the two end holes or in a sling-like fashion – please inquire
- Not recommended for use on ceiling grid perimeters or with our Ladderless Mounting Plates
- Custom colors available
- White PVC with nickel plated steel magnets

ITEM #	LENGTH	NUMBER OF MAGNETS	SAFE WORKING LOAD LIMIT *

Ladderless Magnetic “C” Channel Banner Hanger

When used with our Ladderless Mounting Strips (sold separately), this ingenious 90 degree sign hanger makes it both safe and simple to magnetically hang and display signs and posters from the inside of window frames. Can also be used in conjunction with our Ladderless Mounting Plates (sold separately) to hang signs directly from drywall ceilings. Also works well on ceiling grids and the lip of ceiling grid perimeters. One piece, strong magnetic design with integrated holes and a “C” channel bottom track that accepts various sign hanging options, such as plastic and metal hooks, clips, rings, cable or chain (all sold separately). Also use in conjunction with our Plastic Banner Dowel Rod (sold separately) to display sewn/hemmed fabric or vinyl banners for a clean finished appearance. For use from ground level with our K-Stick Ladderless Poles (see page 277). Removable and reusable – all safely from floor level. **Warning:** Metal conditions will affect holding power. Magnets should not be used near electronic equipment. **Patented.**

- 2" wide x 2" overall height (including attached ceramic magnets)
- Three 3/16" diameter hanging holes (two end holes and one center hole)
- Not recommended for outdoor use

Ladderless Magnetic Gripper Apollo Banner Hanger

When used with our Ladderless Mounting Strips (sold separately), this ingenious, 90 degree hinged sign hanger makes it both safe and simple to magnetically hang and display signs and posters from the inside of window frames. Can also be used in conjunction with our Ladderless Mounting Plates (sold separately) to hang signs directly from drywall ceilings. Also works well on ceiling grids and the lip of ceiling grid perimeters. For use from ground level with our K-Stick Ladderless Poles (see page 277). Designed to quickly and easily attach a banner to the hanger. Just snap open, insert sign and snap down to close. Removable and reusable – all safely from floor level. **Warning:** Metal conditions will affect holding power. Magnets should not be used near electronic equipment. **Patented.**

- 2" wide x 1-7/8" overall height (including attached ceramic magnets)
- Not recommended for outdoor use
- Custom lengths and colors available – please inquire
- White PVC with nickel plated steel magnets

Magnetic Ladderless Ceiling Clip & Cord

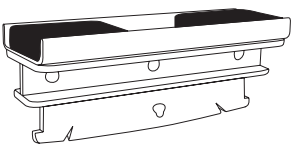

A magnetic version of our highly popular Ceiling Twist Clip & Cord. Use to suspend lightweight signs, mobiles, banners and seasonal decorations. Easily attaches magnetically to ceiling grids or other exposed metal overhead ceiling fixtures/supports. Unravel wound barbed cord to desired length. Built-in slits allow for micro adjustments of cord lengths for even hanging. Works with our K-Stick Ladderless Poles (see page 277) for simple installation and removal from ground level. **Warning:** Always test suitability on a per-application basis. Metal conditions will affect holding power. Magnets should not be used near electronic equipment. **Patented.**

- 3" long x 7/8" wide x 1-1/4" overall height (including attached ceramic magnet)
- Clip has three evenly spaced .156" diameter holes
- Also available with black cord – please inquire
- White styrene clip with nickel plated steel magnet

Magnetic Ladderless Ceiling Clothes Hanger Adapter

A safe and simple way to suspend and display varieties of garments for any occasion, message or season. This inexpensive hanger adapter easily attaches magnetically to ceiling grids or other exposed metal overhead ceiling fixtures/supports. Further, when combined with our Ladderless Mounting Strips (see page 288), this ingenious hanger also makes it easy to place or change out clothes from the inside of window frames. For use from ground level with our K-Stick Ladderless Poles (see page 277). Create full 360 degree optimal clothing viewing angles by combining with swiveling hook clothes hangers (not included). For extra hanging length from taller ceilings or windows, simply combine with our Block End Hooks and/or End Cap Retainers (see page 289). **Warning:** Metal conditions will affect holding power. Magnets should not be used near electronic equipment.

- 7/8" wide x 6" long x 1-1/8" overall height (including attached ceramic magnets)
- .406" long slotted hole size on one end for hooking of clothes hanger
- Can be used with either stationary (non-swiveling) or swivel hook style clothes hangers – not included
- Not for use with oversized plastic clothes hangers or with our line of ladderless mounting plates for drywall ceilings
- White PVC with nickel plated magnets
- Custom colors also available – please inquire

ITEM #	LENGTH	NUMBER OF MAGNETS	SAFE WORKING LOAD LIMIT *

Ladderless Stackable Spiral Sign Board

Add promotional signs or change pricing easily. Removable and reusable – all safely from floor level. When used with our Ladderless Magnetic Gripper Banner Hanger #220561 and our Stackable Push-In Fastener #120411 (both sold separately) this modular, double sided sign board holds and displays common Spiral Sign Board Pads (also sold separately – see page 92). Side-access spiral sign pads insert and remove easily to change prices. Attach one spiral sign board to another in a “ladder” fashion to create dual messaging, or combine with our Stackable “C” Channel Sign Board(s) to add single or multiple top/bottom sign inserts. **Warning:** Each sign board connection must be securely held together with our Stackable Push-In Fasteners #120411. **Patented.**

- Two 1/4" diameter top mounting/hanging holes (one at each end)
- Upper mounting track section holds common 3/8" diameter spiral bound sign pads
- Lower “J” style mounting track section holds pads up to 5/32" thick
- Also accepts 8-1/4" tall sign inserts up to 5/32" thick
- Custom colors, lengths, heights or one sided boards also available – please inquire
- White high impact polystyrene (HIPS) material

ITEM #	OVERALL LENGTH	OVERALL HEIGHT	FOR SPIRAL SIGN PADS
220651	26"	9-3/8"	8" Tall

Shown with “C” Channel Board

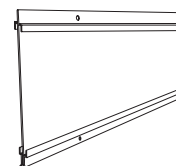

Ladderless Stackable “C” Channel Sign Board

Add promotional signs or change message inserts easily. Removable and reusable – all safely from floor level. When used with our Ladderless Magnetic Gripper Banner Hanger #220561 and our Stackable Push-In Fastener #120411 (both sold separately) this modular, double sided track holds and displays multi-pricing inserts and directory or aisle identification signs. Attach one “C” channel sign board to another in a “ladder” fashion to create dual messaging, or combine with our Stackable Spiral Sign Board(s) to add single or multiple top/bottom spiral bound pricing information.

Warning: Each sign board connection must be securely held together with our Stackable Push-In Fasteners #120411. **Patented.**

- Two 1/4" diameter top mounting/hanging holes (one at each end)
- Open face design on both sides accepts 5-1/2" tall signs that are up to 3/32" thick
- For taller signs simply use multiple stacked channels
- Custom colors, lengths, heights or one sided boards also available – please inquire
- White high impact polystyrene (HIPS) material

ITEM #	OVERALL LENGTH	OVERALL HEIGHT	FOR SIGN INSERTS
220626	26"	6-5/8"	5-1/2" Tall

Shown with Spiral Board

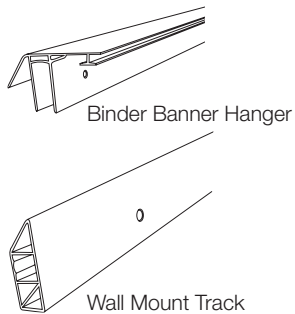

Stackable Push-In Fastener

Use to connect our line of modular “C” channel and spiral sign boards to each other in a “ladder” fashion (one below the other), or to make each “ladderless” by attaching to our Magnetic Gripper Banner Hanger #220561 – all sold separately. Acts as a cross-member when pressed into mating holes along the top or bottom edges of our family of stackable message boards. Hollow body design allows the clip to compress when pushed into hole, then expand back for a secure hold that resists removal. No tools required. Removable and reusable.

- Press fit into 5/32" diameter pre-drilled/punched holes
- Proper installation occurs when the head is seated completely to the mating sign board or banner hanger
- Natural 6/6 nylon material
- Also available in black or special colors – please inquire

ITEM #	SHANK LENGTH	HEAD O.D.	HEAD STYLE
120411	.530"	.270"	Round

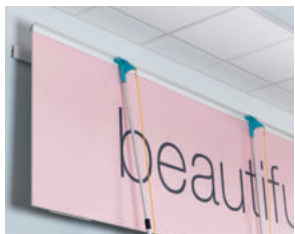

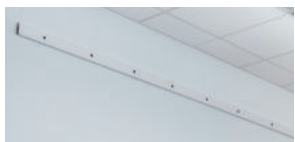

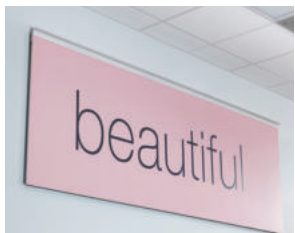

Ladderless Binder Cleat Wall Banner Hanger

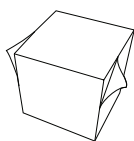

Are you looking to mount large signs directly to walls? If so, we have the solution! This ingenious two piece, interlocking wedge-shaped banner hanger assembly makes it safe and simple to display and change out signs of almost any size directly from walls. Each assembly consists of one wall mount track and one binder banner hanger piece – both sold separately. Simply prep the wall by screwing the wall mount track piece to the wall (mounting hardware included) and then fasten the binder banner hanger piece onto the top edge of the sign (barrel bolt and screw fastening hardware included) and gravity does the rest. Signs hang approximately 1 inch offset from wall which, when combined at the bottom of the sign with our #150675 Square Foam Blocks (see below), creates a handsome dimensional effect. Removable and reusable – all safely from floor level. For use from ground level with our K-Stick Ladderless Poles (see page 277). **Warning:** Not recommended for outdoor use. Wall mount track must be firmly attached to wall. Male and female barrel bolt fastening hardware must be fully screwed together. **Patented.**

- Wall mount track and binder banner hanger piece are each sold separately
- Wall mount track has holes at 16" on center and comes with toggle screw anchors, stud screws and an instruction sheet
- Pre-drilling of holes for wall mount track is required (drill bit sold separately – see page 291)
- Wall mount track piece is 3" tall x 1" wide
- Binder banner hanger piece has multiple 5/16" diameter holes – please inquire for recommended sign hole size and placement
- Binder banner hanger piece comes with white painted steel male and female barrel bolt fastening hardware and an instruction sheet
- Binder banner hanger piece is 1-3/4" tall x 2-1/2" wide
- Custom colors and lengths available – please inquire
- White PVC material

* For larger, heavier signs over 5 pounds it is possible to have two or more individuals, each with a K-Stick, raise or lower simultaneously (call for details).

Foam Block Stand-Off

Foam block stand-offs add dimension to displays and signage. Used to create a 3-D effect that makes your graphics stand out. Place foam blocks 1"-2" from the edge of your graphic to create multi-layered displays for added depth. Can also be used to create gondola shelf wobblers or aisle violators.

- 1" H x 1" W x 1" L square blocks
- Permanent adhesive on two opposing sides – simply peel and stick
- Can be stuck together to create longer stand-offs
- White foam material
- 36 kiss-cut blocks per sheet
- Sold in full sheets only

Ladderless “C” Channel Cleat Wall Banner Hanger

Are you looking to hang large vinyl, sewn/hemmed banner type signs directly from walls? If so, we have the solution! This ingenious two piece, interlocking wedge-shaped banner hanger assembly makes it safe and simple to display and change out banners of almost any size directly from walls. Each assembly consists of one wall mount track and one banner hanger piece – both sold separately. Also requires our Plastic Banner Dowel Rod (sold separately – see page 288) to display sewn/hemmed fabric or vinyl banners for a clean finished appearance. “C” channel bottom section also accepts various sign hanging options, such as plastic block end hooks or our line of ladderless clips. Simply prep the wall by screwing the wall mount track piece to the wall (mounting hardware included) and then fasten the “C” channel hanger piece onto the top edge of the banner and gravity does the rest. Signs hang approximately 1 inch offset from wall which creates a handsome dimensional effect. Removable and reusable – all safely from floor level. For use from ground level with our K-Stick Ladderless Poles (see page 277). **Warning:** Not recommended for outdoor use. Wall mount track must be firmly attached to wall. **Patented.**

- Wall mount track and “C” channel banner hanger piece are each sold separately
- Wall mount track has holes at 16" on center and comes with toggle screw anchors, stud screws and an instruction sheet
- Pre-drilling of holes for wall mount track is required (drill bit sold separately – see page 291)
- Wall mount track piece is 3" tall x 1" wide
- “C” channel banner hanger piece accepts our line of Plastic Banner Dowel Rods (sold separately – see page 288)
- “C” channel banner hanger piece is 1-3/4" tall x 2-1/4" wide
- Custom colors and lengths available – please inquire
- White PVC material

Ladderless Cleat Banner Hanger For Glass

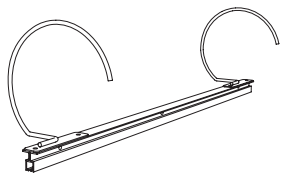

Are you looking to mount signs directly to glass and windows? If so, we have the solution! This ingenious two piece, interlocking wedge-shaped banner hanger assembly makes it safe and simple to display and change out signs and posters directly from glass surfaces. Each assembly consists of one suction cup track piece and one banner hanger piece – both sold separately. Simply prep the window by affixing the suction cup track piece to the glass and then slide the Atlas friction fit banner hanger piece onto the top edge of the graphic and gravity does the rest. For use from ground level with our K-Stick Ladderless Poles (see page 277). Removable and reusable – all safely from floor level.

Warning: Suction cup release tabs must not face directly upward or mating banner hanger may catch and cause cups to release. Apply cups to clean, non-porous surface for best results. **Patented.**

- Suction Cup Track and Atlas Banner Hanger are each sold separately
- Suction cup track piece comes with 2-1/2" O.D. pre-assembled suction cups, measures 1-1/2" in total height, and requires a minimum of 2-1/2" of clearance from the top of window frame
- Atlas friction fit banner hanger piece is 2" wide x 1" overall height
- Not recommended for outdoor use
- Custom colors and lengths available – please inquire
- Clear PVC material

Ladderless Hook Banner Hanger

A safe and simple way to hang signs and banners from exposed metal overhead ceiling fixtures or supports that are up to 23 feet in height. One-piece, strong shepherd shaped open hook design with integrated holes and a "C" channel bottom track that accepts various sign hanging options such as plastic and metal hooks, clips, rings, cable or chain (all sold separately). For use from ground level with our K-Stick Ladderless Poles (see page 277). Two hook sizes available: larger diameter "standard" hooks are ideal for hanging from larger fixtures; smaller diameter "mini" hooks are great when hanging from smaller ceiling fixtures or supports of 1-1/4" diameter or less. Simply pick a sign hanging option, attach to both the hanger and the edge of the graphic, elevate, hook into position and release. Removable & reusable – all safely from floor level. **Patented.**

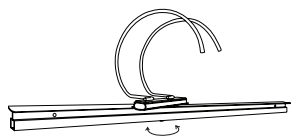

Optional Mini Hook shown

- 7/8" wide x 15/16" height extrusion size
- Attached .148" diameter wire metal shepherd shaped hooks are available in two different sizes
- Three 3/16" diameter hanging holes (two end holes and one center hole)
- Custom lengths and colors available – please inquire
- White PVC with zinc plated metal hooks

Ladderless 360 Degree Hook Banner Hanger

A safe and simple way to hang signs and banners from exposed overhead ceiling fixtures or supports that are up to 23 feet in height. Unlike our stationary ladderless options, this hanger turns a full 360 degrees, thus allowing your signage to be faced at optimal viewing angles. Two hook sizes available: larger diameter "standard" hooks are ideal for hanging from larger fixtures; smaller diameter "mini" hooks are great when hanging from smaller ceiling fixtures or supports of 1-1/4" diameter or less. Strong shepherd open hook design with integrated holes and a "C" channel bottom track that accepts various sign hanging options such as plastic and metal hooks, clips, rings, cable or chain (all sold separately). For both placing and pivoting from ground level, use our K-Stick Ladderless Poles (see page 277). Simply pick a sign hanging option, attach to both the hanger and the edge of the graphic, elevate, hook into position and release. Removable & reusable – all safely from floor level. **Patented.**

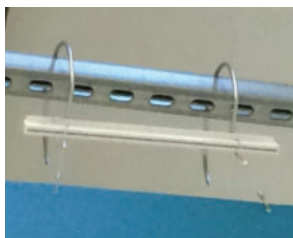

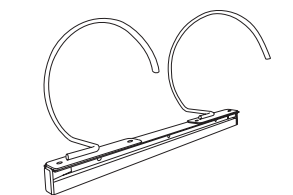

- 1-1/8" wide x 1-7/16" height joined extrusion size
- Attached .148" diameter wire metal shepherd shaped hooks are available in two different sizes
- Two 3/16" diameter hanging holes (one at each end)
- Custom lengths and colors available – please inquire
- White PVC with zinc plated metal hooks

Ladderless Hook Banner Hanger – Heavy Duty

An even stronger version of our popular Ladderless Hook Banner Hanger. By simply placing our shepherd shaped open hooks closer together, this heavy duty banner hanger is a safe and simple way to hang larger, heavier signs from exposed overhead ceiling fixtures or supports that are up to 23 feet in height. Two hook sizes available: larger diameter "standard" hooks are ideal for hanging from larger fixtures; smaller diameter "mini" hooks are great when hanging from smaller ceiling fixtures or supports of 1-1/4" diameter or less. One-piece, strong hook design with attached end cap retainers, integrated holes and a "C" channel bottom track that accepts various sign hanging options such as metal hooks, clips, rings, cable or chain (all sold separately). For use from ground level with our K-Stick Ladderless Poles (see page 277). Simply pick a sign hanging option, attach to both the hanger and the edge of the graphic, elevate, hook into position and release. Removable & reusable – all safely from floor level. **Patented.**

- 7/8" wide x 15/16" height extrusion size
- Attached .148" diameter wire metal shepherd shaped hooks are available in two different sizes
- Three 3/16" diameter hanging holes (two end holes and one center hole)
- Attached white end cap retainers included
- For best strength results, hang signs from the two end holes or in a sling-like fashion – please inquire
- Custom colors available
- White PVC with zinc plated metal hooks

ITEM #	LENGTH	HOOK STYLE	HOOK I.D.	# OF HOOKS	SAFE WORKING LOAD LIMIT *
220519	14"	Standard	6"	2	5 lbs. (when used with K-Stick Pole) or 8 lbs. (without K-Stick Pole)
220489	14"	Mini	2-1/2"	2	5 lbs. (when used with K-Stick Pole) or 8 lbs. (without K-Stick Pole)

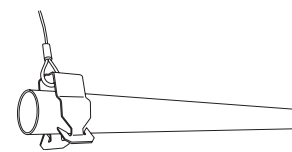

* Safe working load limit is based on a single banner hanger having a minimum of two sign hanging points

Adjustable Trapeze Banner Hanger System

Permanently lower your reach on very high ceilings to easily accessible heights. A quick and inexpensive way to suspend signs and displays horizontally from exposed solid or split beam open style warehouse ceilings. Can be used with our full line of Ladderless Hook Banner Hangers, or can be combined with Pear Clips or Snap Rings (sold separately) to lock signs into place. Also great for displaying sewn/hemmed fabric or vinyl banners. No tools required. Each complete assembly requires one support tube and two or more cable assemblies – each sold separately. Each cable assembly includes our highly popular self-locking cable adjuster with a looped cable end assembly connected to a snap-on conduit hanging clip together in a convenient polybagged kit. **Warning:** Use only in dry, indoor locations with conduit hanging clips placed a minimum of 3/4" inward from each end on the support tube.

- Cable is 1/16" dia. (7x7) galvanized steel x 30 ft. long
- Conduit hanging clip is 3/4" wide x 1-5/8" long and is made of spring steel with zinc plate
- Round support tube is rigid 3/4" EMT conduit (.922" O.D.) x .049" metal wall thickness, painted white
- 10 ft. support tube requires an additional cable assembly hanging point located in the middle
- Other cable and support tube lengths and colors available – please inquire

360 Degree Trapeze Banner Hanger Adapter Kit

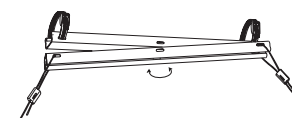

Ingenious flush mount trapeze adapter that can be used to place, support and pivot our Adjustable Trapeze Banner Hanger System (sold separately) from exposed metal overhead fixtures or supports. Unlike our stationary adjustable trapeze, this hanger turns a full 360 degrees, thus allowing signs to be faced at optimal viewing angles. Two-piece, strong pivoting "U" track design with integrated slotted holes that accept our mounting hose clamps (included) on the top and our trapeze system cable assemblies (sold separately) on the bottom. Simply attach the top side directly to an exposed solid or split beam open style warehouse ceiling support with the included hose clamps and then pass the cables from our Adjustable Trapeze Banner Hanger System through the bottom holes – it's that easy!

Warning: Hose clamps must be firmly fastened and locked to the overhead fixture or support. Use only in dry, indoor locations.

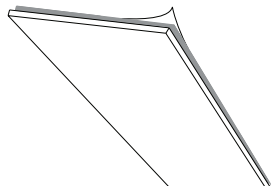

- 1-5/8" wide x 1-5/8" height joined pivoting "U" track assembly
- Three 3/16" height x 5/8" long slotted holes on each "U" track
- Two 1/2" wide x 1-3/4" through 7-3/4" diameter grip range stainless steel mounting hose clamps included with an instruction sheet
- Slotted screwdriver for hose clamps required (sold separately – see page 291)
- .060" metal wall thickness painted white

ITEM #	OVERALL LENGTH	NUMBER OF HOLES	SAFE WORKING LOAD LIMIT *
220033	18"	3 per track	16 lbs.

* Includes the weight of the trapeze banner hanger system being used

Ladderless Mounting Strip

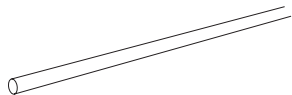

Are you looking to hang signs from window frames/sills that are not magnetically receptive, such as frames made of finished wood, vinyl or aluminum? If so, we have the solution! This inexpensive, adhesive-backed steel strip attracts magnets and can be used with our line of ladderless magnetic banner hangers. Simply peel and stick to almost any clean, flat surface. Can also be attached to existing magnetic window frame strips for added strength. Use multiple strips to create unlimited lengths. **Warning:** Do not attach directly to glass, as glass could break during use.

- For use on front face or underside of the top of indoor window frames
- Not recommended for outdoor use
- Black acrylic based adhesive-backed liner
- Custom lengths and colors available – please inquire
- .024" thick white painted steel

ITEM #	OVERALL LENGTH	WIDTH
220121	26"	1"
220122	36"	1"
220123	48"	1"

Plastic Banner Dowel Rod

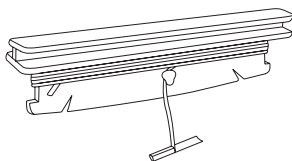

Use to economically display sewn/hemmed fabric or vinyl banners. Simply slide this round rigid plastic dowel into the sleeve of an edge sewn graphic and then into the inside track of our Ladderless Magnetic "C" Channel Banner Hanger (page 279). Also works great with our Elliptical Aluminum Hanger, our Round and Square Plastic Hangers, and our Vinyl Graphic Banner Hanger Tracks (all sold separately). Unlike wooden dowels, plastic dowels are extruded smooth with no chance of splinters. For longer lengths, use two or more dowels end to end.

- 1/4" diameter solid rigid dowel
- Use with end caps (sold separately) for a clean, finished appearance
- Dowels are always produced 1/8" shorter than below stated lengths to assure a proper fit
- Custom lengths available – please inquire
- White acrylic material

ITEM #	LENGTH	DIAMETER	COLOR
220201	24"	1/4"	White
220202	26"	1/4"	White
220203	36"	1/4"	White
220200	48"	1/4"	White

Ladderless "C" Channel Clip & Cord

A friction fit version of our highly popular Ceiling Twist Clip & Cord. Used to suspend signs, mobiles, banners and seasonal decorations directly from the track of our full line of Ladderless Magnetic and Ladderless Hook Banner Hangers that have an integrated bottom "C" channel. Two styles to choose from: a lightweight standard duty or a stronger heavy duty option. Unravel wound barbed cord to desired length. Built-in slits allow for micro-adjustments of cord lengths for even hanging.

Patented.

- The standard style clip is 3" long x 3/4" overall height with a light duty cord and a 5/8" long metal barb
- The heavy duty style clip is 4" long x 1" overall height with a heavy duty cord and a 7/8" long metal barb
- Clip is white styrene material
- Also available with black cord – please inquire
- Packaged 50 per bag

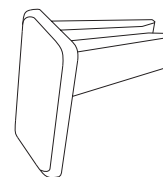

ITEM #	CORD LENGTH	CORD COLOR	CORD MATERIAL	STYLE	SAFE WORKING LOAD LIMIT *
220080	10 ft.	White	Braided Polyester	Standard	2 lbs.
220080C	10 ft.	Clear	Monofilament	Standard	2 lbs.

* Safe working load limit is based on a single banner hanger having a minimum of two sign hanging points

Ladderless End Cap Retainer

Friction fits directly onto the neck area of our line of ladderless magnetic and hook banner hangers, as well as our Vinyl Graphic Banner Hanger Tracks, that have an integrated bottom “C” channel. Provides a decorative end “stop” that helps retain hanging hardware, adapters or spiral signs/pads within the “C” channel bottom track.

- 7/8" height x 1/2" width
- External legs are 3/4" long
- Textured face
- Rectangular shape
- White polycarbonate material

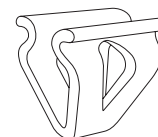

ITEM #	FOR USE WITH
220005W	Ladderless Sign Hanging Tracks

Ladderless Multi-Use Hanger Clip

Slides directly into the bottom track of our line of ladderless magnetic and ladderless hook banner hangers that have an integrated bottom “C” channel and provides an adjustable hanging point. Works in conjunction with our family of plastic and metal double “C” hooks, locking hooks, rings and clips (all sold separately). **Warning:** Not recommended for use with barbed cords unless the cord is tied through the center hole.

- 5/8" height x 5/8" width
- 13/64" diameter teardrop shaped hole
- Clear polycarbonate material
- Packaged 100 per bag

ITEM #	FOR USE WITH
220100	Ladderless Sign Hanging Tracks

Ladderless Block End Hooks

Slides directly into the bottom track of our line of ladderless magnetic and ladderless hook banner hangers that have an integrated bottom “C” channel. Fixed length clear plastic open end hook that hangs signs level. Integrated block end hole allows hooks to be linked together for multiple lengths.

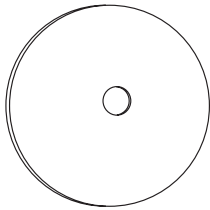

- 5/32" diameter
- 1/4" shepherd shaped hook opening on one end
- Minimum recommended panel hole size is 13/64"
- Clear polycarbonate material
- Packaged 50 per bundle

ITEM #	OVERALL LENGTH	FOR USE WITH
220250	4-1/4"	Ladderless Sign Hanging Tracks
220252	12"	Ladderless Sign Hanging Tracks
220251	16"	Ladderless Sign Hanging Tracks

Hooks can be “laddered” onto each other for extended lengths

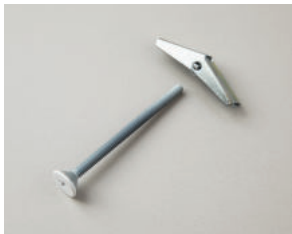

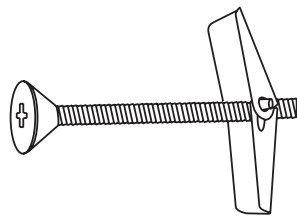

Ladderless Mounting Plates

Are you looking to magnetically hang signs from ceilings, walls or perimeter soffits, but do not have ceiling grids or other exposed metal fixtures/supports? If so, we have the solution! This inexpensive round disk creates a magnetically-receptive surface almost anywhere. For use on ceilings or walls, and can be used with our full line of ladderless magnetic banner hangers. When combined with our Ladderless Toggle Screw Mounting Plate Anchor or Mounting Plate Stud Screw (sold separately), these metal plates are great for use on drywall, wallboard, wood, paneling, plaster, block and other hollow base materials. **Patented.**

- Use one plate at 11 inches on center for each banner hanger magnet (not for use with our #220517 Heavy Duty Hanger)
- For use on both ceilings and walls
- Additional colors and finishes available – please inquire
- .033" thick zinc plated (silver) or white painted steel

ITEM #	I.D.	O.D.	FINISH
220115	9/16"	4"	Zinc Plate
220115W	9/16"	4"	White

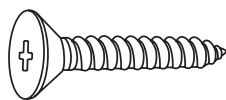

Ladderless Toggle Screw Mounting Plate Anchor

Two-piece, heavy duty anchor for extra holding power, used in conjunction with our Ladderless Mounting Plates (sold separately). Great for use in ceilings, walls or perimeter soffits made of plaster, paneling, drywall, block or other types of hollow wall materials. Pre-drilling of holes is required. Simply put the screw through the mounting plate, thread toggle wing onto screw, fold wings back, insert anchor through pre-drilled hole until wings spring open and then firmly tighten screw.

- Toggle wings are 10-24 (3/16") x 2-1/8" overall length
- Screw has a flush, low profile Phillips countersunk head
- Hole drill size is 1/2" (drill bit sold separately – see page 291)
- Both screws and toggle wings are zinc plated (silver) steel
- Parts come unassembled
- Other colors available – please inquire
- Packaged 50 screws and 50 toggle wings per bag

ITEM #	SCREW DIAMETER	SCREW LENGTH	SCREW HEAD FINISH
220114	10-24 (3/16")	3"	Zinc Plate
220114W	10-24 (3/16")	3"	White

Ladderless Mounting Plate Stud Screw

One-piece, coarse thread screw anchor for use in conjunction with our Ladderless Mounting Plates (sold separately). Features a sharp point that engages right into wood studs to create a strong hold. Use in place of our two-piece toggle screw mounting plate anchor for instances when hollow walls or hollow ceilings are not available. Include in hardware kits as an anchoring option for when wood studs may be encountered. Pre-drilling of holes is required. Simply insert the screw through the mounting plate and screw flush into wood studs or solid wood surfaces – it's that easy. **Warning:** Not designed for use on metal studs or in hollow wall materials (such as wallboard or drywall) unless wood studs are directly encountered.

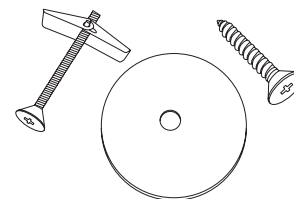

- Screw has a flush countersunk head with a Phillips drive
- Hole drill size is 7/32" (drill bit sold separately – see page 291)
- Zinc plated steel material

ITEM #	SCREW DIAMETER	SCREW LENGTH	SCREW HEAD FINISH
220112	#14	1-3/4"	Zinc Plate
220112W	#14	1-3/4"	White

Ladderless Mounting Plate Hardware Kits

Everything you need to make most any ceiling or wall surface magnetically receptive for our full line of Ladderless Magnetic Banner Hangers. Included in each clear polybagged kit are round mounting plates, toggle screw anchors, stud screws and an easy to follow instruction sheet. Works with both hollow walls/ceilings or wood studs to create a strong hold. Pre-drilling of holes is required. Simply select a magnetic banner hanger and determine the number of magnets to then select which kit is required – it's that easy. **Patented.**

- Hole drill size is 7/32" for wood studs and 1/2" for hollow walls/ceilings (drill bits sold separately – see below)
- Use one plate at 11 inches on center for each banner hanger magnet (not for use with our #220517 Heavy Duty Hanger)
- Screws have a flush, low profile Phillips countersunk head
- Plates are .033" thick x 4" O.D. – zinc plated steel
- Toggle screw anchors are 10-24 (3/16") x 3" overall length – zinc plated steel
- Stud screws are #14 x 1-3/4" overall length – zinc plated steel
- Available in zinc plate (silver) or painted white
- Other colors available – please inquire

Terms of Sale

- Minimum order amount is \$150.00.
- We accept Visa, MasterCard, American Express and Discover credit cards at time of shipment. For use of credit cards after time of shipment, we reserve the right to charge a 3% “convenience fee” to cover the additional cost associated with credit card transactions.
- Invoice terms: Net 30 (with prior credit approval).
- Terms of payment are effective from date of invoice.
- An interest charge of 1.5% per month is applied to all late overdue invoices.
- All pricing is subject to change without prior notification.
- Kinter reserves the right to revise the quoted price or add a surcharge line to an invoice to adjust for the impact of any tariff rate changes.
- Shipping within 24 hours is possible only for in-stock catalog items that require no secondary operations, and only if the order is placed via phone by 3:00 CST.
- Large quantity orders may be split into two delivery dates (up to 90 days apart maximum).
- Blanket ship dates may be changed one time for a maximum of 60 additional days.
- For custom made, non-stocking products we reserve the right to fulfill the order with a final quantity of 10% above the ordered quantity.
- We offer free samples on most of the items listed in our catalog; however, we have the right to charge when necessary.
- We reserve the right to change or improve products without notice.

Return Policy

- All damage or shortage claims must be made within 10 days of ship date. Failure to notify us within 10 days of shipment will constitute the acceptance of the shipment.
- No returns granted without prior return authorization number given.
- Unauthorized returns will not be received.
- Customers are responsible for all freight charges related to returns.
- A restock charge of 20% applies to all authorized returns and/or cancellations of catalog items.
- Production run quantities of a catalog item are returnable, subject to our current inventory levels and needs.
- No returns after 30 days from date of shipment.
- No returns on any special work items (i.e. bagged/kitted items, painted items, dyed items, plated items, non-catalog items, custom made items, etc.)
- No returns on items that have been damaged or altered by customer.

Shipping Information

- F.O.B. is Waukegan, Illinois, USA.
- We can drop ship to two separate locations at no charge. A drop ship charge would apply to orders with more than two locations.
- If product is damaged by a freight carrier, please notify the carrier immediately and mark the bill of lading as “damaged.” Please then file a claim with the carrier.
- Customers are liable for any costs related to rejected collect freight charges wherein Kinter (K International, Inc.) is not at fault.

Liability Notice

- Purchaser assumes all risk of liability and damages due to the improper use of our products.
- It is the responsibility of those who purchase from us, and/or their customers who apply our products, to select the proper part and to test those parts at a level that is commensurate with the nature of the application.
- Kinter (K International, Inc.) is not responsible, nor assumes any risk or liability whatsoever, in connection with the products, or combination of the products, contained within.
- Kinter makes no warranty, expressed or implied, of any kind related to the use of our products.
- Claims against Kinter shall be limited to a refund or credit for the price billed or paid for improper merchandise.
- Kinter shall not be responsible for buyer's manufacturing costs, labor, alternate purchases, extra freight, plating, re-plating, lost profit, good will, recall costs or other incidental or consequential damages.
- There are no understandings, agreements, representations, or warranties, expressed or implied (including any regarding warranties of merchantability or fitness for a particular purpose), not specified herein, respecting any sale of products by Kinter (to the extent permitted by law).
- Any merchandise and/or signage shown within Kinter's product catalogs or on a Kinter website is for demonstration only – no endorsement is expressed or implied.

(All above items are subject to change without notice.)

We Are **Family**

At Kinter, family extends beyond those who own our company; it encompasses our employees and customers alike. With our collective focus on your business objectives, there is no challenge too great, and nothing we can't conquer together. So, whenever you have a retail display hardware challenge and need a unique solution or a bright new idea, we'll be right here waiting for you.
